Baldock Plan

The provisions do not apply to trucks entering the city to receive or discharge freight within the city.

The same bill makes it unlawful to park vehicles on South Commercial between Oxford and Hoyt.

This act will be effective when Pine street has been extended and opened, when South Liberty has been widened to 40 feet between Superior and Oak, and a diagonal street has been acquired, opened and improved connecting Liberty and Commercial between Superior and Oxford.

Center Street Plan

Another of the three bills designates Center street, from Commercial to Capitol, the Center street bridge, and the new bridge to be built across the river, and the street leading from the new bridge to Capitol as one-way traffic thoroughfares.

It prohibits driving west on Center from Commercial to Capitol, or on the Center street bridge. It prohibits driving east on any new bridge to be built north of Center street, or on the street leading from the new bridge to Capitol.

This act will be effective after construction of the new bridge and reconstruction of the Center street bridge and the opening of both for use.

Vehicle Parking

The third bill is mainly about vehicular parking. It is made unlawful at any time to park on Fairgrounds road between Tile road and a point 380 feet south of Woodrow, or on Fairgrounds road between Hall and a point 180 feet south of Smith street, or on Fairgrounds between Smith and Beach streets. There is some uncertainty as to whether the parking restrictions apply to one or both sides of the street. Some off-street parking provisions will be made.

This act shall be effective after the state highway commission shall have completed the widening of parts of Fairgrounds and Portland roads as provided by agreement between the city and the commission.
