Merle Evans Is Big Top Music

In musical circles the world over and in the thoughts of millions of American circus goers, the name of Merle Evans means circus music—the galops, the rousing marches and lilting melodies of the big top. He is its living symbol, its dominating, beloved exponent.

And he leads the finest musical organization of its kind in the world. Merle Evans, maestro of the Ringling Bros. and Barnum & Bailey Circus band directs his men with his left hand because his right is busy with one of the best-played cornets to be heard this side of Gabriel's own brass section.

While the spotlight that shimmers on the 800 performing stars of the Big Show seldom shines on the musicians, the music of the circus is the medium through which it becomes articulate and the band is the bright, spangled frame upon which the exciting pattern of the performance is stretched.

Evans recruits his men from the best of musical organizations and schools, but holding down a chair in the band of The Greatest Show on Earth is one of the most difficult assignments in music.

Merle Evans' band runs the musical gamut from classical numbers to popular tunes and plays upwards of 180 cues at every performance of the great new Ringling Bros. and Barnum & Bailey Circus of 1949, coming to Salem Thursday, September 15.

The performances, featuring scores of thrilling new acts from abroad in pre-war might and surpassingly magnificent new spectacles, will begin at 2:15 and 8:15 p.m. in the world's largest tent.

The doors will open at 1 and 7.

Neighbors of Woodcraft Headquarters Remain

Portland, Sept. 14 (AP)—The grand circle of the Neighbors of Woodcraft has rejected a proposal to transfer the lodge headquarters to California.

Opponents of the shift said some officers apparently wanted to live south of the Oregon border. The lodge owns an eight-story modern building here. In a reprisal move, a motion was made to transfer the Riverside, Calif., home to this state. This also was turned down.

MISS RAGS TO RICHES 1949

"After 80 washings the left half of this cotton dress was worn to shreds. But the right half which had been Perma Starched after each 8th washing was still crisp and new looking!"

Makes Clothes Wear Twice as Long

Tests by the nations' leading independent laboratories conclusively prove Perma Starch makes clothes wear twice as long because Perma Starch does not wash out even after 8 to 15 washings. Perma Starch starches clothes in an entirely new way. Unlike ordinary starch that coats cloth to stiffen it, Perma Starch penetrates into the individual fibres of each thread. Melted under the heat of an iron it actually grasps and holds fibres in place, keeping them from being torn away by wear or by washing.

Saves Time and Money

No cooking is required. Leaves no odor in clothes after ironing. By making clothes wear more than twice as long, Perma Starch can save the average family \$50 to \$75 each year. One 79¢ pint bottle makes 1/2 to 3/4 gallon and does the work of \$2.50 worth of liquid cornstarch.

Warning

There are some imitations of genuine Perma Starch with similar and confusing names. These products have not had the benefit of the 15 years of research that went into Perma Starch. Some leave an unpleasant odor that cannot be washed out, some even add water to make their product seem more economical. Be sure you get genuine highly concentrated Perma Starch. It comes in the "BARDER POLE STRIPE" bottle at your grocer.
