Members of the county court after visiting the county 4-H club show at Silverton Friday afternoon inspected the newly completed Dunagan bridge on the Abiqua highway now open to traffic. However, while it is completed as far as carrying traffic is concerned it is planned to add a cover to the structure a little later as there are heavy snows and rains in the vicinity and it is estimated the cover will preserve it for many years longer than if left open to the elements.

The court also inspected the Meridian road for damage done there and went over the Gervase-Pratum road where long stretches have been scarified and re-locked preparatory to a new oiling coat to be put on this summer. This road had been paved in places parts of it had to be completely torn up and made ready for a new coating. Where the road has been relocked it will carry traffic but is somewhat rough.

The court found that all the steel has been put in place on the new McKee bridge with only some of the riveting yet to be done.

Report to the court Friday sent Harvey Girod to the Morris bridge over the Pudding river east of Woodburn at the county line to ascertain extent of damage done to some glanking there said to be broken. Girod found what he termed a very dangerous condition and a county crew was sent to make immediate repairs.

### Selling Cancels Earlier Gains

Chicago, April 30 (AP)—Moderate selling pressure toward the close reduced or cancelled early gains in grains, soybeans and lard today. The market was not active with dealings confined mostly to local traders.

The local crowd bought at the outset, inspired in part by failure of parity prices to decline during the March 15 to April 15 period. And confirmation of trade reports of large pork export allocations. Advances of dust storms in western Canada helped the early advance.

Toward the close the local crowd tried to even up its commitments for the week-end, causing the late slump. Much uncertainty existed concerning the cash wheat buying policy of the commodity credit corporation next week.

Wheat closed 1/4 to 1 cent higher, May \$2.17 3/4-3/8, corn was 1/4-1/2 cent higher, May \$1.32 1/4-1/8, oats were 1/4 to 3/8 higher, May 64 3/4-1/4, rye was 1 1/4-1 1/2 higher, May \$1.22, soybeans were 1/4-1/2 higher, May \$2.25-2.25 1/4, and lard was 1 cent lower to 3 cents a hundred pounds higher, May \$11.90

### Democrats Meet To Elect Chairman

Portland, Ore., April 30 (AP)—The democratic state central committee was meeting today to elect new officers for Oregon.

The state committee was faced with a contest between William L. Josslin and Mike DeCicco, both of Portland, for chairmanship, with Clarence F. Hyde, Eugene, a possible third candidate.

Upstate members were said to have little interest in the Josslin-DeCicco argument, thus bringing Hyde's name into the race as a dark horse entry.

The annual Jefferson-Jackson day dinner will be held at the Portland hotel at 7 p.m. with Sen. Estes Kefauver of Tennessee as the main speaker.

### Mrs. FDR Wants Russian to Enter

Hollywood, Fla., April 30 (AP)—Mrs. Franklin D. Roosevelt says she believes the United States should permit visitors into the country from Russia and the satellite countries.

A false fear causes this country to close its doors to visitors from communist-dominated countries, she said. By letting them in they would see something of the democratic way of life even though "they would not dare go back and tell the truth" except behind locked doors.

Mrs. Roosevelt, a member of the United Nations commission on human rights, addressed the closing session of the General Federation of Women's clubs here last night.

"We have no conception of Russian discipline," said the widow of the wartime president. "Even Russian officials in this country on United Nations business are terribly afraid. When they accept invitations they bring another with them, one to protect the other."

### Education Aid Battle in Senate

Washington, April 30 (AP)—A senate scrap over a \$300,000,000 federal aid to education bill centered today around the question of how to divide the money among the states.

The issue was tossed into opening debate on the bill yesterday by Senator Lodge (R-Mass). He offered an amendment to distribute the money through a \$10 yearly payment for each public school child.

The bill now calls for dividing the money by a complex formula which takes into account not only the number of children 5 to 17 years old in a state but also the annual income of its residents.

Under the bill as now written the federal payments for teachers' salaries and other school operating expenses would vary from \$5 a child in the richest states to slightly over \$29 a child in the poorest.

That, Lodge said, is "ridiculous." He said a state can't be classified as rich or poor "simply on the basis of how much income its residents have received over a given period of time."

### One Million Gallons of Scotch Goes Up in Smoke

Edinburgh, Scotland, April 30 (AP)—One million gallons of Scotch whiskey, barreled for export, burned in a fire which swept an Edinburgh suburban warehouse last night. A flaming river of whiskey flowed into the street out of the burning casks. Of undetermined origin, the fire was brought under control shortly after midnight.

### Oppose Cut by Economy Drive

Washington, April 30 (AP)—The administration fought back today to avert a republican-led drive to cut five percent off the government's operating expenses.

Senator Myers of Pennsylvania, acting democratic leader, told reporters an attempt will be made next week to restore a \$11,440,000 slash in funds of the labor and federal security department.

This cut was ordered by the senate by a 44 to 37 vote last Thursday which sent the \$2,400,000,000 bill back to the appropriations committee.

The five percent cut proposed by Senator Ferguson (R-Mich) would apply only to department operating funds, which make up but a small part of the bill carrying money for social security and other payments to states.

Ferguson's latest attempt to apply a five percent cut—this time to the \$3,112,000,000 treasury-postoffice money bill — was beaten in the appropriations committee yesterday by a 13 to 4 vote.

Perhaps significantly, the roll was taken after Chairman McKellar (D-Tenn) and Senators Hayden (D-Ariz) and Russell (D. Ga.) had conferred at the White House with President Truman.

### Coplon Viewed Secret Files

Washington, April 30 (AP)—Testimony that Judith Coplon looked at secret FBI reports after she had been told not to brought to a close the first week of her espionage trial.

The testimony was given late yesterday by Mrs. Ruth M. Rosson, an attorney in the justice department's internal security section.

Federal Judge Albert L. Reeves then adjourned the trial until Monday.

Mrs. Rosson said she went to work in the section Feb. 7. Shortly thereafter, she testified, Miss Coplon came into her office and said she would like to look over internal security reports she had in two file baskets.

"She looked at them and she took some of them back to her office," Mrs. Rosson said.

A day or so later, she went on, Miss Coplon returned and asked for any reports relating to foreign embassies, legations and consulates, especially reports marked "R" for Russian.

"Did you send them to her?" asked government Prosecutor Raymond P. Wherry.

"I did," the witness replied.

She estimated that Miss Coplon got 50 or 60 such reports.

Earlier, Miss Coplon's former boss, William E. Foley, testified that he told the defendant late in January or the first of February that she was to stop doing any work in connection with internal security.

### Hope to Kill Off Increased Taxes

Washington, April 29 (AP)—Republican senators, encouraged by an upset victory, today drove to slim down President Truman's multi-billion dollar spending program all along the line.

They thus hope to kill off any federal tax increases this year.

Senator Taft (R-Ohio) spearheaded the successful economy campaign which late yesterday sent a \$2,400,000,000 money bill back to the senate appropriations committee with instructions to cut it.

A solid bloc of 36 republicans got unexpected aid from eight democrats to turn that trick and bowl over a long-standing senate tradition not to send appropriation bills back to committee. Voting against the motion were 37 democrats.

Most senators thought they were voting for a cutback of about \$150,000,000. But experts on senate rules say the slash actually may include well over \$200,000,000 previously added to the bill but chipped off by its return to committee.

Taft, smiling broadly, told reporters afterward that he apparently caught the democratic leaders by surprise. Only a few moments before they had blocked a GOP move to cut the bill on the floor. The vote was 45 for to 35 against—considerably short of the two-thirds margin required.
