

Hawaiians Accept Offer For New York Mediation

Honolulu, Aug. 31 (AP)—Hawaiian employers pessimistically accepted an invitation today to enter New York negotiations on Sept. 7 to end the 123 day old dock strike.

Acceptance of federal mediator Cyrus Ching's Washington request for September meeting was voided by Chairman W. Russell Starr of the employees' negotiators.

Cochabamba Lost by Rebels

La Paz, Bolivia, Aug. 31 (AP)—The Cochabamba radio reported that government forces today recaptured Cochabamba, which rightist rebels had held since Saturday.

Troops under Gen. Ovidio Quiroga took control of the rebel stronghold, 150 miles southeast of La Paz, at 9 a. m. after four days of fighting, the radio announced.

The general staff said last night that most of the resistance in the city of 90,000 population had been crushed, but that actual occupation would be delayed until today to avoid "probable disturbances."

The revolt was led by the national revolution party (MNR) of the late Presidente Gualberto Villarroel, who was hanged when his government was overthrown in 1946.

(The Bolivian radio "Avaroa," heard in Lima, said the rebel leaders fled by plane after the Cochabamba defeat. It said they were en route to Arequipa, Peru, in a commercial transport plane of Lloyd Aero Boliviano.)

Tax Study Group Study Spending

The newly appointed board of control tax study committee today discussed ways and means of cutting down even more on state government agency spending.

The six man group, headed by tax commission member Carl Chambers, decided at their second regular meeting here today that agency spending was the place to start tightening up in the general overhauling of the Oregon tax structure now under study.

Harry Dorman, state budget director, said that the self-sustaining departments customarily spend all they take in. Departments such as the game commission add to their own special funds by the sale of licenses and from fines, and feel free to spend that income, he said.

Dorman favored considering transferring any possible surplus above needs into the state general fund for other uses.

The program would call for revision of tax laws at the next legislature where the committee will make its recommendations.

It was also pointed out that general overhead expense in state offices will be cut down by consolidation of the offices into the proposed new state office buildings in Portland and Salem.

Tabacchi Talks On Brewing

Steve Tabacchi, master brewer of Sicks Brewing company, outlined the history of the industry from a period as far back as 6000 years ago to the present and gave a good sales talk for the use of the beverage in moderation as he addressed the Salem Rotary club Wednesday noon.

Among other things, Tabacchi claimed that the manufacture of beer was nothing more than continuing the processes of nature, that its use was not fattening, that the industry was one of the largest in the country and that "intelligent use of beer" was a definite feature of our standard of living.

Tabacchi stated that such notable men as General Israel Putnam, Samuel Adams and George Washington were interested in the manufacture of beer. Moreover the larger estates following the Revolutionary war were well equipped for its production.

On the statistical side Tabacchi said that 41,000,000 million pounds of hops went into beer production in this country in addition to 235 million pounds of rice, 835 million pounds of corn and two and a half billion pounds of malt.

If canned fruit is to be used for dessert be sure to chill the can well in the refrigerator before opening and serving.

Alcohol Plant Leased 3 Years

Washington, Aug. 31 (AP)—Lease of an experimental industrial alcohol plant at Springfield, Ore., to three Americans, Ga., persons was announced today by the war assets administration.

The wartime plant was leased to Charles B. Hudson, Jr., William S. Hudson and Mrs. W. E. Mitchell for five years.

They plan to use the plant to determine whether production of industrial alcohol from wood waste is practicable, war assets said.

The plant cost the government about \$3,000,000. The lessees told war assets the cost of rehabilitating is expected to be between \$250,000 and \$300,000.

Terms of the lease are \$100 rent a year for the first three years—while the plant is being put into condition—and rent for the fourth and fifth years to be determined on a scale based on the prevailing price of industrial alcohol, with a minimum guaranteed rental of \$5000 a month payable in advance.

The Georgians also were given an option to renew for three additional five-year periods or to buy the plant for an amount to be negotiated.

Rural Schools Registering

A scattering few of the rural schools of the county will start registering pupils for the year's work Thursday, according to reports seeping into the office of County Superintendent Mrs. Agnes C. Booth but in the main school opening generally will be September 12 over the county.

However, others will open on varying dates running from September 6 to as late as September 26, the date reported for Evergreen school.

Opening Thursday for registration will be Fruitland, union high school No. 4, Stayton, and Stayton grade school. Silver Crest, No. 93c, is due to open the sixth, North Howell the 16th and, as stated Evergreen the 26th, but these odd dates are comparatively few as to the great majority scheduled for the 12th.

The superintendent's office also reported the teacher situation is about as good condition as has been had for many years. All the rural schools have reported in their quota filled up and there are also others who would like to get Marion county teaching jobs but will be unable to because of the full roster.

At no time has the county found itself shy of teachers on opening day, although for a few years it seemed doubtful a short time before opening, but at the last minute enough reserves or others were found to take care of the situation. But this year the situation eased and it was more a matter of picking the ones wanted than going out and hunting them up.

labor in this vicinity have been asked to be guests of the club.

The council of teamsters of which Briem is a member, represents 26 affiliated unions within the five southwest counties and all of Oregon. He acts as advocate for the union in all teamster cases in the area before the national labor relations board having served in this capacity for approximately four years.

Briem at one time was the executive assistant to the labor members of the 12th regional war labor board at Seattle. From 1936 to 1942 he was the labor commissioner of the department of labor and industry for the state of Washington.

President Calls Youth Conference

Washington, Aug. 31 (AP)—President Truman today called a White House conference on children and youth. Telegrams went to all the nation's governors.

The president described the conference as the fifth in a series of such meetings held every 10 years on the call of the president. It will be held during the latter part of 1950.

Mr. Truman said Oscar Ewing, federal security administrator, will serve as chairman of a citizens' committee which will meet shortly in Washington to make plans for the conference.

The telegram to the governors of the states and territories and commissioners of the District of Columbia calls for "full participation of each state."

2 Day Week For Coal Mines

Washington, Aug. 31 (AP)—Soft coal operators were angry today over John L. Lewis' order for a two-day week for his United Mine Workers in eastern pits next week.

Lewis late yesterday directed locals east of the Mississippi to work only Tuesday and Wednesday. Monday is Labor day and a holiday for the miners.

Operators had expected Lewis to permit the miners to work Thursday next week in place of the Monday holiday. He made such provision when he put the three-day week in effect the week of July 4 on account of the Independence day holiday.

But his order specified that the work week until further notice shall be Monday, Tuesday and Wednesday.

Lewis reaffirmed yesterday's telegram that Thursday will be an "idle day" next week. Operators were bitter over the additional day's lost production but admitted there was little they could do about it since the miners have been completely obedient to Lewis' orders.

Some pits might close down for the entire week, some sources hinted.

"You couldn't print what I think of Lewis' action if I told you," one industry spokesman snapped.

Change Schedules On Transit Lines

Effective September 6 City Transit Lines will make some changes in schedules on the Mill and Madison street and the Fruitland-Swedge lines.

The Salem office said the changes would reduce the service slightly in the Fisher road area and the outer end of the Fruitland-Swedge run. This was necessitated by shortage of patronage, it was said.

On Labor day, which is the opening date of the State Fair, the lines will have special busses operating between the city and the fair grounds and will have complete regular schedules as well.

The special busses to the fair grounds will make the usual fair week turnaround near the fair gates.

Wayne Morse to Speak Wednesday

U.S. Senator Wayne Morse has been scheduled as a guest speaker for next Wednesday at the Marion hotel for a joint meeting of two service groups under the sponsorship of the Salem Exchange club.

Gene Laird, program chairman for the sponsoring group, made the announcement of the

Wheat Prices Show Strength

Chicago, Aug. 31 (AP)—Wheat showed some underlying strength on the board of trade today despite prospects of large deliveries of cash grain on September contracts tomorrow.

It was estimated that around 1,000,000 bushels would be tendered on these contracts.

Chief support for the bread cereal came from an advance in the government buying price for cash wheat and indications of some pick-up in flour business.

Minneapolis wheat was stronger than here. Family flour prices will be raised tomorrow, a condition which brought flour buying today.

Suit Filed for \$100,000 Bonds

Recovery of \$1,949,500 face value mortgage bonds issued by Kynell Industries, Inc., allegedly valued at in excess of \$100,000 is asked in a complaint filed in circuit court here by A. F. Kynell vs. Glenn Munkers and Pioneer Trust company.

The complaint avers that the plaintiff is the owner and entitled to possession of such bonds but that the "defendants still unlawfully withhold and detain said personal property from the possession of the plaintiff to the plaintiff's damage in excess of \$100,000."

Kynell asks that the court either award him possession of the bonds or such sum in excess of \$100,000 as shall be the value of the bonds in case delivery of such bonds cannot be had.

Explanation was given that the bonds in question are being held by the Pioneer Trust company for safekeeping at behest of Glenn Munkers, trustee. The suit, it was stated, was merely to get court determination as to who is entitled to the bonds and they will be turned over to such party when the court directs.
