

Oregonian Asks New Wheat Plan

Washington, May 5 (AP)—Oregon wheat growers today urged a two-price system for marketing wheat to cut down surpluses and avoid strict government acreage controls.

The plan was presented to a house agriculture subcommittee by R. B. Taylor, wheat producer of Umatilla county, Ore. The subcommittee is studying the long-range farm program recently outlined by agriculture secretary Charles F. Brannan.

Taylor said his plan is self-financing and "therefore not a continual drain on the public treasury." He proposed that flour millers be required to buy certificates for all wheat to be used for human food in the U. S. The price of the certificates would be the difference between the market price and the government support level. This extra cost would be reflected in retail prices.

The certificate would be purchased from the wheat farmer. They would be issued to each farmer for his proportionate share of the total crop needed for human food.

Wheat moving into other domestic uses or into the export trade would move at a lower price.

10 Nations Sign European Pact

London, May 5 (AP)—Ten European nations signed a charter today binding them together in a council of Europe.

In effect, the charter sets up a parliament and cabinet of Europe's western democracies. The founder nations are Britain, France, Belgium, The Netherlands, Luxembourg, Norway, Sweden, Denmark, Italy and Ireland.

The signing ceremony took place in the red-carpeted Queen Anne's room of historic St. James' palace.

Greece and Turkey have applied to join the union, and it is expected these two will be admitted by the time the council holds its first session this summer at Strasbourg, France.

Britain's labor government, meanwhile, paved the way for the appointment of Winston Churchill as a delegate to the council. The labor government had not considered conservative leaders in setting up the British delegation.

To Reorganize Indian Affairs

New York, May 5 (AP)—John R. Nichols, recently appointed U. S. Indian affairs commissioner, plans a reorganization "to bring about full-fledged participation of Indians in national affairs as soon as possible."

Nichols announced the plan in his first public speech since his appointment to head the Indian affairs bureau in the department of interior. He spoke yesterday before the annual meeting of the American Association of Indian Affairs.

Nichols said his plans for reorganizing the bureau along more efficient lines included the setting up of three divisions. These will deal with community relationships, resources on Indian lands, and administration of buildings, utilities and other facilities.

The association passed a resolution supporting a plea by its president, Oliver La Farge, for immediate federal action to reorganize the bureau.

Horse Show to Open Saturday

Fine animals, costly trappings and spectacular action will combine to make the fifth annual Western horse show in the stadium of the state fairgrounds next Saturday and Sunday a standout production, according to those who have the responsibility of staging the performances.

Sponsored by the Willamette Valley Horsemen's association, the Oregon Mounted Posse and the Salem Saddle club, the show is expected to attract more than 100 horsemen from outside of the city, six of them coming from as far away as John Day. The local association has a membership of close to 300.

The parade, forming at Marion Square at 10:30 and proceeding through the business section will feature a number of fine riding horses and trappings that are worth many thousands.

The first performance will start at 8 o'clock Saturday night and will include a varied program that will extend over a period of more than two hours. The production will include calf roping, bareback riding, wild cow milking, flag rally, stake bending race and numerous other attractions. The "silver horse" parade held in the arena will permit display of silver mounted saddles and other equipment with a value in excess of \$50,000.

The show will be repeated at 2 o'clock Sunday afternoon.

Truman Happy On Berlin Issue

Washington, May 5 (AP)—President Truman said today he is very happy over the Big Four agreement to lift the Berlin blockade and consider the whole German problem at a session of foreign ministers in Paris.

Asked if the foreign ministers' meeting might be followed by one with Premier Stalin and Prime Minister Attlee, he told his news conference he sees no necessity for a meeting of heads of state.

The president would not comment on a report that Gen. Lucius D. Clay, retiring U. S. commander in Germany had expressed fear the present agreement with Russia might be just a temporary truce.

He made it clear that all negotiations leading to the agreement to lift the blockade were conducted by Roving Ambassador Philip C. Jessup and that he had no personal communications from Stalin.

He said "appalling conditions" among Indians, particularly in reference to health and education.

Wallace Rapped By Vandenberg

Washington, May 5 (AP)—Senator Vandenberg (R., Mich.), rebuked Henry Wallace to his face today for insisting before the world "that our country is imperialistic in attitude and objectives."

Wallace, former vice president and cabinet officer, was testifying to the senate foreign relations committee in opposition to the north Atlantic security alliance.

He called the pact "aggressive to Russia" and accused the state department of keeping secret a Russian offer on March 21 to lift the Berlin blockade.

And, Wallace said, there are individuals of "evil actions" who want to "enforce our will by force in all parts of the world."

Finally, Vandenberg told him he could not condone Wallace's action "in going about insisting that our country is imperialistic in attitude and objective—that it bent on world conquest in one form or another."

"There is room in this field for honest disagreement," Vandenberg said. "Some of us may be just as sure we are seeking peace as you are."

Vandenberg made this statement after Chairman Connally (D., Tex.) had asked Wallace if he wants this country to "sit down and let Russia absorb the world and do nothing about it?"

"I say that neither Russia nor the United States is devoted to obtaining peace. I don't hold a brief for either one."

Child Rescues Father—Nancy Sebern, 4, points to a ditch where her father, Rudolph Sebern, was buried in a cave-in at Coeur D'Alene, Idaho. Nancy ran and got neighbors. They dug Sebern out enough so he could breathe. He was in a critical condition when he was removed from the ditch. (AP Wirephoto)

Stock Market Turns Irregular

New York, May 5 (AP)—Profit taking slumped down an early rise in the stock market today.

At the final bell prices were seasawing indecisively. Gains and losses, mostly fractional, were thoroughly mixed. Many leading issues swung back and fourth between the plus and minus sides.

Business was rapid in early dealings, turnover was at a rate approaching 1,000,000 shares for the full day.

Early buying, as was the case yesterday, was stimulated by the possibility of improved relations with Russia as well as house opposition to repeal of the Taft-Hartley law.

Lower were U. S. Steel, Republic Steel, General Motors, Chrysler, Studebaker, Douglas Aircraft, Anaconda Copper, American Woolen and Gulf Oil. Steadier spots included Youngstown Sheet, Montgomery Ward, Woolworth, Schenley.

Safeway Stores, Radio Corp., Standard Oil (N.J.), and Seaboard Oil.

American Telephone sold at the lowest price since 1943 on a decline of around 1/2 point.

McKay Signs 28 More Legislative Bills

Governor Douglas McKay signed six more legislative bills today, leaving 28 left that he must act on before next Tuesday's deadline.

One of them was house bill 160, which makes it possible for Portland and Eugene to get federal money for slum clearance.

Other bills signed today: SB 334, relating to commission for the blind.

SB 335, letting board of control sell or lease certain state property.

HB 263, making it illegal to peek into windows of dwellings.

HB 474, relating to dog licenses.

HB 559, appropriating funds for state department of veterans affairs and Oregon national guard.

May Add Floor To Courthouse

Possibility of a floor added to the new courthouse to make six with the basement instead of the five floors as originally planned was main meat for discussion at a session of the building commission Wednesday afternoon. The new floor would house the juvenile department, separate it from the jail quarters and keep from juveniles the stigma of being jail birds. Included would be a solarium similar to that incorporated in the new treatment ward at the state hospital to give fresh air and exercise facilities.

The idea was taken seriously enough that County Judge Grant Murphy directed rough estimates be had as to the costs to see if it can be held within the available funds.

The original plan called for both the jail and juvenile quarters in the fifth floor area. The proposal now would give enlarged quarters so as to house 14 to 16 juvenile boys instead of eight as had been contemplated and space would be provided for four girls. In the main jail quarters are planned for 60 men and 10 women, while space provided for mental cases awaiting disposition would be reduced from six to quarters for one man and one woman.

Among other subjects of discussion was disposition of the statue of justice on the tower of the present building and possibility of preserving it and also the question of installation of a clock.

Minor alterations in floor plans were gone over and revised plans will be submitted by Architect Pietro Beluschi to interested officials.

Cafeteria Contracts For State Buildings

Contract for operation of restaurants in the Capitol building and the new state office building was awarded Thursday to Mr. and Mrs. J. J. Scott of Salem, former operators of the Winona Chalet, according to Secretary of State Earl T. Newberry.

The coffee shop in the basement of the capitol, operated

Salem Shops Up Pay Rates

Several Salem shops which are not members of the Woodworker Employers association have signed new wage agreements with their employes calling for a boost of 17 1/2 cents an hour. The announcement was made Wednesday by F. D. Van Swearingen, executive secretary of the Salem Building Trades council.

About 100 members of Millmen's local 1411 employed at four Salem firms belonging to the Woodworker Employers association are still idle. Divisions of the firms employing millworkers closed April 26 after a strike by AFL millworkers at a Portland plant.

Emergency Board Meeting Postponed

The meeting of the state emergency board, scheduled for next Monday has been postponed to Friday, May 13, according to Harold Phillippe, secretary. The postponement became necessary when several members of the board informed the secretary of inability to reach Salem on Monday.

A request by the secretary of state for an appropriation to cover the cost of remodeling the basement of the capitol to provide a hallway connecting with the tunnel between the capitol and the new building will be requested. The amount of this request has not yet been determined as engineers have not yet completed estimates. The board will also be requested to provide funds for enlargement of the

Winter Weather Returns to Alaska

(By the Associated Press) A late nip of winter is hitting most of Alaska. U. S. weather bureau reports covering the past 24 hours showed a one below zero minimum reading for Nome. Yesterday's maximum there was only 27 degrees, five below freezing.

The New '49 PONTIAC

Even Better than it Looks!

When you observe its fresh and fleet new beauty, it might seem unbelievable when we say that the 1949 Pontiac is even better than it looks. But after you've examined its scores of new comfort and quality features... after you've experienced its really exciting performance... we're sure you, too, will agree that in basic goodness, it surpasses its own good looks!

It's hard to believe a car so low-priced could combine the flashing sleekness of Pontiac's new styling... the gracious comfort of Pontiac's new Vision-Aire interiors... and the almost incredible road-easing action of Pontiac's exclusive "Travelux" Ride. Add to those unique attractions, the "zing"... the smoothness... the economy and proved dependability of Pontiac's famous improved straight eight and six cylinder engines... and the matchless driving enjoyment of GM Hydra-Matic (Optional on over one) and you've got something almost irresistible! There's no better time than now... to see it and to place your order.

PONTIAC'S EXCLUSIVE NEW "TRAVELUX" RIDE is an experience in comfortable ease unique among motor cars—achieved by combining Pontiac's new Center-Poised seating, softer springs, gentle-flex front suspension, new sealed airplane-type hydraulic shock absorbers and new low-pressure tires!
