Recipes

(By the Associated Press)

If you like to serve soup and salad luncheons in hot weather, here are two new recipes for you. The soup entry is a version of that old perennial "Borscht." The salad is a particularly delicious combination of July fruits with a creamy new kind of mayonnaise. Since it's a good idea to serve at least one hot food on each menu, even in torrid weather, you can let the soup preface a casserole dish. When you serve the salad you may wish to precede it with a warm soup.

Summer Fruit Plate
Arrange attractively on an individual salad plate, a banana cut in half lengthwise and dipped in lemon juice, slice of honeydew melon, seeded grape halves, or pitted cherry halves, diced cantaloupe, and fresh pineapple cut in matchstick pieces. Top each serving with 1/2-cup creamed cottage cheese. Garnish with sprigs of watercress and serve with fruit salad mayonnaise.
