

Dallas—First of its type in Polk county, a new hay storage barn and dryer at the Chester Jenkins' farm, Greenwood, will hold between 50 and 60 tons of hay and can be constructed at a cost of about \$1000. The circular shed has a shaft running vertically through the center as an air vent. A blower may be placed in the doorway at the bottom to force air up the shaft and through the hay. Cracks are intentionally left between the exterior sheathing to allow an exit for air. In the picture are Marvin Jenkins (left), father of Fred Jenkins (center) and son of Chester Jenkins (right). The shed now nears completion and will be filled soon with chopped hay. (Abel photo)

Hall Takes Over Coming Month

Joseph I. Hall, a native Oregonian and a graduate of Oregon College of Education and the University of Oregon, will take over his new duties as director of curriculum and publications in the state department of education on July 1, it was learned today.

Mr. Hall has been assistant professor of education and director of audio-visual service at University of Maine, in Orono. He replaces Dr. Robert Anderson, who resigned in September to accept a similar position in California.

In his new position, Hall will be responsible for coordination of curriculum-making activity in the schools of the state. He will also serve as secretary of the state text book commission and editor of the publications of the state department of education.

Dutch Forces Quit Indonesian Capital

Batavia, Java, June 25 (AP)—Dutch forces began pulling out of Jogjakarta, capital of the Indonesian republic today.

Dutch army headquarters here said that within six days all Netherlands forces will be evacuated from Jogjakarta which was captured in a surprise paratroop attack six months ago.

The evacuation was agreed to through the United Nations commission on Indonesia Wednesday. Some equipment and troops had been pulled out in the six weeks since a provisional agreement was reached to turn the capital back to the republicans in return for their cease-fire order to guerrillas throughout Java and Sumatra.

Crosby, Hope Find All Roads Not \$ Lined

Snyder, Tex. (U.P.)—The travel-in' was a little dusty for Bing Crosby and Bob Hope, the movie "road" team, in their first venture in a Texas "wildcat" oil well.

A Surry county well in which the movie and radio comedians were partners with W. A. Montcrief has been abandoned at a depth of 7,978 feet, where no show of oil was noted.

Installation Buying Controls to Lapse

Washington, June 25 (AP)—Government controls over installation buying by consumers will be allowed to expire at the end of this month, senators said today.

The wartime and post-war controls over the amount of down payments and total time for payments have been known as "Regulation V."

Senator Robertson (D., Va.), chairman of a banking subcommittee which held hearings on a proposed extension, said his group "contemplates no further action."

"Sicilian Vespers" is the name given to a great massacre of the French in Sicily in 1282, so-called because it started on Easter Sunday at the vesper hour.

Astronomer Gives Advice On Building Telescopes

By J. HUGH PRUETT
Astronomer, Extension Division, Oregon Higher Education System

"Will you write a story on how one may acquire at a moderate cost a telescope for viewing the stars?" (Mrs. J.G.Z.)

Draw-tube terrestrial telescopes selling from \$10 to \$30 are seldom of much value in studying the heavenly bodies. High-grade optical parts, specially constructed, are needed. The stated size of a refracting telescope indicates the diameter of the front lens. Before the war, one company was making a really fine 2-inch instrument for about \$50. Recently some concerns are selling at about this price military surplus material, reputed to have cost the government much more.

200,000 Reds in Hungary Purged

Prague, Czechoslovakia, June 25 (AP)—Hungary's Red leader, Matyas Rakosi, said last night 200,000 Hungarian communist party members have been expelled in a purge of "spies and provocateurs."

The communist party chairman told a rally of Czech workers he is waging a "campaign of destruction with an iron hand" against dissidents still in the party.

Apparently he referred to the recent expulsion and arrest of Laszlo Rajk, former Hungarian foreign minister, and other communist leaders on charges of spying and Trotskyism.

Rakosi said a purge of Hungarian communist ranks was found necessary to "strengthen our party." He said it had been trimmed to about 1,000,000 members.

IT'S BUICK AGAIN

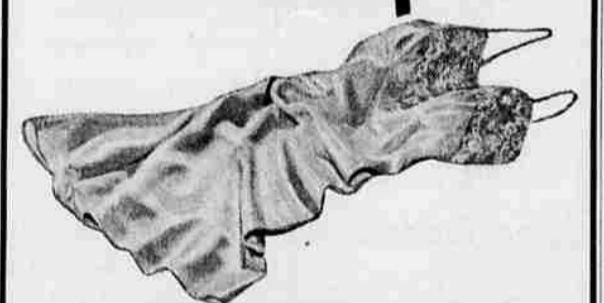

For a tube, one of very heavy cardboard was used, the kind on which rugs are rolled. The inside diameter was a little over 3 inches; the walls, 3/8 inch thick. By means of paste and strips of heavy paper, the inside of the ends of the tube were built up so that the front lens cell and the eyepiece tube would fit snugly into them. Result: An excellent, lightweight telescope which (with dew cap extension) has a length of almost 50 inches and gives a magnification of 46 times.

The front lens and the eyepiece in opposite ends of the tube must be the proper distances apart, else nothing can be seen. This distance can be tested on a far-away terrestrial object before the tube is cut to its final length. The fine focusing obtained by turning the eyepiece is very essential to clear views. A firm mounting which will allow the telescope to be pointed to any part of the sky can be made of wood, bolts and screws.

Although the writer has at times helped with the construction of such telescopes, he must henceforth "respectfully decline." But for a self-addressed postal, he will gladly name sources from which the optical parts or completed telescopes can be purchased. Address him at 1832 Longview Drive, Eugene, Oregon.

Our 70th Anniversary EVENT

NOW! NEVER BEFORE! NEVER AGAIN WILL YOU BEAT THESE GREAT MUSIC BIRTHDAY BARGAINS! COMPARE! BUY!

SPECIAL! 30,000 copies **Piano Music 5c-10c**

SPECIAL! 20,000 copies **Vocal Music 5c**

SPECIAL! Emerson **RADIOS** Any Model **1/2 Price!**

Announcing . . .
We are NOW EXCLUSIVE agents for Conn and Pan-American Band Instruments in this area!

BIRTHDAY SPECIALS!

- 1 Farnsworth Radio-Phono, 99.50
- Wilcox Gay Recordette, 89.95 **now 49.50**
- 1 Used Zenith Radio, (10-tube) **now 59.95**
- 1 Used Zenith Radio (5-tube) **44.44**
- 1 Used Zenith Radio, (9-tube) **33.33**
- Wilcox-Gay Radio-Recorder, 284.50 **142.50**
- Wilcox-Gay Radio-Recorder 364.50 **182.25**

ONE Bendix Cabinet Radio Worth \$87.50 **NOW 39.50**

USED GUITARS 25% OFF

SPECIAL! **Hohner** 12-bass **Accordion** and case **39.50**

Used TABLE RADIOS 7.50 up

RADIO-PHONO COMBINATIONS
An Eye to Beauty—An Ear to Tone

WIN A BRAND NEW RADIO!
It's simple! Just guess the number of sheet music copies under the prize! One who guesses nearest the exact number wins! Now on display in our show window! COME NOW! NOTHING TO BUY! IT'S FREE!

Used Battery and Electric Portable Radios, 17.50 up

- Toy Accordions 2.40 each
- Small Toy Accordions 1.20 each
- Toy Banjos 79c
- Musical Toys 5c to 3.95
- Used 9-Tube Zenith Armchair Combination, special 197.50

SPECIAL! NEW! 1 Magnavox **RADIO PHONO** Reg. 295.00 **147.50**

BIRTHDAY SPECIALS!

- New Scandelli Accordion and case, reg. 485.00 **now 295.00**
- New Romagnoli 120-Bass Accordion and case, was 500.00, **now 395.00**
