

Budget Staff to Inspect Institutions Periodically

By JAMES D. OLSON

Periodic checks on all state institutions and departments will be made by staff members of the state budget department, State Budget Director Harry S. Dorman said Monday.

Data will be collected during these inspections in connection with the new budget control law, under which the budget department is required to report to the state emergency board semi-annually on the status of state expenditures.

Dorman said that he was assigning certain institutions and departments to three men who would be charged with the responsibility of checking the activities and making reports.

In addition the budget director himself plans to visit each institution once each year, such visits to be unannounced in an effort to ascertain the day by day operation of such institutions.

Under the new budget control act passed by the 1949 legislature the budget department must report to the state emergency board if any state institution or department is exceeding its budget.

Dorman stated that the department has a check on expenditures made by the state department's and at all times are aware of how much of the budget of each department is being spent.

Dorman said that he felt valuable information could be furnished both the emergency board and the legislature from the report resultant from the proposed visits and inspections.

Representatives of the budget office will also attend various board and commission meetings from time to time, Dorman said, in a further effort to gather all the information possible on the method of operation of state affairs.

When a long distance operator asked Mrs. Pappenport to stand by, Randall recalled that an article in a Kansas City newspaper identified the tune.

GEN. MARK CLARK ASKS EQUALITY IN RESERVES

Camp Pendleton, Cal., Aug. 23—Gen. Mark Clark, commander of the sixth army, today advocated complete equality among enlisted and commissioned personnel in the armed forces reserve training program.

Clark, reportedly scheduled to become chief of army ground forces, made his recommendation after a field inspection of the 13th armored division, undergoing summer maneuvers at this marine barracks in the first army-marine joint training since unification.

"The enlisted reservists of today will be the company level officer of the next war," Clark said.

"There is no room in the reserve program for rank-happy officers. Reservists should share housing, messing and training facilities. Social activities should be combined with civilian clothes preferred over uniforms. All this can be done without sacrificing essential respect for and obedience to senior commanders."

AMITY STREETS SIGNED
Amity—Street signs will be erected at all principal intersections, within a short time, making it easier for newcomers to find their way around.

New traffic lanes will be painted in the near future on Trade street which is 99W highway through Amity. The state highway commission will be in charge of the work.

MOSCOW PAPER HAILS STRIKES IN WORLD
Moscow (AP)—The newspaper "Trud" said that the increasing wave of strikes in the capitalist world testifies to the militant activity of the working class.

"A characteristic feature of many of the strikes," said the paper, "is not only their bitterness and stubbornness but also the spirit of brotherly international solidarity by which they are permeated." The paper said the recent strike of the London dockers [strike of 24,000 Australian miners] as among the larger strikes of this "Trud" said the of recent weeks.
