

Chile Proclaims Martial Law

Santiago, Chile, Aug. 20 (AP)—The cabinet today ordered the fleet to Chile's coastal coal and nitrate fields and proclaimed modified martial law in an attempt to nip an alleged communist plot to overthrow the government.

President Gabriel Gonzalez Videla said half the fleet was sent to ports in the strike-bound coal provinces of O'Higgins and Concepcion in south Chile and the other half to the northern nitrate provinces of Antofagasta and Tarapaca.

Naval units sent south were ordered to isolate and occupy the coal fields, where 2,500 miners in the Lota and Lirquen colonies struck this morning.

The labor ministry said 500 men in the Lota pits had refused to come to the surface. Another 1,500 failed to report for the first shift today. The other 500 miners struck at Lirquen.

The dispatch of fleet units to the nitrate provinces in the north was believed a precautionary measure. No strikes had been reported there to date. There are heavy American investments in the nitrate fields.

The government's proclamation of modified martial law applied to all four provinces. Its action followed swiftly the suppression of bloody riots in Santiago earlier this week. The government charged these, too, were part of a communist plot against the government although they ostensibly had been touched by an increase in street car fares.

N. Y. Unloads Island Sugar

New York, Aug. 20 (AP)—AFL longshoremen unloaded more sugar from the first sugar freighter out of strike-bound Honolulu today, while only three CIO representatives made a token picketing of the ship.

The freighter Steel Flyer, docked at the American Sugar Refining company's Brooklyn pier yesterday, AFL International Longshoremen's association members have ignored the picket line of the International Longshoremen's union (CIO) to unload the 6500 tons of raw sugar. They expect to complete the job Monday.

A special detail of police was on hand to see that there were no clashes between the rival labor unions.

The ship also is being picketed by the Marine Engineers Benevolent association (CIO) for running the labor blockade put up by Harry Bridges' striking longshoremen in Hawaii.

Admits Killing of Tattooed Blonde

Ogden, Utah, Aug. 20 (AP)—Police Chief Maurice Schoof said today Richard Dix Pack, 23, of Pocatello, Idaho, signed a confession this morning in the tattooed blonde murder case. Schoof said Pack said in the statement he killed the Ogden

Now They Know?—Bill Hite (right), head of a flying service in Long Beach, Calif., and Bob E. Overholt (left), in charge of his parachute department, decided to make their first parachute jumps in order to answer customer questions about bail-out procedures. Overholt jumped first and broke his right leg. Undaunted, Hite followed with a jump a few hours later and broke his left leg. Now they get around together with one set of crutches. (AP Wirephoto)

Nanking Red Press Attack on America

Nanking, Aug. 20 (AP)—The communist-controlled press today fired its heaviest propaganda broadside against the United States.

The daily, bitter press attacks reached a new height of intensity in today's editorials, which practically choked news off front pages.

The anti-American propaganda campaign has been sharply accelerated by publication of the U. S. white paper on China. (The white paper laid down a policy of aiding the Chinese to cast off the "foreign yoke" of a Red regime which served Russian imperialism).

The official communist Hsinhua (New China) agency has charged the United States with fostering a fifth column behind Red lines and with encouraging and assisting sabotage by "nationalist special bandits."

Arnold Upholds Choice of B-36

San Francisco, Aug. 20 (AP)—There is no chance for politics or favoritism to enter into the selection of combat aircraft, General H. H. (Hap) Arnold declared yesterday.

The retired air force commander was testifying before a house subcommittee investigating rumors that the choice of the huge, six-engine B-36 might have been influenced by politics.

The development of an air giant such as the B-36 requires the combined efforts of countless scientists, engineers and officers, he said.

He reaffirmed his faith in General Hoyt Vandenberg and the men who presently guide the air force.

"I personally selected them for their outstanding ability and integrity," Arnold said. "They have measured up under fire. I have unqualified confidence in them."

"Arnold said development of a combat plane takes from three to six years from the drawing board to operational flight."

It requires endless refinements—getting the "bugs" out—so it can be used. He said the vital decisions affecting the development of a plane cannot be made by any one man but must be made by all concerned in that development.

Digressing a bit to world affairs, Arnold said fear of what may happen to them is all that deters people from aggression.

"The thing people fear most is something they do not understand. And the thing the Russians understand least is strategic bombing."

"Therefore, I congratulated the secretary for air when he ordered more B-36s."

He said that in the B-36, the U.S. has the best inter-continental bomber of any nation. So far as he knows, nobody else has anything to match it.

Court Upholds Portland Taxes

Portland, Ore., Aug. 20 (AP)—Circuit Judge James W. Crawford ruled today that Portland's controversial city license fee program is legal.

Judge Crawford's ruling gave the city a go-ahead to collect the fees, effective July 1, but he suggested that the city council limit operations of the plan to one year.

The ruling decided suits brought against the city by the Retail Trade bureau, a group of auto dealers and the Business Brokers of Oregon.

The city already had announced that it intended to repeal the license ordinances at the end of the fiscal year, July 1, 1950, if a permanent financial program is ready for adoption at that time.

In ruling the plan legal, Judge Crawford said the city was authorized to pass license ordinances embracing both regulation—licensing and revenue—licensing. The plaintiffs had argued the ordinances were improper because they covered two subjects.

"I find no legally objectionable discrimination in the impact of this licensing program," Crawford said.

Polio Victim Saved by Serum

Lubbock, Tex., Aug. 20 (AP)—Hospital attendants said a four-year-old polio patient showed no sign of the disease last night, several hours after her grandfather, a Chicago doctor, gave her an injection of a special serum.

The serum was given to Peggy Ann Best of Jordan, N.M. Braniff Airways detoured a Dallas-Amarillo flight 200 airline miles yesterday to deliver the serum.

Peggy Ann's sister, Sandra Jean, 7, died Wednesday, the day she was admitted to the hospital as a polio patient.

Dr. C. O. Molander ordered the serum from Deutsch serum center in Chicago. He explained it had been in used for 10 to 15 years—not as a preventive but to lessen the severity of polio.

"In the bulbar type polio, the mortality rate is reduced from 45 to 50 percent down to 18 percent by the use of the serum," he said.

Dr. Molander said many doctors and hospitals "do not believe in this serum" but that it has been used with success by the Michael Reese hospital in Chicago.

Dr. Molander would not give the serum's name. He described it as "a convalescent serum taken from polio patients."

Polk County Lodges United for Picnic

Monmouth—The Odd Fellows and Rebekah families of Polk county held a picnic at Helmich state park. Some 200 people attended.

Following the pot-luck dinner, entertainment of sports, softball, horseshoes and cards for the older people while most of the children swam in the river. Rev. Cyril Hanney of St. Hilda's Episcopal church, played on his piano accordion and accompanied the group in the singing of favorite songs.

Tables from the Odd Fellows hall in Monmouth were taken out for their use as the tables of the park at this time of year are in great demand.
