To fill the fifth spot on the commission, he named Wilbur Reiling to succeed Lee Holliday, both being from Klamath Falls. Holliday could not be reappointed because he isn't in the dairy business any more.

The commission promotes the dairy industry, and is financed by a tax on butterfat.

Strikers Told To Unload Food

London, July 6 (AP)—The labor government ordered troops into the London waterfront tonight to unload food ships paralyzed by a strike of stevedores.

The two weeks strike continued to spread today despite a threat by United States dock workers to boycott British ships there unless it stops.

Most of the more than 100 cargo ships harbor-locked by the Thames river strike carry food for rationed Londoners. Labor Minister George Isaacs told parliament the government had decided to use troops as a means of "safeguarding food supplies."

The Monroe Doctrine was announced by President James Monroe in his message to congress in 1823.

HISTORIC MEDICAL HIGHLIGHTS—No. 41

SCIENCE VS. DISEASE

In 1904 Flexner of America used monkeys as guinea pigs to discover a serum for treating cerebro-spinal meningitis. He showed that the meningococcus microbe gained access to the bloodstream and the cerebro-spinal membranes by way of the mucous membrane of the nose and throat. The disease attacks all age groups, sometimes in epidemic form. It is characterized by paralysis of the body and mortality is high. Treating victims with an injection of an antimeningitis serum has greatly reduced fatalities and often prevents crippling consequences.
