Union Refuses

Leaders of the powerful trades union congress (TUC) were to meet today in the first of a series of sessions to decide whether the TUC can continue to support the government's wage freeze order.

There were indications that the union bosses were split among themselves. The TUC is the backbone of Britain's ruling labor party.

To Recall Parliament
Conservative Leader Winston Churchill and Liberal Leader Clement Davies both demanded the recall of parliament, which is in recess until Oct. 18. The opposition leaders want a quick explanation of the labor, business devaluation, the hour, government plans to revive.

The first slowdown by rail workers came at midnight last night in Southampton. It hampered the unloading of the liner Queen Mary, one of Britain's big dollar workers.

Railwaymen in London also voted to start a slowdown at midnight Wednesday. This would jam up vital export cargoes in the freight yards and produce chaos on the vast city's delicately timed subway system.

Coal Strike
Those developments brought on the nationwide work stoppage yesterday.

It wasn't long before industry stepped into the battle.

Joseph Moody, president of the Southern Coal Producers, called the UMW fund a "Frankenstein," adding:

"If continued as it has been in the past, it will wreck both the coal industry and the union itself."

And Moody said suspension of the fund's payments wasn't caused by the southern operators refusal to keep up their payments.

"The reason is that the fund was established on an unsound basis and that it has been operated in a manner that inevitably led to its collapse."

No trace of the pair was discovered by late Monday when deputies began their search. WU Registration First Day 1152

When Willamette university closed its first day of registration for the fall term Monday 1152 students had enrolled. Registration can be completed without penalty during the next two weeks and it is expected additional students will be enrolled before the deadline.

While the 1152 on the books are below last year's figure, the number is more in line with the maximum Willamette hopes to establish.

Of the total registered 545 are in the lower division of the liberal arts college, 410 in the upper division; 43 in lower division music, 39 in upper division music and 115 in the law college.

Enrollment includes approximately 400 new students of which 335 are freshmen.

Devaluation

Government bonds gained in London, but they had suffered severe losses in the last few weeks in anticipation of devaluation.

Trading in foreign stocks was barred in Paris, where the franc opened about 6 percent under last week's free market prices. That was at the level sought by the French government.

In Moscow, economic observers believed the Soviet ruble will retain its present relation to the dollar. That will be Moscow's way of saying that its ruble is as sound as U.S. coin. But Russia is expected to adjust the rate of its ruble in relation to the money of devaluing countries.

Canada, a great gold producer like South Africa, made a compromise devaluation — 10 percent. That means it will cost 110 cents to buy an American dollar in Canada.

Over almost all the world, gold was king—and the U.S. dollar grew mightier.

Steelworkers

President Truman, meanwhile, was keeping on the sidelines. Presidential Press Secretary Charles G. Ross said that Mr. Truman has "nothing in the works" to offer as a new formula for settling the dispute.

He said that also applies to the nationwide coal strike. "Nothing is in sight," Ross told a news conference.

A top presidential aide said privately that Mr. Truman is convinced there will be a steel-making stoppage at midnight Saturday unless the industry

and CIO Steelworkers' union reach an agreement by then.

That seemed to rule out any new administration request for a truce.
