

JACK OF THE BEAN STOCK

Stayton Beans to Be Sent To Boston's Mayor Curley

By WILLIAM WARREN

Talk about carrying coals to Newcastle—a community in the Cascades of Oregon is about to bear beans to Boston.

Stayton, heart of the succotash belt—here a bean field, there a corn patch, here a bean there a corn, everywhere a succotash—is holding its annual bean festival late this month.

William Warren

Among the new switches for festivals dreamed up by enterprising Manager Gene Malecki is the idea of having a Jack of the Beanstalk instead of the ever-present festival queen.

And as soon as he is chosen, from a group of eight grinning and boisterous boys, he will hop a plane for Boston, bearing with him a case of famed Santiam beans to be presented to Mayor James N. Curley.

Mayor Curley is going along with the gag and pitching it right back. He wired Malecki today saying Jack of the Beanstalk will be met at the East Boston airport July 22 and extended the courtesy of the famed bean city of Massachusetts.

Said Curley: "In return for the case of beans you propose giving us we will present Jack with a pot of the best beans in the world—Boston baked beans."

Among the candidates for Jack of the Beanstalk is one true son of the bean fields. His father is a bean picker. So is his mother. And he plans to pitch in when he's old enough.

Stayton is going all out to pitch tribute to the bean, the tasty vegetable which constitutes one of the principal crops of the Santiam valley—and consequently one of the main sources of income for Stayton.

Festivities will open July 26 and continue unrelenting through Sunday, June 30.

In preparation for this year's bean bust—15th in annual event—men of Stayton have been

building a large community hall, with a trussed roof to allow a large floor space for dancing. And nightly one of the feature attractions of the festival will be held on this dance floor—the Santiam Bean ball.

Of course, there'll be a carnival—staged by the Browning Carnival Co. which opened in Stayton some 40 years ago, as one of its first stands.

And as an added attraction, there'll be a daily bean-hole bean feed—with beans served free to the guests, courtesy of the Santiam No. 1 crop.

What's a bean-hole bean feed? Well, you dig a trench some two feet deep or so. You line it with red hot coals. You place beans, beans, beans and more beans in five-gallon tins, along with plenty of bacon, suggestions of garlic and other seasonings, put the tins on the red hot coals, cover the whole batch with dirt, and let 'em stew in their own juice until they're ready for intake.

Yes, they're getting ready to bow to the bean in a big way at Stayton come July 26.

And as a fitting tribute to the succulent vegetable, they're going to send their emissary, not a queen, but a freckle-faced boy (all candidates have 'em), Jack of the Beanstalk, probably history's first ambassador to bear beans to Boston, the land of the bean and the cod.

Commiss Aid Strikers
Rome, July 14 (AP)—The communist controlled Italian Confederation of Labor today messaged striking London dockworkers that no Canadian ships would be unloaded in Italian ports. The message expressed "fraternal sympathy" for the London strikers, the Italian news agency Astra said.

CAA Suspends Strato Airline

Washington, July 14 (AP)—The civil aeronautics administration today suspended the operating rights of Strato Freight, Inc. It operated the plane in which 10 persons were killed in Puerto Rico last month.

CAA Administrator D. W. Rentzel accused the company of operating faulty equipment. He also asserted that it had repeatedly violated safety regulations.

Rentzel suspended the operating rights under his emergency powers. At the same time, he filed a formal petition with the civil aeronautics board asking that Strato Freight's flying authority be permanently revoked.

A C-48 operated by Strato Freight dove into the sea off San Juan, Puerto Rico, June 7, shortly after a takeoff from Newark, N.J., via Miami.

There were 81 persons aboard. Twenty-eight were rescued. The plane was being flown under charter to a travel agency.

Rentzel said in his petition to the CAB that an inquiry disclosed the plane was flown June 5 from Newark to Miami with a cable flap (which coordinates landing and takeoff controls) "in a frayed and weakened condition."

Timber Tracts Fail To Attract Bidders

Portland, July 14 (AP)—Eleven Oregon & California timber tracts failed to attract any competitive bids in a sale in which the agency sold 4,563,000 feet of timber for \$34,980.65.

High bidders on 10 parcels sold included R. B. Bohlman, Estacada; Monroe Lumber company, Eugene; Hildeburg Lumber company, Drain; Puckett & Scherer, Klamath Falls; Gilchrist Timber company, Gilchrist.

Best bids by species, per 1000 feet, were Douglas fir, \$6.48; salvage Douglas fir, \$2.05; hemlock, \$2.71; western red cedar, \$2.30; white fir, \$2.61; Port Orford cedar, \$15.06; sugar pine, \$21.66; Ponderosa pine, \$14.37.

New Dallas Home Damaged by Fire

Dallas, July 14—The William Miller residence on River drive was heavily damaged by fire Wednesday night with most of the furniture ruined. The place was completed three months ago.

The Millers were absent when the flames were seen by Richard Anderson, night dispatcher at the state forestry dis-

trict office, who gave the alarm. The Dallas volunteer fire department and tank trucks from the forestry department controlled the flames which did the most damage to the upper portion of the house.

Miller is a carpenter with the state department in Dallas. The family has two children.
