

# Wheat Prices Show New Gains

Chicago, July 7 (AP)—Wheat rolled on upward to new peaks for the past five months and longer on the board of trade today. It was the third straight day of sharp advances in active dealings.

The market had to take a lot of selling orders, but mill buyers, short-covering by local traders and purchases from commission houses were enough to take care of all the selling. Gains, however, did not match those of yesterday.

July wheat sold at a new high since Feb. 1, September and December at a peak since January 31 and March and May at their best levels since trading started in these contracts.

Traders attributed the upturn to additional flour buying by bakers, news that the government had re-entered the cash wheat market yesterday and further unfavorable comments on the spring wheat crop in the northwest.

It was almost entirely a wheat market. Oats did well from the start, but other commodities could share only slightly in the bullish enthusiasm. Lard again sank with some deliveries going to new seasonal lows.

Wheat closed 1/4-1 3/4 higher, July \$2.02 3/4-2.02, corn was 1/4-1/2 lower, July \$1.37 1/2-1/2, oats were 1/4-1/2 higher, July 63 1/2, rye was 1/2-2 1/2 lower, July \$1.40 1/4, soybeans were 4 to 6 1/2 lower, July \$2.46 1/2-2.46, and lard was 7 to 25 cents a hundred pounds lower, July \$10.32.

# Stocks Decline Up to a Point

New York, July 7 (AP)—The stock market declined today for the first time in six sessions. Losses ranged from fractions to around a point.

For a short time in early trading, enough demand developed to give the price level a small lift. Buying interest soon slackened, though, and the market settled back and coasted through the day at slightly lower levels.

The setback followed a statement by President Truman that he was bullish on the economic situation.

Late in the day demand showed signs of reviving and many issues climbed up from their lows for the session.

A good amount of business was done with the turnover at the rate of 900,000 shares for the full session.

Yesterday the market capped a three-week rise by hitting the highest level in six weeks. The recovery followed a drop of a 1/2 point on June 13.

Lower most of the time were U.S. Steel, General Motors, Chrysler, Montgomery Ward, Schenley, United Corp., Western Union, Radio Corp., American Tobacco, and Twentieth Century-Fox.

Holding up fairly well were Packard, Goodrich, Douglas Aircraft, Johns-Manville, Eastman Kodak, Standard Oil (N.J.) and Texas Co.

# Italy Protests Use Of Dinar in Trieste

Rome, July 7 (AP)—Italy has protested to the U.S. and Britain against Yugoslavia's decision to substitute the Yugoslav dinar for the lira as legal tender in the Yugoslav-occupied zone of Trieste free territory.

Italian Foreign Minister Carlo Sforza handed the protest to the American and British ambassadors. Sforza told the envoys Italy also will protest to the United Nations against the financial measures adopted by Yugoslavia.

The Italian minister said the introduction of the dinar and the Yugo-lira in Trieste's Yugoslav zone represented harmful measures against the local population and aggravated the situation caused by previous Yugoslav measures.
