## \$1000 Loss in Fire at Derry

Dallas, Ore., Aug. 19—Damage estimated at \$1000 was incurred by the Burlington-Meeker warehouse at Derry by a fire starting at 10 o'clock Friday morning and which threatened a heavy loss if it had not promptly been placed under control.

George Vaughn, manager, is blaming spontaneous combustion of dust as the cause though there is a possibility of sparks caused by a slipping belt may have been the cause. Much of the metal equipment was "hot." Threatened was the new elevator added to the warehouse and currently storing between 16,000 and 18,000 bushels of grain and seed. Fifteen trucks were lined up to unload and when heavy smoke was noticed scattered in the vicinity. If the fire had made any headway firemen report that the Polk County Farmers Cooperative association property including oil storage tanks would have been destroyed.

## Finnish Strike Leaders Nabbed

Helsinki, Aug. 19 (AP)—The Finnish government moved swiftly today to smash a growing communist offensive as police nabbed Red leaders in Kemi, scene of yesterday's strike violence which left one dead and nine injured.

Among those arrested was the chairman of the Kemi city council, Juhja Heikkilae, who was described as one of the leaders of yesterday's strike call. Another city council member also was reported arrested.

Reliable reports said communists from southern Finland also were arrested at Kemi. This would indicate that Red agitators from Helsinki had been operating in the town, where 1,500 striking lumberjacks exchanged fire yesterday with police.

Government spokesman has declared the strike offensive is designed to make Finland into a communist state.

Meanwhile, the strikers announced a new strike meeting tonight, in defiance of a ban by the governor of the northern province on all public gatherings, with heavy fines for any violations.

A strike meeting also was called in Helsinki today.
