

Model Plane Enthusiasts Will Foregather in Seattle

Attracting model plane enthusiasts from throughout the north-west Memorial day will be the Big Northwest Model Air show to be held at the U. S. Naval Air Station in Seattle.

Oregon contestants began adding their names to the already growing list last week following the issuing of rules for the contest and entry blanks. Three Oregonians had returned their blanks by last Friday. These three were Roger D. Smith, West Linn, age 28; and Dan Hadspeh, age 37, and Jack Hadspeh, age 14, both of Portland.

The rules as issued state that: The contest committee will furnish the plans for all speed classes, with one flying handle per class available but contestants may use their own handles. It will be compulsory for the flyers to use the lines allotted. Line lengths and diameters are: Class A—510 diameter, 50 feet long; Class B—510 diameter, 60 feet long; Class C—514 diameter, 70 feet long; and Class D—516 diameter (stranded cable), 70 feet long. Each contestant may enter only one model per class of speed. Three minutes starting time will be the maximum allowed. Contestants will be permitted three attempts to make three official flights. No more than three official flights in each motor class will be permitted each contestant. If necessary, the contest director may reduce this to two attempts to make two official flights. Speed models will be classified by piston displacement of engines as follows: Class A—500 to 200 cc. in piston displacement; Class B—201 to 300 cc. in piston displacement; Class C—301 to 500 cc. in piston displacement; and Class D—501 to 650 cc. in piston displacement. The entire control mechanism, from the handle to and including the model, shall be strong enough to withstand a pull-test equal to 30 times weight of the model.

Scoring is to be based on appearance of model and the maneuvers in flight.

The maneuvers, in order, are: (1) starting; (2) takeoff; (3) level flight; (4) climb; (5) dive; (6) wing-over; (7) consecutive inside loops; (8) consecutive outside loops; (9) inverted flight; (10) horizontal figure eight; (11) vertical figure eight; (12) square loop; (13) special maneuver and (14) landing. Prior to the flight the contestant will notify the judges as to the maneuvers he wishes to omit or any special maneuvers that he plans.

Uncle Sam has nearly 29 million youngsters between the ages of 5 and 17.

Lebanon Cannery Receiving Berries

Lebanon, May 24—First shipments of strawberries were received by the Lebanon Packing company Friday when first canning and cold storage packing operations got under way. Heavy receipts are expected all this week beginning this Monday morning.

Strawberries will be canned in eight ounce and Number 2 cans, while cold packing will be done in one and five gallon tins.
