Add Years To Your Life!

By

J. H. WILLEY
of the Capital Drug Store

How life can be extended by the individual through simple and constant care is not as much appreciated nor as well understood as it should be.

Medical knowledge has increased rapidly in recent years, but public education in health has never kept pace. Consequently many people are not aware of all the precautionary measures doctors can take against disease, of the many operations that will restore health, and of the miraculous drugs now available for every phase of medical care.

Consult a physician at least once a year. Follow his advice. Buy only prescribed medicine. Procure it from a skilled, conscientious pharmacist.

This is the 36th of a series of editorial advertisements appearing in this paper each Friday.

"You can't make a bad cup of M·J·B"

says

JANE RUSSELL

co-starring with Bob Hope in "The Paleface"

a Paramount Picture in Technicolor

Strong or rich or in-between, its flavor always steals the scene

1. Each year we search the world to find the finest crops for M.J.B's richer blend. On each plantation, coffee quality varies from season to season—but only the top crops come to M.J.B.

2. "Individual roasting" coaxes out all the secret goodness locked in every bean of M.J.B's top-of-the-crop coffees. (These subtle flavors are lost by ordinary roasting methods.)

3. Highest-vacuum pack seals in every whiff of M.J.B's fragrant goodness till it reaches your cup. Try M.J.B today and you'll agree—you can't make a bad cup of M.J.B.
