

### Networks War Plans Made

New York, Aug. 18 (AP)—The "war between the networks" is ready to go into all-out action. Plans for NBC's campaign, the largest and costliest promotion and publicity effort in the history of the network, were announced by Charles Hammond, NBC vice president.

The promotion phase will be a three-pronged drive employing the combined potential of radio, newspaper and magazine promotion.

Every possible type of on-the-air promotion will be employed. There will be announcements on sustaining programs, cross-reference announcements on commercial shows, announcements at station breaks as well as commentator and disc jockey announcements.

There will also be a network "showcase" program and two regularly scheduled programs on which the stars of the network will appear.

CBS promotion and publicity plans will include similar devices to support "the greatest schedule of programs ever to be carried by any network."

The CBS bigwigs recently held a special meeting in New York to lay the 1949-50 battle plans—but the full extent of their gigantic program will not be revealed until a later date.

Their parents, Mr. and Mrs. Claude Garver, said for the past year the children persisted in chewing the paint from the furniture in their home. Mrs. Garver said Claudette ignored all punishment to gnaw on furniture "just like a little beaver."

### Atlantic Crossed In Small Sailboat

Dartmouth, England, Aug. 18 (AP)—Two daring British brothers completed today an epic 2,700-mile Atlantic crossing in a homemade 20-foot sailboat.

Stanley Smith, 30, and his brother, Colin, 29, both veterans of the Royal Air Force, set foot on land for the first time since leaving Halifax, N.S., in their cockleshell craft 43 days ago.

After successfully braving storms, thirst and starvation for more than six weeks without aid, the brothers had to accept a tow from a harbor launch to make their triumphal entrance. The wind failed them 500 yards off shore.

Cheese will be hard and tough if it is cooked too long or at too high a temperature. When a dish containing cheese is baked in the oven it's a good idea to keep the temperature moderate. When a cheese combination is cooked on top of the range it should be put in a heavy saucepan and the heat kept very low, or put in a double boiler over hot, not boiling water.
