Airboard Discharges Economy Move
Discharge of Al Hammond and Carl W. Nelson from the staff of the state aeronautical board last week resulted because of the need of cutting down expenses, according to W. M. (Jack) Bartlett, director.
The two men, he said, were the last employees hired and under civil service rules it was necessary to drop them first.
"The board instructed me to cut down on expenses and therefore even though the two men gave good service, I was forced to let them go," said Bartlett. "The release of the two men was no reflection upon their ability."

Lions Told of War in Manila

Stanton Turner, for many years general secretary of the YMCA in Malina, who organized the underground during the war, and who was prisoner of the Japanese told the dramatic story of the beginning and ending of the war there as speaker before the Lions club today.

He praised the GIs for their courage in "taking the worst that could be taken" at the start of the war, and praised the Filipinos for matching their courage. Of the force that held Bataan at the start, he said, 75,000 were GIs.

Of the GIs he said: "They saved our lives there, and I wish you could appreciate that they saved yours."

He referred to General Douglas MacArthur as "the great statesman of the Orient and one of the great statesmen of the world."

He told a story of the horror of the Japanese occupation by an army of 250,000 Japanese that had trained for the purpose for two years in Formosa, aided by the navy and the air force that surrounded the islands.

The attitude and courage of the Filipinos, he said, taught him that "democracy had won and that spirit is the greatest force in the world."

Democracy to succeed, he declared, must be under the leadership of men of Christian principles.

Suspect Held in Hearse Theft

A man, nabbed by McMinnville authorities in a stolen car from Salem, is scheduled to be questioned concerning the theft and smashing of the W. T. Rigdon hearse.

City detectives explained that the prisoner held in McMinnville was found in a green, 2370 Adams. Greene's car was taken during the same period of Wednesday morning that the hearse was wrecked at 24th and Chemskeia streets.

The car thief, identified as Edward Charles McEwan, was stated to be questioned concerning the theft of the hearse on the possibility that he may have been involved in the case and taken the Greene car after the Rigdon vehicle was wrecked.

The location of the wreck and Greene's home are in close proximity. Another factor is the time of the theft.

McEwan is to be returned to Marion county by a deputy from the sheriff's office. Detectives emphasized, however, that there was no definite information to connect McEwan with the hearse case. Other clues are also being worked on in an effort to find the hearse thief.

Two Youths Pinched For Theft of Auto

Two juveniles from Washington state are in county jail here held for alleged car theft from Seattle because they showed flirtatious inclinations of the car with girls walking along State street near Wilson park. They happened to carry these activities as Deputy Sheriffs William DeVall and Merle Wood were driving back from the state penitentiary and spotted them.

When one of the boys said the car, a Chevrolet, they were driving belonged to his stepfather and then failed to remember his stepfather's name the officers investigated further, found he had no driver's license and the boys were jailed.

According to information secured by the officers one of the boys who lives in Seattle took the car at 5:30 in the morning, picked up the other boy at Centralia and arrived here shortly before 1 o'clock. Soon afterward they were in jail. Both boys are 15 years old.

Grains Erratic Throughout Day

Chicago, Aug. 4 (AP)—Grains moved up and down in a complete state of indecision today. The trend changed often, it did not continue either long or far in either direction. The result was that prices were within a cent higher or a cent lower of the previous close throughout the day.

Toward the close the market staged one of its frequent small scale rallies. Wheat closed 3/4 to 1 cent higher, September \$2.03 1/4-3/4, corn was 1/2-1 1/4 higher, September \$1.28 1/2-3/4, oats were 1/2 lower to 1 cent higher, September 86 1/2-3/4, rye was unchanged to 1 cent lower, September \$1.48 1/4, soybeans were 1/2 lower to 1/4 higher, November \$2.33 1/2-3/4, and lard was unchanged to 20 cents a hundred pounds higher, September \$12.65.

Declare War

He also lashed out at the way these same leaders are handling Legion funds. They vote themselves large salaries or expense accounts, and "make a deal" with members of the "machine" to see that they appoint each other to fat positions when time for new committee appointments arrives.

"If there are not enough committees to accommodate these men," Belgrano said, "new committees are organized—not because the committees are needed, but so that machine members will not be left out of the picture."

Reflects on Legion
All this is decreasing the value of the Legion organization," Belgrano said.

He also quoted figures which prove that the Legion is financially headed downhill, and said "if this keeps up, the Legion will go bankrupt!"

Belgrano blamed it all on racketeers who "take over" the Legion administration.

He said that prior to World War II this problem did not exist, but that it has been flourishing in the last few years.

A new national public relations officer was recently appointed by the Legion. This officer was the target for many of Belgrano's sharp remarks Thursday.

"This man does not fit the qualifications for the job," Belgrano said as he shouted from the platform. "He was hand-picked by this machine of racketeers who are ruining the whole Legion setup."

Belgrano said he was going to the national convention in Philadelphia late this month and start a campaign against these politicians.

He said that what the Legion needs is more World War II veterans in the leading positions.

"We must break away from this corrupt condition, or the Legion will lose its cardinal principles."

He said that the present leaders in the Legion do not believe in these principles; they only believe in themselves.

Belgrano did not once criticize the Legion principles. He just talked against the men who

More Chairs for Use of Jury

Following a conference with Circuit Judge George R. Duncan and Rex Kimmell Thursday the court authorized purchase of an additional 12 chairs suitable for jury use and also of a type suitable for use in the new courthouse when it is constructed.

The circuit judges stated that in October they expected to start conducting jury trials in both courtrooms and under the present set-up provision is made for jury trials in the courtroom used by Judge Duncan but not in the others.

County Clerk Harlan Judd who has been investigating prices reported on a chair he recommends at \$51 each, being of the same type as that now used but being \$2 cheaper per chair than the ones now in use which were bought a few years before the war.

It was stated this would be about the only cost except for some sort of a temporary railing to be thrown up around the jury box which will amount to some plywood and some dolly up 2x4s.

The circuit court docket has attained dimensions where it is considered necessary to be working two juries to keep up and it is expected the dual jury system will be started in October.

1. There is heavy sentiment to curb the broad grants of presidential authority proposed and spell out, as closely as possible, the amount of assistance to be given, the nations to receive it, and the conditions under which it shall be provided.

2. There is substantial sentiment for a sharp cut in the amount and duration of the program.

Instead of approving an arms aid plan to run through June 30, 1950, many committee members favor limiting it to next March 31, with the idea that congress can take another look in January and extend it if necessary. Those supporting this proposal would cut the financial authorization at least in half.
