Chicago, Aug. 26 12-7 Weak-ness in soybeans unsettled other commodities on the board of trade today. Showing an easier undertone all session, beans fell at a faster rate late in the day. Losses ran to several cents on fairly heavy volume.

This brought some nervous selling into other pits. Only corn displayed resistance to the pres-

sure. Wheat got off to a steady start on small mill buying, but faded toward the close. September fell under \$2.00. Oats and rye followed the same pattern as the bread cereal.

Traders said the selling in soybeans, which has now brought beans down for large losses from recent highs, was based mainly on further weakness in vegetable oil prices. Some suggested soybeans had been "over-bought" earlier this

Wheat closed %-2% lower, September \$1.99%, corn was % lower to ¼ higher, September \$1.24 % - ¾, oats were unchang \$1.24%-%, oats were unchanged to 1/4 lower, September 66-661/4, rye was 11/4-1 % lower, September \$1.42%, soybeans were 43/4-61/4 lower, November futures were 2 to 10 cents a hundred rounds lower. September dred pounds lower, September \$12.35.
