

Mentioned in Testimony—Gambler Mickey Cohen, pictured with his wife at his trial, in Los Angeles, on charges of swearing at police officers, was mentioned in grand jury testimony as director of a ring of "prostitute extortionists" in Hollywood. The testimony, filed in superior court was by Paul R. Behrmann, 41, a former actor's agent. Cohen termed the testimony "utterly ridiculous." (AP Wirephoto)

Bethel School Reunion Calls

Bethel, Sept. 22—Descendants of some of the early Dunkard families, who founded the old Bethel church in the school yard where now stands the Bethel school building, were among the 75 who attended the sixth annual reunion of former pupils and early teachers held in the school. This historic spot is located on East State street, five miles east of Salem and is connected with early Oregon history and the days when virgin forest covered that land.

Attendance is limited to those who were connected with the school at least forty years ago. The annual event opens with picnic dinner served in the school dining room at noon. The committee in charge of the day is Mr. and Mrs. James Lauderback, Mr. and Mrs. George Bahnsen, Mr. and Mrs. George Hain.

Following the dinner a short business session is held. Officers are Walter Baker, president; Louis Johnston, vice president; Mrs. Arthur Schulz, secretary-treasurer. This year the officers and committee, who were elected six years ago, were again reelected. The afternoon was spent in reminiscence and visiting. Mrs. Schulz read letters received from Alice Schunk Gerdes, Honolulu; Esther Schnitzer Parker, Anaheim, Calif.; Christine Bahnsen Long, Lone, Calif.; Eva King Flood, George Jackson, Salem.

Mrs. Guy L. Johnston, Milledgeville, Ill.; Mrs. E. R. Palmer, Salem, and Mrs. Theodore Fisher, Sublimity, early teachers of the school were present. Also two former pupils of the school who later became teachers of the school were Alice Maiten Crabtree, McMinnville and Robert Evans Schulz of Bethel district.

The oldest one present was Mrs. Ida Koppelin of Portland and there were four generations of her family present. There were several groups of three generations each. It was brought out that Mr. and Mrs. George Bahnsen's granddaughter, Linda Chapman, is perhaps the only one of the third generation who has attended Bethel school. The ones who came the farthest were Mr. and Mrs. Guy L. Johnston from Milledgeville, Ill.

Those present included Mr. and Mrs. J. W. Schunk, Redmond; Mr. and Mrs. Carl Hartley, Aurora; Mr. and Mrs. Edgar Early, Mabton, Wash.; John Bennett, Yakima, Wash.; Mr. and Mrs. Guy L. Johnston, Milledgeville, Ill., and their granddaughter, Nancie Rucker and Mrs. Cora Stees, both of Polo, Ill.; Mr. and Mrs. Laurence Johnston, Kay and Beatrice, Adair Village.

Tumbler—Three-year-old Bruce Jacobson of Kansas City, shown in a hospital crib might be a tumbler when he grows up. He made a successful but accidental start when he toppled off a chair, fell through a third story window, bounced off an electric wire and hit the ground 35 feet below. He was only bruised slightly but his parents took him to a hospital for observation. (AP Wirephoto)

IN BED WHERE HE DIED

Grieving Widow Kept Body Of Husband for 4 Months

South Bend, Ind., Sept. 22 (AP)—A grieving widow kept the body of her husband in the bed where he died at their home for four months, police said today.

When officials burst in Tuesday at the home of Mrs. and Mrs. Henry Veith, they found Veith's decomposed body. His widow, Emma, 56, was sitting beside the corpse.

"Everything will be alright—the Lord will take care of everything," she said.

Veith, 61, died about four months ago. St. Joseph County Coroner T. C. Goraczewski estimated. The coroner said Veith apparently died of a cancer condition for which he underwent surgery last October.

Police discovered the body after the city health department received an unsigned post card which said:

"I would advise you to investigate the home of the H. Veith family. From all indications the man has been dead for several months without burial."

The Veiths have two children, Robert Veith and Mrs. Louise Nye. They said their mother had refused to allow them to see their father during visits to the house in recent months.

Mrs. Veith told them, they said, that their father did not want to see them. She refused to let them enter his room.

The home is located in a good residential district, and officers

Cottage Grove Pairs Divorce, Trade Mates

Carson City, Nev., Sept. 22 (AP)—Two women were granted divorces here yesterday after telling the court "my husband fell in love with another woman."

The first was Mrs. Ruby A. Godard, 28, who obtained a decree divorcing her from Leon C. Godard, 40, of Cottage Grove, Ore. The next woman was Mrs. Dorothy Jane Hayes, 38, who was divorcing Harold D. Hayes, 41, also of Cottage Grove.

Before they left here for Reno, Attorney W. C. McCluskey, who had represented both women at the court, asked who their husbands had fallen in love with. "Her," said Mrs. Godard, pointing to Mrs. Hayes, who was pointing at Mrs. Godard.

At Reno the women met their ex-husbands and were married to the other's former spouse.

The two men are partners in an electrical and plumbing business in Oregon. They had stayed at home and cared for the business while their wives lived together in Nevada long enough to establish their legal residences in this state and obtain divorces.

Accuses Mobster—Testifying before a grand jury in Los Angeles, former actor's agent Paul Behrmann (above) charged that Mobster Mickey Cohen headed a shakedown which staged sex orgies and then blackmailed the wealthy participants. Cohen, on trial for disturbing the peace by swearing at policemen, said the charges were "too silly to even talk about." (Acme Telephoto)

WHEN INFECTIOUS DISEASES LICKED

Doctor Looks Ahead To 120-Year Life Span

Cleveland (AP)—A Cleveland doctor has predicted that all infectious diseases will be eliminated "in the near future" and after that the normal life span of 64 years will rise to about 120 years.

Dr. Morris Schaeffer, director of the Contagious Diseases Division of the U.S. Public Health Service, said, "Elimination of infectious diseases is on the way through specific drugs such as penicillin, streptomycin, aureomycin and other anti-biotic drugs now being worked."

He added, "At the same time, new immunizing procedures, such as already practically have eliminated smallpox and diphtheria, will help in this process, first probably with yellow fever, and then possibly with polio."

"Both of these things tie in with lengthening the life span. There is no reason the life span cannot be raised to at least 120 years. Not in the too distant future, either."

Dr. Schaeffer said, "Infectious diseases may contribute to the speed of the aging process... once they are eliminated, man's life span will be longer."

"Also, when they are eliminated, medical research can turn its full attention to the causes of the aging process, which will speed up prevention of early death."

"New ideas as to the chemistry of the cell are developing. When we find the causes of such things as hardening of the arteries and heart disease, we will be on the way to lengthening life," he said.
