

Hooded Violence Inquiry—Rep. Emanuel Celler (left), chairman of the house judiciary subcommittee investigating Alabama's hooded mob violence, talks with three figures in the inquiry as it opened in Washington. Left to right: Rep. Celler; Clarke Stallworth of the Birmingham Post, who was assaulted recently when he sought information about the violence; Rep. Laurie Battle (D., Ala.), in whose district much of the violence has taken place, and Clarence Lake of the Birmingham News. (Acme Telephoto)

### Stocks Advance All Along Line

New York, July 1 (AP)—Fresh gains were scored in the stock market today and the general price level reached the highest in nearly a month. Key issues moved up fractions to around a point. Plus signs dotted almost every group. After an unusually slow start, business picked up to reach around the best volume of the week. Turnover was at the rate of 800,000 shares for the full session, which would compare with yesterday's meager 580,000.

The market's current rally started in mid-June after the price level had cracked to a 4 1/2 year low on June 13. A Volatile Plate Railroad, often a nickel issue, stepped out of the market's range with a jump of 3 3/4 points to 64 at one time. Others ahead included U.S. Steel, General Motors, Studebaker, Goodrich, U.S. Rubber, Montgomery Ward, Boeing, American Telephone, Western Union, General Electric, Santa Fe, Union Pacific, Richfield Oil and Gulf Oil.

DuPont was one of the few losers, slipping around 3/4 point possibly in a belated action to yesterday's news of a department of justice anti-trust suit against the company and others.

### Grains Show Slight Gains

Chicago, July 1 (AP)—Small gains were posted by most grain contracts on the board of trade today. Trading was quite brisk, particularly in wheat, but no wide price changes were made. Hedging sales expanded in wheat as more grain was received at major terminals. International markets today got 4,238,000 bushels against 3,027,000 a week ago. This hedging was well absorbed, buying being induced in part by pessimistic private crop reports.

Corn was aided by news that very large amounts of that grain have been tied up in the government loan. Soybeans spurred in line with gains of cottonseed oil at New York. Lard showed strength early, but eased a bit toward the close.

Wheat closed unchanged to 1 1/2 higher, July \$1.95 3/4-7/8, corn was 1/4 to 1 cent higher, July \$1.35 3/4-7/8, oats were 1/2-3/4 higher, July 59 1/4, rye was 1/4 lower to 1/2 higher, July \$1.35 3/4-1/2, soybeans were 2 1/2-3 1/2 higher, July \$2.38-2.38 1/4, and lard was 10 to 20 cents a hundred pounds higher, July \$10.60.

### MARKET QUOTATIONS

Table listing market quotations for various commodities like Portland Limestone, Portland Cement, and other building materials.

### Salem Markets

Completed from reports of Salem dealers for the guidance of Capital Journal readers. (Revised daily).

Portland Limestone—Portland, Ore., July 1 (AP)—Weekly livestock. Cattle: Friday available 50; calves 25; mostly clean market; steady with good weekend clearance. Hogs: Friday available 35; steady; good and choice 190-220; 200; medium 180-200; common 150-180; down 120-150. Sheep: Friday available 100; market nominal; demand limited.

### 100 Cars Cherries Lost at Hood River

Hood River, July 1 (AP)—The general belief among cherry growers today was that two days of rain cost the Hood River valley 100 cars of fruit. Although the total amount of damage still can not be assessed for certain, most groups said they expected the valley to ship only 55 or 60 carloads of fresh cherries. Before the rainfall growers expected to 160-carload crop.

A few orchardists reported their fruit 50 per cent split, and useless to harvest. Others had smaller losses. J. E. Klahre, manager of the Hood River Apple Growers, said crops with splitting of less than 25 per cent could be profitably harvested, and urged growers to bring test samples in.

### Townsendites Meet

Columbus, O., July 1 (AP)—Some 4000 delegates assembled today for the ninth annual convention of the Townsend clubs to hear Senator Claude Pepper (D., Fla.) on the opening program. Dr. Francis E. Townsend, president and founder of the old age pension movement, was expected to outline his plans for making the Townsend clubs into a national political party to be activated at next year's convention.

### Polk County Nears 75 Percent of Quota

Dallas, July 1—Polk county has attained 75 per cent of its Opportunity Drive bond quota, according to Charles M. Thomas, chairman. The report covered sales through Saturday. The week's sales of \$3,307 brought the total to the three-quarters mark on the \$85,000 quota. Meanwhile the state drive was placed at 78 per cent of the quota. Thus, Polk county was just below the state as a whole in percentage. Thomas expressed confidence that Polk county will be over the top when final tabulations for the drive are completed.

### Paratroopers Killed

Quimper, France, July 1 (AP)—Five French paratroopers were killed and six others seriously injured yesterday by an explosion which occurred as they were waiting to board a naval dispatch boat. The explosion was at the naval air base at Lanvoco-Polnic, near Brest. Its cause was undetermined.

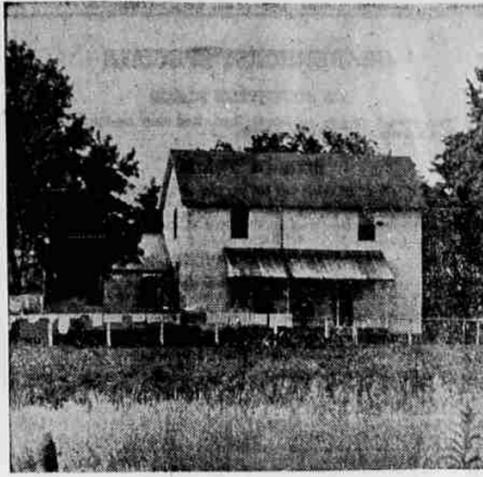

Now Is the Time By J. E. WILLETTS of the Capital Drug Store. For many reasons summer vacation is the best time to have your child's health checked. Doctors are not as busy during the summer; you have more hours of the day in which to schedule appointments. Then too, if a minor operation, or medical treatments should be necessary they can be taken care of without loss of time from school. A child's teeth should also be checked in summer for the same reasons, and by so doing you will know that your child is in the best of health to begin school work. If you want to be certain of pure medication compounded just as your doctor indicated, patronize a druggist with a reputation for excellent prescription work.

### Pelton Dam Fish Hatchery

The Northwest Power Supply company can be forced to provide hatcheries and other fish conservation measures if it gets its permit to build the Pelton power dam on the Deschutes river, Attorney General George Neuner held today. The opinion was for the state hydroelectric commission, which now is considering whether to authorize the dam. Neuner held that if the commission allows construction of the dam, it can make the permit conditional on the fish conservation measures.

### Albany Will Follow Cut in Milk Price

Albany—Local milk distributors had not conferred Wednesday regarding the reported drop of one cent a quart in retail milk prices at Portland and Salem, effective Friday, but one distributor said that undoubtedly the Albany price will follow suit. Locally this means that the

'Haunted House'—Did you ever see a haunted house? It might describe the farm home of Tony Greten (above) near Lively Grove, Ill. According to Creten and his family they have witnessed "spirit manifestations" in their home that have caused them many sleepless nights since it started May 1. The manifestations start with unusual noises and slight house shakings, always after Creten's son, Jerome, 11, goes to bed. The Catholic church has taken over the case. (Acme Telephoto)

### Deaths

Portland hospital Thursday night. He was born in Redwins, Minn. Feb. 5, 1871. Survivors are a sister, Anna Weeks, Portland, and several nephews and nieces. Funeral services will be held from the memorial chapel of the Egan funeral home at 3 o'clock Saturday with burial in the Miller cemetery.
