And Black Eclipse Explained

Astronomer, Extension Division, Oregon Higher Education System "Can you tell me in 10 easy words the difference between a total" and a 'black' eclipse?"

Total and a black eclipse: Our correspondent referred to the press reports regarding the unusual darkness of the moon for a while during the recent fade-out. Many then had difficulty seeing it and suspected a small

cloud possibly obscured it al-though the bright star Spica nearby remained bright. Some Spica also faded.

her frequent trips. She left Friday morning by Pacific Trailways bus for Altus. Okla., by way of Los Angeles and Albuquerque, and will make the entire trip by Trailways, as she has done several times in recent years to southern places

Recently she went to Los Angeles, and on a three-day stay there appeared on an ABC net-work program, and was re-awarded with an electric washing machine, electric mixer, etc. The present trip to Oklahoma is to visit her last blood relative, Mrs. Aba Bush, who is ill. In Los Angeles she will again be

on a radio program. Mrs. Bowman travels alone.

Stocks Level Off After Decline

New York, May 21 (4)-The stock market levelled off to-day after a four-day running decline

It was scarcely an aggressive

advance but a good majority of

key issues moved up minor frac-tions. A handful of minus signs dotted the list and numerous shares remained at Friday's fi-

nal quotations. Trading 16-3 stow even for a Saturday. Turnover was at a

rate which would bring transac-tions for the two hours only slightly above 200,000 shares.

Brokers now are blaming the

approaching fourth-round wage negotiations-with the prospect of higher wages coupled with de-

clining sales - as the major stumbling block in the market's
