U of W Students School Supervisor

Seattle, May 20 (P)—Plaball machine losses by University of Washington students in the University district have been large and reached as high as \$2,000 for one student, a letter to the school's authorities said today. Such heavy losses are detrimental to "pocketbook, school work and the peace of mind of many students," the four protesting undergraduates wrote. The letter to President Raymond and Newbers Rear is a present content of the county health officer of the health department learned from the county health officer of the health department learned from the county health officer of the health department learned from the county health officer of the present low venereal disease rate. However it is expected the rate will rise, especially in those areas where there is a sudden influx of population.

A program of rat proofing buildings, based upon a city or dinance, was proposed by a representative from the U. S. public health service. The service will provide and supply a man to work in Salem along with the county health officer of the health department learned from three county health officer of the health department learned from the county health officer of the present low venereal disease rate. However it is expected the rate will rise, especially in those areas where there is a sudden influx of population.

A program of rat proofing buildings, based upon a city or dinance, was proposed by a representative from the U. S. public health service. The service will provide and supply a man to work in Salem along with the restoration of Jogiakarta as the republican capital, agreed upon this month at Batavia confering an educational program.
