### Dog Evicted As Health Menace

San Francisco, Aug. 9 (AP)—A landlord has a court eviction order for Patty, a 12-year-old dog.

Municipal Judge John J. McMahon ruled yesterday Patty must leave her owners' apartment because her hair aggravates the asthma of the landlord's son, also 12.

Another municipal judge earlier had thrown out the eviction case brought by landlord Leo Tarantino, holding the dog had acquired rights of occupancy through long residence.

But Judge McMahon said Patty, part Pomeranian and part terrier, was a health menace to the child.

Mrs. Carter Downing, president of Pets Unlimited, called the judge's ruling "a blow to dogdom."

committee decided to make no changes in the administrative relationship of the medical and dental schools to the university. Members confirmed a previous decision that University President H. K. Newburn continue to sign medical school diplomas. He had asked that he not be required to do so because he has no control over the curriculum of the medical center in Portland.

The dental school advisory committee asked that Dean Alfred Noyse be permitted to attend all board meetings. This was rejected after the administration committee noted Dean Noyse has been attending all sessions in which dental school topics were under discussion.

### Commie Text Book Outlines Procedure for Revolution

New York, Aug. 9 (AP)—The government prosecutor at the communist conspiracy trial used documentary evidence yesterday to support his charge that secret party schools since the war have employed textbooks on violent revolution.

The defense contends such books have long been outmoded. U. S. Attorney John F. X. McGohey read to the jury excerpts from a party publication, "Strategy and Tactics."

The book described Leninism as a system of rules for the guidance of the leaders of proletarian revolution in any country at any time when a "revolutionary situation" developed. It showed how "legal" and "illegal" means could be combined by professional revolutionaries.

The main task of communist leaders in Western Europe and America, according to the book, is to "educate" the masses so that they eventually will be ready to take part in "the last great decisive revolutionary struggle."

In a situation like that in the United States today—"when the revolutionary tide is not rising"—the communists were told in the book that they should advance "partial" slogans, legal reforms and "united front" movements.

When the "revolutionary tide rises," the book said, the party will assume leadership of the masses for "direct attack" on the government with propaganda, for increasingly radical slogans, mass action, strikes and demonstrations. Finally, it said, there will be "the general strike conjointly with armed insurrection conducted according to the rules of war with offensive fighting operations."

Judge Harold R. Medina indicated that the trial of 11 top communist leaders—now in its 30th week—will run at least into September. He announced there will be no court session Sept. 2, the Friday before Labor day.

Mason H. Bigelow, former president of the New York state bar association, announced he had completed taking testimony by deposition from communist national chairman William Z. Foster.

Foster's testimony will be read into the trial record soon as part of the defense case. Foster was indicted with the 11 defendants on charges of conspiracy to advocate overthrow of the government by force and violence, but he was not put on trial at times because of illness.

Only one case each of chickenpox, measles, mumps, pneumonia, ringworm and septic sore throat were reported by Salem physicians to the Marion county department of health last week, according to a statement made today by W. J. Stone, county health officer.

### KKK Chief Bans Mask-Wearing

Atlanta, Aug. 9 (AP)—The Ku Klux Klan's chief today issued an "imperial edict" against mask-wearing—about 36 hours after south Georgia townsfolk and robed night riders swapped shots.

The order from Dr. Samuel Green, imperial wizard, came after the one-armed mayor of Iron City, Ga., and some of his friends opened fire on a Klan motorcade.

To wind up the shooting war, the mayor chased a Klan official into Alabama at a 100-mile per hour pace and had him jailed.

Dr. Green threatened members of the sheeted order with banishment if they appear "on any street, road or highway wearing a mask or visor."

He said the edict was necessary because certain "unlawful acts have brought unjust criticism against klansmen."

The association of Georgia Klans, which Green heads, has been placed on the subversive list by the U. S. department of justice.
