

### Predatory Animal Campaign Moves Into Higher Ground

Dallas, Aug. 5.—Red foxes are laying low in the valleys of Polk county, and George Morrison of near Sheridan, government trapper, has gone to the hills to conduct his continuous onslaught on predatory animals.

During the last 10 days of July, the trapper bagged a yearling bear, three bobcats and six coyotes, all near the headwaters of Little Boulder, Big Boulder and Rogers creeks.

Mary Anne McCall will be one of the twenty-one artists featured with the Woody Herman orchestra Monday night, August 15th, when the group will bow in at the Glenwood Ballroom in Salem for a dance engagement. Glen Woody, local promoter feels this attraction will break the ice for name entertainment at the Glenwood Ballroom and Woody has a full fall schedule lined up.

### Hunt to File Suit for Libel

Washington, Aug. 6 (AP)—James V. Hunt, central figure in a congressional investigation of "five per centers," said today he is filing suit against the New York Herald Tribune because "irresponsible half truths" in its articles about him are ruining his business.

A senate investigations subcommittee began looking into Hunt's dealings after the New York newspaper first reported on his activities.

Hunt said in a statement that the subcommittee has had "two attorneys and 16 investigators going over my affairs for more than six weeks. They have not even suggested that anything has been found which would warrant any charge against me."

"Five per centers" are those agents who help businessmen to get government contracts, usually for five percent of the contract.

Hunt also gave his version of the "Swiped from Harry S. Truman" match folders. He said the Herald Tribune, in one of its stories, gave the impression that he had ordered the matches for his own use to impress prospective clients.

### U. S. Buys Butter To Keep Prices Up

Washington, Aug. 6 (AP)—In less than a week the government has bought 9,960,327 pounds of butter—enough to supply the nation's butter needs for three days.

The butter was taken off the market at a new support price of 82 cents per pound, three cents above the previous level. The new price went into effect last week.

Price support purchases of butter Monday through Friday totaled almost as much as the government bought during the previous six months, and brought Uncle Sam's butter supply now to 20,261,456 pounds.

Morrison found plenty of evidence that the coyotes were playing havoc with young deer. He found the carcasses of five fawns which were obviously victims of coyotes. He reported, however, that no signs of even more destructive cougars were found in the area.

The trapper operates on a salary and receives no bounty for the animals killed. County funds are supposed to be matched by the state. Some federal assistance is given and under certain conditions, the state game commission "chips in" to help with the salary.

Farmers have praised Morrison for his work, especially with foxes. In the Buell, Perrydale, Bethel and Smithfield areas he has done an exceptionally good job of clearing them out.

"There are still plenty more in the country," he states. During the year July 1, 1948, to July 1, 1949, Morrison has killed 213 predatory animals.

At one time—during the year 1942-43—he could get as high as \$16.50 for a choice red fox pelt. This source of revenue is now gone since the same fur brings only about 75c, he states.

Morrison is available to help any farmer rid his place of predatory animals and may be reached through the office of Jack Hayes, county judge.

Brooks Club Picnics  
Brooks—The Brooks Garden club held its annual picnic at the home gardens of Mrs. Gertrude Zenger. Dinner was served at one o'clock to 26 members and four visitors. The next meeting will be at the home of Mrs. Bertha Morisky, August 11.

George Washington was the son of a Virginia ironmaster.

### Find's Father—Harold Geddes

Harold Geddes, 44, Detroit, Mich., attorney, reenacts a telephone conversation he held with his father, William Geddes, 67, in a San Francisco hospital. The elder Geddes disappeared mysteriously from his home in Rochester, N. Y., 43 years ago. He recently bought a worn Detroit telephone directory in San Francisco and called the first Harold Geddes listed. It turned out to be his son. (AP Wirephoto)

### Missing Plane Crashed in Lake

When the planes from the Naval Air Reserve Training Unit at Seattle arrived in Salem Friday for their part in the ceremonies establishing the Salem Naval Air Facility one was missing.

This plane an F6F (Gruman Hellcat fighter plane) shortly after take off from the air station crashed in shallow water at the edge of Lake Washington. The pilot, Lt. K. H. Somerville, Seattle, member of the naval reserve, was pulled from the cockpit uninjured, by three civilian employees, who, according to the United Press, waded out to the point where the plane came to rest on its back.

Naval officers blamed engine failure for the crash. After the 2000 horsepower engine went dead Somerville had attempted to guide the plane back onto the runway at the naval air station. The brakes failed to hold after the wheels hit the runway and the plane went off the end of the strip into soft ground, flipping over into the water.

### Shot to Death Kissing Divorcee

Southampton, N. Y., Aug. 6 (AP)—A town policeman was shot to death last night as he kissed a divorcee. The woman's ex-husband was found dead today with a bullet in his head.

A single shot fired through an open kitchen window killed town Policeman Harold Winters, 44. A nine-hour search for the suspected killed ended today with the discovery of the body of Frank Zieman, 44, at Bridgehampton, 10 miles from the scene of the policeman's death.

There was a bullet wound in Zieman's right temple and a .22 caliber rifle lay across his lap. State police said he apparently shot himself as he sat in his car.

Winters was shot in the kitchen of the home of Zieman's divorced wife, Mary, 40. Mrs. Zieman told police that Winters, in uniform and on duty, brought some sandwiches to the house last night. They had just finished a lunch of sandwiches and coffee and Winters was preparing to go back on patrol duty.

Police said he stood with his back to the window, kissing Mrs. Zieman good-night when the bullet crashed into the back of his head.

Police said they had learned Zieman recently had told friends that he planned to kill Winters his ex-wife and himself.

Stricken by Gas in Swimming Pool—Norma MacDonald, 10, gasps for air as ambulance attendants comfort her while an inhalator squad rushed to the rescue of her and more than 100 other bathers who were overcome when a clogged chlorine gas line used for purifying the water in an outdoor pool in Los Angeles suddenly gushed more gas than the water could absorb, filling the air with noxious fumes. Twenty-four were taken to hospitals, 10 in serious condition. (AP Wirephoto)

### Greek Army in Major Drive

Athens, Aug. 6 (AP)—The Greek army kicked off today on a major offensive in the Grammos mountains against a communist-led guerrilla force estimated at 5,000 troops.

The general staff reported the guerrillas were supported in battle by Albanians firing from Albanian soil nearby.

The Greek guerrillas are compressed in an area of about 250 square miles against the Albanian border west of Nestorion and northeast of Konitsa.

The general staff said several defense points were taken by Greek forces southwest and northwest of the 7,000-foot high mountains in the first fighting despite "bitter resistance."

Counter-attacks, it is said, were repulsed and fighting continues with growing intensity. The army is bringing new forces into combat and said it is entering the main phase of battle.

In capturing a height of Alevitsa, in the northeast Grammos, Greek troops were fired on from a neighboring height in Albania, the command said, in an attack "supported by Albanians."

### Great Britain Buys Canadian Lumber

Washington, Aug. 6 (AP)—Rep. Russell Mack (R., Wash.) charged today that Great Britain is discriminating against the U.S. timber industry.

Mack said that in buying lumber with economic cooperation administration funds Great Britain is concentrating her purchases in Canada. He said in a house speech that 97 per cent of Great Britain's timber business was going to Canadian firms and only three per cent to U.S. firms.

He said the British purchasing policy was "one of the principal reasons" for unemployment among Pacific northwest lumber workers.

Truman in Hide-Away  
Washington, Aug. 6 (AP)—President Truman was taking brief vacation today at his "Shangri-la" hideaway near Thurmont, Md. The president and Mrs. Truman made the 60-mile drive yesterday. They will return to Washington early Monday.

### 3 Die, 7 Hurt In Forest Fire

Helena, Mont., Aug. 6 (AP)—At least three men were burned to death, seven were hurt and six are missing in a mammoth forest fire near here, the federal forest service said today.

Bodies of two forest service parachutists and a third fire fighter were found in a 3,000-acre fire which roared uncontrolled through timber in a primitive area northeast of Helena.

Their names were withheld pending notification of relatives. Seven of the fifteen smoke-jumpers who parachuted to the fire yesterday were burned, three seriously, the forest service said.

Two of the 'chutists — Bill Hellman and Joseph Silvia—are hospitalized here. Regional Forester P. D. Hanson of Missoula said poor communications held up complete information on casualties.

### Hiroshima Observes Fourth Anniversary

Hiroshima, Japan, Aug. 6 (AP)—The fourth anniversary of the first atom bombing was observed today with shattered Hiroshima's 30-year plan to make itself a model city for peaceful community living.

Mayor Shinzo Hamai told the
