

Woodburn Students Plan Annual May Day Program.

Woodburn, May 4 — The annual May Day exercises at Woodburn high school will be held Friday, beginning with a parade led by the Woodburn high school band, in full uniform, escorting Queen Jean Hove and her court. Immediately following the parade, at approximately 1:30 o'clock the coronation will take place on the high school lawn.

Both music departments of the school will furnish music for the fete, including a march by the band and three numbers by the girls' chorus. A baseball game between Woodburn and Canby will be the concluding event of the afternoon.

At 8 o'clock a program will be furnished by the student body, including the girls' physical education classes, the chorus department, orchestra and the band. Following an overture by the band the Royal Court will enter and the freshmen girls will wind the Maypole.

The complete program, which is based on the high school annual "The Wobiscan," includes the dedication by the chorus, a faculty satire, class dances, and a sports review by the group of modern dancers. A girls' group marching to music by the band will precede the tumbling act and a medley dance composed of the varesouviene schottische, rye waltz and the polka.

The Slogers and their orchestra provide music for a group of square dancers, followed by a cowboy polka. Final attractions are: The glow worm dance by the junior high girls, a snapshot preview including the an-

Liberty Residents Busy With Church

Liberty—The Missionary society of the Liberty Church of Christ met Wednesday at the home of Mrs. Wayne Sipe on Boone road at 1:30 o'clock.

The Bible study group of the Liberty Church of Christ will meet Wednesday at the Moore home on Liberty road at 7:30 o'clock.

Rev. and Mrs. Ellery Parrish and family attended the Liberty church Sunday when Rev. Parrish, who will be the pastor, preached his first sermon. The Parrishes are looking for a house to rent in the community. Mrs. Parrish and the children will join him as soon as school is out. They now live in Portland. Daryl Hunt, who has been acting as pastor, will take charge of the young people.

There will be a special program for the mothers Sunday, May 8. A carnation will be given every mother present.

Queen Jean I, daughter of Mr. and Mrs. H. E. Hove of Aurora has been an active member of her class and the student body throughout her four years at Woodburn high. Last year she represented her class as May princess, served as a member of the office of student body treasurer. During the current school year she served as student body secretary, was a member of the Booster Pep club, and was selected as Williamette Valley sweetheart. She is also valedictorian of the 1949 graduating class.

HISTORIC MEDICAL HIGHLIGHTS—No. 32

40% MORE HOPE

SIXTY years ago Diphtheria was the largest single cause of child death. That it is not so today is due to two men: Loeffler, who in 1884 isolated the Diphtheria bacillus and Behring, who soon afterward discovered that serum taken from immune guinea pigs and injected into non-immune animals resulted in the immunity of the latter. As a result of their research, the use of toxin injections to fight diphtheria began. Its triumph has been the reduction of Diphtheria deaths from 50% to less than 10% of all cases.

Beyond it — Only the Future!

White sidewall tires available at additional cost.

The man who wants a finer motor car than the 1949 Cadillac, will have to wait.

He will have to wait until the science of motor car manufacture has reached a higher level. For here—in this gorgeously beautiful creation—is to be found the embodiment of all that is currently good and desirable in an automobile.

It is, in every way, as fine and splendid a motor car as it is practical to produce.

As is true of each succeeding Cadillac model, the advancements in the 1949 car are manifold, and encompass every aspect of the car's goodness. But the year's greatest advance is in the power plant—a

wholly new V-type engine which easily ranks as Cadillac's creative masterpiece.

The power flow is so smooth, and so seemingly inexhaustible, that many say the car seems to move by automatic propulsion. Performance is really a challenge to the imagination.

If you wish to know how truly wonderful a motor car can be, you are cordially invited to call at our showrooms for a look and a ride.

You are welcome at any time—regardless of the price class from which you expect your next car to come.
