Baptists to Gather - A ladies meeting of valley Baptist leaders met here this week to discuss plans for the annual meeting of the Central Willamette Baptist association to be held in October.

Check Charge Lodged - George Charles Coble, route 1, Brooks, has been booked at the sheriff's office on an NSF check charge. He is to appear in district court Thursday.

Navy Fighter Plane Dragged from Sea Astoria, Ore., Sept. 21 (AP) - A navy fighter plane, which apparently crashed into the ocean during the war, was turned over to the Tongue Point naval station today, after a fishing boat brought it up from 70 fathoms. The F4F Wildcat plane, its guns loaded, was fished up by the ocean floor yesterday. It was covered with seaweed and barnacles. The plane was equipped for carrier operations. The canopy over the cockpit was open, indicating that the pilot had escaped. The drab-painted biplane was flying 11 miles southwest of the Columbia river lights. It took the crew two hours to bring the craft up.

State Finance to Make FHA Loans

State Finance Company of 153 South High street, Salem, has been appointed mortgage loan correspondent to handle FHA loans for The Mutual Benefit Life Insurance Company of Newark, New Jersey.

A well known financing company in Western Oregon, State Finance is the only local mortgage company approved for FHA lending by the Mutual Benefit Life Insurance Company, in the Willamette Valley. The company now services approximately \$3,000,000 in loans on farm, city and acreage property. It owns the building in which its offices are located.

E. A. Miller, who has been prominent in the mortgage field in this area all his business life, leads State Finance. A resident of the valley since boyhood, Mr. Miller started in the mortgage loan and real estate business in Corvallis in 1908. He has been in that field in Salem for almost 25 years. Conrad P. Paulson, assistant secretary of the firm, heads the Mortgage Department. He was a bank examiner with the FDIC in the mid-west until his enlistment in the Navy early in 1942. After the war ended, he was employed in Salem by the treasury department until he joined State Finance.

Widening of highway 99E, just north of Salem, from two to four lanes was urged by Roy Harland, president of the Salem Chamber of Commerce because of the traffic congestion at the north entrance to Salem.

Harland also urged construction of a by-pass road skirting the city limits for heavy truck travel.

Chairman Banfield, following the meeting said that the commission had allocated all available funds on a two year highway program and it is the policy of the commission to make surveys and purchase rights of way now for essential projects so that when additional funds are available in 1951 such projects can proceed without delay.

"We on the commission are well aware of the importance of each of the projects presented by the "Salem delegation," Banfield said, "and we are anxious to go ahead just as soon as possible. But our added revenue from increased gas tax and auto licenses will not become available in full force until 1951." Banfield also said that rights of ways for the 9.37 mile gap needed to finish the Willsonville cut-off highway would be negotiated immediately. He estimated that to complete this highway with two bridges together with the two bridges necessary would cost \$3,260,000 and to make the entire 17.33 miles of the highway four lanes would cost approximately \$5,215,000. Members of the commission indicated favor for the four-lane road.

It was pointed out that because the one-way grid plan outlined in the Baldoock plan is flexible and can be changed by this time to consider the suggestion of the Capitol Planning Commission closing east and west streets in the Capitol center area.

3 Women Held For Street Fight

The names of three members of the weaker sex were recorded on the Salem police blotter Wednesday under charges resulting from a fight on a downtown street. The women, Rita Arto Cox, route 4, Lorene Zurella Miller, 150 Williams, and Gladys E. Patterson, 1045 North Cottage, were charged with disorderly conduct by the arresting officers.

Van Blericon Faces Driving Charge

Ralph L. Van Blericon, 485 North 23rd, who was the driver of an auto involved in a two-car crash last spring which resulted in a fatality, was arrested Tuesday night by Salem police for reckless driving.

Van Blericon pleaded not guilty and was released on \$75 bail on the reckless driving charge. A patrolman had watched him drive in what was termed a reckless manner near a tavern.

It was the third time within six months that Van Blericon's name figured in police reports. The first occurred in April when his car was involved in a crash at an intersection in north Salem. A youth riding in the other vehicle was killed.

During the summer months, a police report also detailed how his Cadillac car had rammed parked autos.

Keizer Club Elects - Dean Freyer is the new president of the recently organized Keizer commercial club with other officers: A. B. Pederson, first vice president; Darthee Teeter, secretary, and Sam Orent, treasurer. The board of directors consists of Onas Olson, Gaudie Yonker, Wilber McCune, Paul Giel and Alfred Lamer. The club will hold meetings the third Tuesday of each month at the fire hall.

Registration Information

College and university students who become 18 years of age during the school term started need not return to their homes to register under the selective service law but may register at the local board most convenient to them, as may others when they reach the age of 18. That is on the record of the deputy state director, Francis W. Maizon. The law requires registration of all young men - with very few exceptions - within five days after their 18th birthday. The young man presents himself to the local board or registration place designated in that particular area most convenient in the place he happens to be when he becomes 18. When the registrant has a permanent home, the permanent home address should be given to registration officials.

Wants Detroit Road Kept Up

H. G. White as acting forest supervisor in the Detroit area for the United States forest service, has directed a letter to the county court asking that the county continue maintenance of the old Detroit road between the Mongold road and Detroit until such time as the present ranger station is removed to a new location.

He said there are a number of families served, indicating those in the forest service as "we" and they have children going to the Detroit schools who will have to go by bus and said the road needed maintenance.

Comment of court members indicated that if maintenance is to be continued for the benefit of the forest service that that service should handle it. The letter was referred to County Judge Murphy for reply.

Peace Parleys

Ching said he has no plans now for further meetings with union and companies for the time being - expecting them to go to bargaining with each other on their own as the president requested.

The president's request was made in a letter he sent to Ching in the midst of government-sponsored efforts to work out a settlement of the dispute over pensions and insurance.

His letter stressed the importance to the nation of averting a crippling steel strike.

Every possible move, Mr. Truman said, should be taken to avert such a stoppage; therefore he was asking the new strike deadline extension.

Mr. Truman's letter said he is in "full agreement" with the statement made by his steel fact-finding board in recommending a 10-cent hourly pension-insurance program. Ching had visited the White House earlier in the day to report to Mr. Truman on his efforts to head off a strike. Presumably Ching suggested at that time that Mr. Truman ask for a new truce.

Six Withholding Right of Way Deals

Cecil Gardner, right of way agent for the state highway department who has been securing right of way for the proposed Silverton road federal aid improvement from Steffen corners into Silverton, filed with the county court today the last six options for properties which so far are unsigned by the land owners and which may have to go to condemnation.

However, Gardner expressed the hope that possibly two or three of them may yet sign before it is necessary for court action to be taken. A total of 23 property owners were contacted and all but six are now on the dotted line, a number of them giving their properties without cost, he said.

Aquatic Show - The physical department of the Salem YMCA will present a water show at 8 o'clock Wednesday night. A number of boys and girls will take part in the program which will include a learn to swim demonstration, stunts and races. The pool was recently drained and given a thorough cleaning. The filter beds were also placed in first class condition.

WHO'S SWITCHING TO CALVERT?

Folks everywhere have switched to Calvert Reserve because it tastes better!

CALVERT RESERVE Blended Whisky - #63 Proof - 65% Grain Neutral Spirit, Calvert Distillers Corp., New York City
