Nut Growers Get Hearing

Filbert growers of the Pacific Northwest, faced with a record crop this year, have asked for and have been granted a hearing by U. S. Department of Agriculture officials in an attempt to establish a marketing agreement effective October 1st.

August 15th, 16th and 17th have been set as dates for the hearing, in the auditorium of the New Journal Building, 800 S. W. Front St., Portland, It will con-vene each day at 9:30 a. m. (Daylight Time).

Proposed by Northwest Nut Growers, Dundee, marketing agent for seven cooperative as-sociations in Oregon and Washington, and endorsed by other packers in the filbert industry. the agreement recommends that a Control Board be established to function as authority in determining percentages of mer-chantable grade in-shell filbert tonnage that would be marketed as such in each crop year. Wal-nut growers have marketed under a similar program for many years. Maintenance of control on the in-shell tonnage offered to market in relation to the yearly demand, is reported a large factor in maintaining healthy, progressive walnut industry.
