

Britain to Get Sympathy But Not Much Money

Washington, July 7 (AP)—Great Britain seemed likely today to get American sympathy—and not much else—in her newest financial plight. Members of congress generally reacted coolly to the announcement that Britain is down to her last \$1,642,000,000 in gold and dollars. Their general observation was that the problem is one the British will have to solve for themselves without increasing U. S. financial aid. In diplomatic circles, Secretary of State Acheson displayed a tendency to discount the British situation somewhat. He said that, like an individual whose income drops, Britain was cutting her purchases. He added this was an unfortunate temporary necessity, however, and not a permanent solution. Unless congress changes the figure, England will get \$920,000,000 in Marshall plan aid this year. That was taken into account by Sir Stafford Cripps, finance minister, in announcing drastic cuts in buying from the United States and other dollar areas. Democrats and republicans joined in saying that beyond the Marshall plan aid the British had better not count on additional U. S. help. Senator Taft of Ohio, chairman of the senate republican policy committee, told a reporter he thinks most of the members of his party will regard the \$920,000,000 as the limit of aid. "The British have a planned economy and it just hasn't worked," he said. "They'll have to work out their problems for themselves by changing their system or doing something else. We can't be expected to give them any more help than we already have." Senator McCarran (D-Nev.), a member of the appropriations committee, said he agrees that "we can't go any further along with them."

New Violence In Jap Strike

Tokyo, July 7 (AP)—New violence marked Japan's worsening labor situation today. A state of national emergency appeared in the offing. Ibaragi prefecture miners joined in the general unrest, protested and demonstrated against arrest of 19 of their number and discharge of 200 more. Evidence mounted to indicate the country's first political murder since the occupation had been committed. The victim was Sadori Shimoyama, president of the National Railway corporation. Doctors said there were strong indications he had been dead at least 12 hours before his body was mangled by a speeding freight train in Tokyo Tuesday. Shimoyama had just issued discharge notices to 30,000 of 35,000 rail workers scheduled to be let out under an American sponsored retrenchment plan. Prime Minister Shigeru Yoshida was said by a member of his cabinet to be demanding the ousting of National Police Superintendent Noboru Saito. The miners' participation in the general unrest was a surprise. Three thousand of them demonstrated against police 75 miles north of Tokyo. Three mine officials were rescued by police at Mito in that area.

Fair Deal to Be Restored

Washington, July 7 (AP)—President Truman's anti-depression program, due to reach congress in his midyear economic report Monday, will be built on proposals he made in January, officials predicted today. They include federal loans to industry for expansion, drafting of a "fully formulated" set of public works plans, props for farm living standards, and broader coverage and bigger payments under the social security and jobless pay programs. These were among the "reversible" features of the stabilization plan Mr. Truman submitted to the new congress six months ago. They were obscured at the time by the "anti-inflation" price, wage and allocation controls sought simultaneously. Government officials as well as legislators who have talked

Greyhound Bus Drivers Sign-up

Portland, July 7 (AP)—Northwest Greyhound employees, members of the same AFL union which has idled North Coast Greyhound operations, have approved a new contract. T. S. Beguin, union assistant business agent, said the Northwest buses had continued operating although the North Coast employees went on strike June 18 in their contract dispute. Negotiations between the union and North Coast Greyhound are continuing in Seattle, Beguin reported. The settlement announced last night for Northwest involved some 300 workers on lines serving the Olympic peninsula and east and west routes from Seattle to Butte, Mont. The members voted to accept the company offer—not detailed by Beguin—by a large majority, he said. Meanwhile, Pacific Trailways, not involved in the labor dispute, announced it had increased north-south schedules between Seattle and Portland along the route served by strike-bound North Coast Greyhound.

Judges' Retirement Fund Totals \$75,621

State Treasurer Walter J. Pearson reported today that the judges' retirement fund created by the 1943 legislature now has to its credit a sum of \$75,621, compared with \$62,970 a year ago. Pearson, who is custodian of the fund, said it consists of \$10,000 appropriated from the state general fund, \$29,203 in moneys transferred from the general fund after the initiation contribution, \$35,545 withheld from salaries of circuit judges and supreme court justices, and \$3,524 in earnings on investments. So far only \$1,652 has been paid for retirement benefits.

Food Poisoning Reported

Anchorage, Alaska, July 7 (AP)—An American Red Cross representative said yesterday he has learned through the United States public health service that one person is dead and several seriously ill from food poisoning in the Alaska village of Kvick Kvichak. The town is located near the base of the Alaska peninsula.

Vaughn Knows 300 5 Percenters

Washington, July 7 (AP)—Maj. Gen. Harry Vaughn, military aide to the president, knows of "about 300 persons in Washington" who engaged in contract negotiations. He said so here last night in response to questions by reporters as to his views on reports that a so-called "five percenter" had used "influence" to gain government contracts for firms willing to pay. Vaughn did not identify any of the 300. The questioning took place at the railway station where newsmen met Vaughn on his return from a 19-day vacation to Guatemala. Vaughn also was questioned about the financing of his vacation trip. "That is nobody's God damn business and you can quote me," Vaughn told a reporter who asked about it on his return last night. Vaughn went on to explain, however, that there were 11 persons in the vacationing party and each paid \$341 fare for the trip. The boat trip was aboard a ship of the United Fruit company. The general declined to discuss a scheduled congressional investigation of so-called "five percenters." Paul Grindle, a Massachusetts manufacturer, set off the investigation by saying that James V. Hunt, a manage-

Car Crashes Truck Killing Farmer

Portland, July 7 (AP)—A car crashed into the rear of a farmer's truck on the superhighway just south of the Milwaukie state police office today, killing the farmer and putting two salesmen in a hospital. The farmer, Victor Argo, 60, Milwaukie, was dead on arrival at a hospital. He had been alone in his truck and apparently was thrown to the pavement by the impact. Weldon Kooch, 40, Salem, was driver of the auto which struck the truck, State Patrolman V. L. Kezar said. He suffered a possible knee fracture. His passenger, Thomas Mommson, 34, also Salem, suffered head, face and back injuries. Kezar said the Kooch car traveled 475 feet after the impact.
