## Petitions Ask Teamster Vote

Secret ballot of teamsters who are involved in a wage dispute with local sand and gravel companies to determine whether or not the men wish to return to work is asked in three petitions filed Friday with the state labor commission by Lawrence Osterman, attorney for the group.

The petitions were signed by about 20 men employed at the River Bend Sand and Gravel, Walling and Commercial plants.

W. E. Kimsey, state labor commissioner, will rule on the petitions. If they are approved it is believed that he will order a secret ballot in the involved plants but if a majority are opposed, he has the authority under an act of 1947 to declare the strike or lockout illegal. No action is expected until the first of the week.

Approximately 40 teamsters are involved in the dispute, according to Ward E. Graham, secretary-treasurer of local No. 324, who ordered pickets posted at the three plants after what the teamsters claim to be a lock-out.

The union has asked a 12 1/2 cent an hour increase as of July 1 and a 10-cent increase retroactive to January 1 with employers offering a straight 10-cent an hour increase beginning July 1.

## Foreign Aid

The new bill, in brief, also contains:

1. \$3,626,380,000 to carry ECA through the current fiscal year. This is the same money figure contained in the old bill. But the committee proposed to offer a floor amendment stripping out \$150,000,000 in loan authority.
2. \$1,074,000,000 for ECA spending in the final quarter of the year ended July 1. This is \$74,000,000 more than the committee approved in the old bill.
3. \$344,000 for a congressional watchdog committee to check on foreign spending.
4. An amendment to restrict sharply aid to any nation breaking a U. S. treaty.
5. \$900,000,000 for government and relief in the occupied areas of Germany, Austria, Japan and the Ryukyus islands. No change in figures.

## Military Craft

Firemen from the Fort Dix military reservation and nearby communities rushed rescue apparatus to the farm site but were unable to get inside the plane for almost half an hour. State police said everyone aboard the plane was killed.

The big airliner crashed and burned on the farm of Peter Mungus on the Chesterfield-Sykesville road.

**Identification Difficult** — State police said identification of the victims would be difficult because the fire destroyed the craft.

No eyewitnesses could be located who saw the actual crash. Several persons told police they noticed the DC-3 gliding down, apparently from an easterly direction.

Suddenly, the witnesses said, they saw the body of the plane behind the wings seem to split in half. Then a wing ripped off. More and more parts were torn off as the airliner plummeted earthward.

Farmers reported hearing a loud explosion and then saw flames reaching 1000 feet into the air.

The military plane, identified also by state police as a navy craft, crashed about two miles away.

At Bardley Field, near Hartford, Eastern Airlines Traffic Manager Thomas P. Gilroy said a total of 15 persons boarded the airliner there. None of them got off the plane at LaGuardia Field, New York, he said he had been informed by the airline's New York office.

## Smear Speech

The prime minister said the published policy statement issued last week by the conservative party made "utterly unsupported charges." He added:

"Having heard Mr. Churchill's violent words about how this country had been brought to a low ebb in its fortunes and ruined by the labor government, you would have expected the Tories to propose cutting down expenditures.

"But on the contrary, on page after page of this document they demand increases. . . . There is a lot of talk about reducing extravagance but not a single practical suggestion."

Atlee said the wartime coalition government headed by Churchill was fully aware of the difficulties which would face its peacetime successor.

**Admitted Pessimism** — He quoted an article by Henry Morgenthau, former U. S. secretary of the treasury, which told of a talk with Churchill during the war.

"He was extremely pessimistic," Atlee quoted the article. "The day the war ended the country would be bankrupt and the returning soldiers would have little to come back to."

Silverton, July 30—Attorney Alf O. Nelson, who never wears a hat, was persuaded to don a 10-gallon and the maroon official Western Horse Show shirt, and look like he did many years ago in the Dakotas when he was riding the range rounding up his hundreds of white-faced steers for market.

The Silverton show committee on publicity will use the picture as an ad for the coming event of Saturday, August 6, under lights at McGinnis field. It is for the benefit of the field improvements for school activities and hopes of getting another semi-pro event here.

The Silverton Rotarians are going all out to make this third annual Western Horse Show a success.

## Conference Held to Avert Meat Strike

Negotiations between management and employees of the Salem retail meat industry are being held in an effort to forestall a possible strike of meat cutters when the present contract expires August 1.

The principal issue involved is the one of hours. Meat cutters are currently working a 48 hour week for \$70. They are asking the same pay for 40 hours. Two years ago they were working a 54 hour week.

The present contract calls for double time for Sunday work which means approximately \$25 a day and it is understood those stores that remain over during the early part of each night and on Sunday are objecting to the shorter hours.
