

## Polk is Asked Quota of Bonds

Dallas—A quota of \$85,000 has been set for Polk county's share of the U.S. Saving Bonds Opportunity Drive, but the newly appointed county committee hopes that residents will far exceed this quota.

George Minnaugh, state director of the bonds division of the treasury department, was in Dallas to meet with the county committee at a luncheon recently. He pointed out that the county quota is very small in comparison to those of wartime and stated that it is only a few thousand dollars more than residents are purchasing normally in a similar period of time.

Date of the drive is from May 16 through June 30. Emphasis here will be placed on the Bond-A-Month plan and the payroll savings plan. A sub-committee will be appointed to contact industries and businesses of the county which employ 20 persons or over, asking them to cooperate on the payroll savings plan.

An advertising campaign will be conducted through county papers with the cooperation of local businesses.

The committee will attempt to point out to the public the facts that widespread investment in E bonds will secure a more balanced ownership of the national debt and bring the interest to private owners rather than banks. At the same time a backlog of bonds in the hands of individual owners will help stabilize local economy by providing a reserve for a "rainy day" and preventing recessions due to industrial shutdowns and other causes.

Charles M. Thomas has been appointed chairman of the county savings bond committee. Others are Walter Craven, Neale Povey, Claude Hoisington, S. E. Whitworth, Wesley Sherman, all of Dallas; John Pfaff, Ralph Kietzing and Ira Mix of Independence; Q. L. Jacobsen, Al Brown and R. B. Swenson of Monmouth.
