Tom Bridges has been named captain of the Salem high school track squad for 1950 and Jim Rock will lead the Viking football team next fall, according to action taken by fellow students.

Bridges has been a member of the track team as a sprinter and relay performer for two years and Coach Vern Gilmore predicts he will be the No. 1 Viking sprinter next season. He has taken part in the last two state meets.

Rock played end last season but Coach Loren Mort expects to move him to the backfield for the fall campaign.

### Frisco Players Get Priority for Japan Ball Tour

Tokyo, May 27 (AP)—Maj. Gen. William F. Marquat said today the San Francisco Seals of the Pacific Coast league under Manager Lefty O'Doul would have No. 1 priority on an exhibition baseball series in Japan this fall.

The general said the Seals would have to find their own sponsor to guarantee their expenses, if they need a guarantee. He said he was encouraged on the prospect that the Seals would play a series against occupation and Japanese teams.

### New York Fights Canceled Over Radio-Video Cash

New York, May 27 (AP)—Big time boxing in New York is at a standstill while the managers and promoters haggle over television cash.

The "war" already has knocked out a proposed June 17 welterweight fight between Champion Ray (Sugar) Robinson and Kid Gavilan. It also has cancelled plans for Madison Square Garden shows on June 3 and June 10.

It is possible—even likely—that the Garden will be idle as far as boxing goes for the entire summer.

Robinson and Gavilan were to have signed for their polo grounds championship bout at the offices of the New York state athletic commission yesterday. The managers refused to sign.

The New York managers object to a clause in the official contracts giving control of radio and television rights to the promoter. This clause is incorporated in the contract only when a club regularly airs its shows. The managers want it eliminated.

### Silverton Sox Open Campaign On McGinnis Lot

Silverton—The opening game in the state league campaign for the Silverton Red Sox, Bill McGinnis, manager, will be Saturday evening, June 4, on McGinnis Field entertaining Albany Alcos.

Local folk and surrounding community fans are welcoming the Red Sox back after an eight-year absence from the loop.

McGinnis requested the names of his players to be withheld until later as it was not yet known who would make the team.

Joe Louis' last eight defenses of his heavyweight title were made in New York City rings.

### Slur on Roseburg Brings Fast Reply

Washington, May 27 (AP)—Congressman Harris Ellsworth asked his audience in a senate appropriations subcommittee hearing yesterday what is so wrong with Roseburg, Ore. It's his home town and he resented remarks by Dr. Paul Magnuson, veterans' administration medical chief, before a house subcommittee.

Magnuson mentioned that the VA had difficulties staffing the Roseburg veterans hospital because of its isolation, poor transportation facilities and distance from town.

The Oregon representative noted his home city's rail and bus facilities, the hospital's suburban site and added he "never heard of anyone being unhappy about being assigned" to the Roseburg hospital.

Then the medical chief said: "I apologize for my inaccuracies. I am going to learn to keep my mouth shut unless I know what I am talking about."

### Deny Politics In Atomic Issue

Washington, May 27 (AP)—President Truman's crack that the atomic energy commission has become a "pre-election campaign" target met a republican denial today that politics is involved in congress' AEC inquiry.

The president said he deplored "the fact that trivial items have been blown up to the proportions that threaten the integrity of the (atomic) program."

This was an apparent reference to (1) the disappearance of an ounce of uranium—of which the AEC said all but one-seventh was recovered—and (2)—the revelation that at least one

communist was awarded an AEC study fellowship. In a formal statement read at yesterday's news conference, the president added:

"It is time the people stopped getting hysterical when the word atom is mentioned. The plain fact is that the atomic energy program is in good shape. I hope the commission will soon be able to get back to work and that the atomic energy program will cease to be used for pre-election campaigns."

While Mr. Truman said he has "entire confidence" in AEC Chairman David E. Lilienthal, Senator Hickenlooper (R-Iowa) told reporters he differs on that point.
