

Dallas Awards Construction Of Large Water Reservoir

Dallas, Aug. 28—F. B. Miller and company of Eugene was awarded the construction contract for the city's new 3,000,000 gallon water reservoir by the Dallas Water Commission. The bid was \$117,986.39, about \$1000 lower than that of S. S. Mullen and company of Seattle, second low at \$119,015.03.

F. B. Miller, president of the company, told E. L. McCleary, manager of the commission, that he expects to move equipment in immediately and will be ready to go to work Monday. Engineers from the firm of Cornell, Howland, Hayes and Merryfield will be here Friday, Saturday and Monday to make preparations for actual start of operations.

Contract for construction of the 16-inch pipeline from the reservoir to downtown Dallas was awarded to Salem Sand and Gravel company, low bidder at \$10,748.75.

The reservoir is to be completed within 150 days, and the pipeline will be ready by July 1, McCleary states. The main will come down West Clay street, cross Fairview and on down Clay to Main street. That will be the extent of work this

year, but next year the line will be extended north on Main.

Of the 12 bids on the reservoir submitted for opening prior to the deadline of 2 p.m. last Thursday five were grouped closely for low. As later corrected for changes in specifications, the three others nearest the low bid and that of S. S. Mullen and company, second low, were as follows: Carl M. Halvorson, Portland, \$120,235; Empire Construction company, Portland, \$121,326.44; P. S. Lord and company, Portland, \$122,780.81.

Others ranged higher: Howard Halvorson company, Portland, \$130,231.97; Henshaw Bros., Portland, \$137,526.20; Lee Hoffman, Portland, \$142,379.95; Tauf Charneski, Portland, \$142,602.57; E. C. Hall company, Portland, \$150,885.30; Norris Lovney company, \$151,913.60; and Salem Sand and Gravel company, \$162,768.07.

On the pipeline, seven other bids were submitted besides the successful bid of the Salem Sand and Gravel company. They were: Empire Construction company, \$10,771.45; S. S. Mullen company, \$11,743.97; P. S. Lord, \$13,222.15; H. C. Werner, \$14,079.50; F. B. Miller and company, \$14,884.75; Henshaw Bros., \$17,552.00; and Carl M. Halvorson, \$23,775.25.

Leif F. Finseth, chairman of the water commission, presided at the opening of bids last Thursday afternoon. Members of the commission and councilmen were pleased with the num-

ber of bids submitted and the interest shown in the project. McCleary states that the successful bids were very close to preliminary estimates of the commission and the engineers. Mr. Miller, president of F. B. Miller and company, was general superintendent for P. S. Lord and company when that firm constructed the storm sewer on Church street here three years ago.

U. S. to Take Over Huge Wheat Supply

Chicago, April 28 (AP)—Grain market observers predicted today that the bulk of a potential 251,000,000 bushels of wheat now under federal loan agreement will fall into government hands Saturday, but that the change-over will have little ef-

fect on the market. The loan agreements expire Saturday. Farmers at that time must decide whether to sell the wheat at the market price or surrender it and close out the loan.

Butter Labeling Checked
Portland, April 28 (AP)—Creamery butter is being checked by the department of agriculture to learn whether it is properly labeled.

Pearl Harbor, T. H.—Mrs. Hattie J. Black, 1140 Columbia street, Salem, Oregon, is pictured when she arrived at Pearl Harbor recently aboard the navy transport USS General Mann. Mrs. Black, who is in Hawaii to visit her son, Marine Lt. Col. K. H. Black, was met at the ship by her daughter-in-law, Mrs. K. H. Black and their son. Col. Black was absent on a temporary tour of duty. Mrs. Black will spend her visit at her son's quarters, 300 Plantation Drive, Naval Housing Area, Pearl Harbor. This is Mrs. Black's first visit to the islands. Lt. Col. Black is serving with Fleet Marine Force, Headquarters, Camp Catlin, Oahu.

London Has Eclipse
London, April 28 (AP)—London was darker than usual this morning. A partial eclipse of the sun darkened the city. Scientists at Greenwich observatory said they couldn't see the eclipse through the regular fog.
