Mrs. Roscoe O'Bryne

DAR Dedicates Unit In Redwoods Park

Eureka, Calif., Sept. 26 (Special)—Unless this country conserves its natural resources it eventually will be among the "have not" Nations was the warning sounded by Mrs. Roscoe O'Bryne, president general of the Daughters of the American Revolution, in dedicating the DAR unit in the National Tribute Grove of redwoods north of this city.

Preservation of the redwoods in the grove is a lesson to be applied not only to our trees and other national resources "but to our very national life," Mrs. O'Bryne said, adding: "Let us be mindful therefore that there is a danger point. There is a limit to what we can cut down and there is a limit to what we can take from our own people and give to others. This is not a selfish attitude. Unless we remain strong we will be unable to help others."

Dedication of Unit No. 9 of the Tribute Grove took place on U. S. Highway 199 at a place where the DAR tract crosses the highway between Crescent City and the Oregon state line. The unit, consisting of 500 acres of giant Sequoias over 2,000 years old was purchased by the DAR at a cost of more than \$29,400. The grove under plans of the California "Save the Redwood League" will be set aside as a public shrine in tribute to the men and women of this nation who served in World War I.

Stressing the importance of guarding the wealth and the natural resources of the United States from dissipation, Mrs. O'Bryne declared: "We are strong because of our natural resources plus a pioneering spirit which developed these resources until American production of food and goods and machines is astounding. Production and conservation go hand in hand. Production without regard to conservation means ruination in the end."

A large number of DAR members from many parts of the country attended the dedication. Many of them journeyed from San Francisco to this city by automobiles and chartered buses. Others joined the dedication from Oregon and the northwest. Among the speakers was Mrs. Julius Y. Talmadge of Athens, Georgia, honorary president general, under whose administration the project was begun a few years ago. Among the others who spoke were Mrs.
