

### Ask Bids for Union Hi School

Bids for the construction of the North Marion county union high school building at Hubbard are being asked and will be opened at the Hubbard high school July 12 at 8 o'clock in the evening. Plans and specifications will be available Tuesday.

The new building will be located at the junction of Marion county roads Nos. 432 and 441 on a tract equally distant from Hubbard, Aurora and Donald. The project calls for a building providing classrooms and gymnasium and a separate Smith Hughes building.

The main section will provide six classrooms, a homemaking room, library, principal's office, secretary's office, work room, teachers' room and health room. It will have concrete floor housing radiant panels, of frame construction with glass block windows and vision strips. A flat composition roof will be placed. Usual facilities will be provided by the regular gymnasium which will have a stage on one side and a half-basement to house a cafeteria and locker rooms. It will be of reinforced concrete construction with timber-truss frame roof.

The Smith Hughes building will have a 40x80-foot shop, classrooms, milk testing room, storage space and locker rooms. It will be of construction similar to the gymnasium.

Separate contracts for the general, mechanical and electrical work will be invited with Annand and Kennedy, Portland, the architect-engineers.
