

August Rainfall Only .38 Inches

Rainfall for August was only .38 inches or .06 inches less than the average precipitation for the month, according to records of the U.S. weather bureau at McNary field.

It has been 28 years since the month had a measurable amount of moisture, there being no rainfall in 1928. However, there was only a trace in 1940, 1936, 1931, 1911 and 1906. Other Augusts without rainfall were 1894, 1900, 1902, 1914, 1915, 1917 and 1919.

Greatest precipitation for any August was 2.91 inches in 1899. Only two other similar months had more than two inches, 2.42 inches in 1926 and 2.14 inches in 1943.

Mean temperature for the month was 66.2 degrees with 95 degrees August 1 the hottest and August 14 with 45 degrees the coldest. There were 10 clear days during the month with 11 partly cloudy and 10 cloudy ones.

Rainfall for the year, ending September 1, was 42.34 inches as compared with 47.52 inches last year and a normal precipitation of 37.80 inches.

300 Women Needed In Salem Canneries

For the first time since the 1949 food processing season got under way there is a real shortage of women workers at the various canneries in Salem. W. M. Baillie, manager for the Salem office of the state employment service reports that there is a need for 300 women. He suggests that they contact his office as soon as possible.

The shortage was brought about by the rush of a number of commodities, including beans, peaches, pears and prunes. The peak of employment is expected to continue through the next two or three weeks.

With two score new European headline acts, spearheaded by the Geraldos, Lillian Wittmack, the Margas, Alma Piaia and the Morals, aerial and ring sensations; the Great Swanson; Peterson's famous jockey dogs; Patterson's ponies; Guff's gorilla parody, a comedy riot, and the new Rola Rola sensational duo—all attractions never before seen in America—the circus again presents a new face.

Red Returns—Soviet Lt. Anatoly P. Barsov, 31 (right), a Russian air force deserter who spent seven months in the United States was returned to the Soviets from Vienna, Austria at his own request. Barsov fled from the Soviet Ukraine last October 9 with Peter Pirigov (left), 28-year-old Soviet navigator (pair are shown together in new American suits shortly after their flight). Pirigov, the state department announced, was still in this country, happy and wanted to remain. (Acme Telephoto)

Greatest Show on Earth Will Be in Salem September 15

It's official now. The big show—Ringling Bros. and Barnum & Bailey circus—is coming to town. The four long, streamlined trains will arrive over the Southern Pacific railroad early Thursday, September 15, to exhibit in Salem at the fairgrounds parking lot.

The No. 1 advertising car is in the city, and Gardner Wilson, the contracting press agent, called today to confirm the day and date, to talk of the 1949 edition of the greatest show on earth and to point out its highlights.

First, he says, the major spectacles—"Birthdays," "San Francisco," "The Girl in the Moon," and "The Glorious Fourth"—are the best that John Ringling North, president and producer; John Murray Anderson, produc-

tion director; Miles White, costume designer, and Henry Sullivan, composer, have turned out, surpassing even last year's ten-strikes. "Birthdays," the supreme feature of the performance, exploits in fantasy the natal days of Mother Goose, fairy tale and nursery rhyme characters.
