Stocks Advance Irregularly

New York, Aug. 25 (AP)—The stock market wound up a lackadaisical session in slightly higher price ground today.
Gains were small—Minor fluctuations for the most part—but they were liberally distributed among key issues.
Business was fair at best. The ticker tape took long and frequent rests and turnover was at the rate of only 750,000 shares for the full session. Several large blocks of stock—Including one 25,000-share lot of Commonwealth & Southern padded out the volume figure.
Today's slow and cautious rise was only a minor improvement over yesterday's market when prices leveled off, or improved a trifle, after a three-day decline.

Little Activity in Grain Mart

Chicago, Aug. 25 (AP)—Grains loafed through another session of small price changes on the board of trade today.
A mild buying flurry around mid-way in the session faded out almost as soon as it started. It was sufficient to crastle early losses in wheat, substituting small gains, but later the bread-cereal fell back to around the previous close.
Corn acted a little firmer than anything else and soybeans a good deal. Small receipts and light demand in the cash market helped corn. Prospects of an early harvest and reports of minor easiness in vegetable oil prices depressed soybeans.
Wheat closed 1/4 lower to 1/4 higher, September \$2.01 1/2, corn September \$1.24 1/2-1/4, oats were 1/2-1/2 lower, September 66 1/2-1/4, soybeans were 2 1/4 to 4 cents lower, November \$2.42-2.41 1/2, andlard was 20 to 30 cents a hundred pounds lower, September \$12.40.

Prospects Dim For Settling Hawaiian Strike

Honolulu, Aug. 25 (AP)—Prospects were slim today that chief negotiations to settle Hawaii's 117-day-old dock strike would be resumed immediately.
In Washington yesterday, U.S. Conciliator Cyrus Shugart urged the seven struck stevedoring companies and the CIO International Longshoremen's and Warehousemen's union to get together.
Employers, union officials and Federal Mediator George Hollenbrand were to confer today on side issues disputed in Hawaii ports outside of Honolulu.
The union is asking a wage increase of 32 cents an hour over its present \$1.40 cents an hour scale.
The union earlier had postponed indefinitely any renewed negotiation in Hawaii. It had said all developments awaited the return here of Union President Harry Bridges who is in San Francisco. Word received yesterday that he would not return soon.
Employers want to do their talking in Hawaii. But the union has indicated it would prefer the negotiations be resumed in Washington or New York. That was the suggestion from Ching.
Two strike-bound Matson freighters were being unloaded by territorial government non-union longshoremen who drove through ILWU picket lines without incident.
Non-Unionists Working
Eight gangs of 20 men each worked the Matson freighter Hawaii wholesaler. Two gangs worked the Hawaiian Retailer. Power to operate winches aboard the ships was furnished by barges alongside. Crews

Rains Diminish Forest Fires

The battle against fires ravaging North American forests took a favorable turn today.
Rain and diminishing winds aided the fire fighters.
The situation was still serious, however, in many areas. Flames have wiped out valuable timber in western United States, New England and Canada.
One person was killed and four injured yesterday in California's forest fires. Harry T. Meyer, 32-year-old lumber crewman, was killed by a falling tree in Stanislaus National forest where flames have blackened more than 7100 acres.
Fire fighters in Idaho's national forest still were running into trouble. One of four major blazes in Payette national forest broke loose yesterday and ran over an estimated 6000 acres.
The total Payette fire area spread to 24,000 acres. An additional 125 men were being added to the 1700 attempting to check the flames. Two of the main fires were under control.
The outlook in the Black Hills of South Dakota was promising. Rangers looked for favorable winds to blow the flames back over burned out areas. An estimated 5000 acres of timberland and 10,000 acres of grassland were hit.
Backfires saved Tiford, a South Dakota village of 100 population from destruction yesterday.
About a dozen forest fires still were burning in New England but none was reported as serious.

Idaho Miners Out on Strike

Wallace, Idaho, Aug. 25 (AP)—Employees of the Dayrock mine and mill here went out on strike this morning. The property is operated by Day Mines, Inc.
E. R. Everingham, secretary of local 14, Wallace, of the International Union of Mine, Mill and Smelters Workers, said about 100 men are employed at the property, and some are remaining at work today to make an "orderly" shutdown.
"The union has agreed verbally with management—and the agreement will be put on paper shortly—to supply the needed maintenance men at the property during the strike," Everingham said. "In return, the company has agreed not to attempt production."
This brings the number of men on strike in the district to about 800. Last Saturday night 500 employees of the Bunker Hill lead smelter at Kellogg walked out.

LAST OF SALAMANDERS GO INTO HIBERNATION

Laramie, Wyo., Aug. 25 (AP)—The last of the salamanders at Laramie's Labonte lake hibernated today and residents in the area drew their first easy breath in several days.
The annual trek of the lizard-like creatures is a yearly headache for the humans who are understandably giddy about stepping on them.
