

# 'H' Landing Facility for McNary Field Planned

Planes coming into McNary field will soon have an "H" landing facility to aid them in bad weather landings. Here now relocating the middle marker site for the facility and locating a standby engine generator site, the outer marker and roads is Sherwood Henderson of the regional CAA office in Seattle.

# \$500 Million for Basin Project

Washington, Sept. 29 (AP)—A senate public works subcommittee approved today inclusion in an omnibus water projects bill of \$500,000,000 worth of projects in the Columbia river basin. It was understood this approval covered 13 reclamation and 25 army engineer projects. The list is expected to be made public after the full committee acts, perhaps tomorrow. The subcommittee approved the entire billion dollar coordinated program of the army engineers and reclamation bureau. It selected a portion to cost \$500,000,000 for authorization and construction during the next three years.

Of the total, \$300,000,000 would go to the army engineers and \$200,000,000 to the reclamation bureau. A study of proposed flood control-irrigation projects for the Columbia river basin delayed final action by the senate public works committee today on the omnibus waterways authorization bill. Sen. Chavez (D., N.M.), chairman of the committee, told reporters action on the house-passed bill may be expected tomorrow. As passed by the house, the bill would authorize future appropriations of federal funds for \$1,114,000,000 worth of new flood control and navigation work throughout the United States.

# Woodworkers Enter Politics

Vancouver, B.C., Sept. 29 (CP)—International Woodworkers of America (CIO-CCL) today swung its entire 100,000 members behind the CIO's intensive campaign to raise dollars for political action committees. Canadian and U.S. delegates to the IWA's 13th annual convention were unanimous in approving formation of active and functioning political committees in each local union.

Delegates reiterated that results of recent elections have "re-emphasized" the necessity for political education and action and they pledged at least \$1 a member to the PAC cause. In Canada, the IWA membership of 40,000 will follow the Canadian Congress of Labor policy to politically support the CCL "unless its policy is shown to be wrong." "The anti-labor tide must be turned," the resolution stated. "By political action committees we will sweep out of office those who have voted for repressive anti-labor measures and replace them with men dedicated to serving the best interests of labor."

# Reception Offered Aumsville Teachers

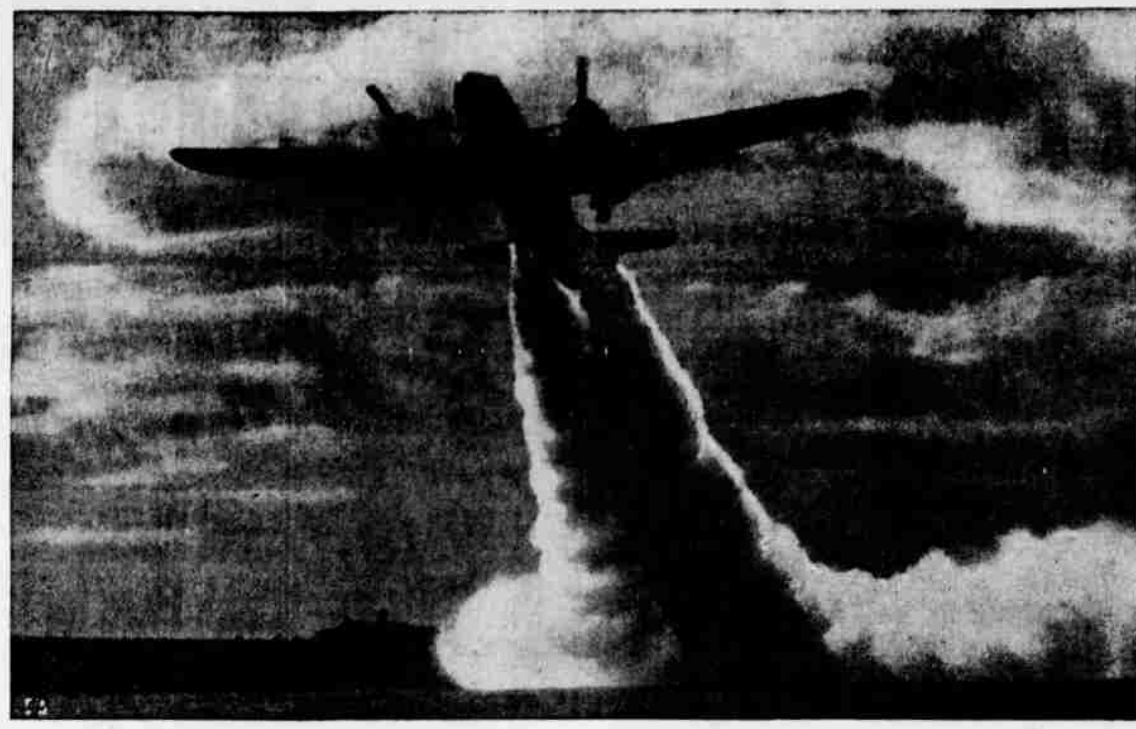

Aumsville — The Aumsville PTA held its first meeting of the year in the school gym, with teachers honored by a reception the same evening. Mrs. Charles Wright, president, presided over a short business meeting.

HISTORY IS WRITTEN—This picture of Lincoln and his generals, long credited to Mathew Brady, is now credited to Alexander Gardner.

Rocketing Into the Air—A U. S. Navy P-2-V Neptune bomber takes off from the Worcester, Mass., Municipal airport with its Jato units roaring during a demonstration by the navy before 60,000 visitors to an air show.

# Apple and Pear Prices Upped

Washington, Sept. 29 (AP)—The government announced today it will take action to bolster sagging producer prices of apples and winter pears. The agriculture department will buy apples for the national school lunch program. It also will set up an export subsidy program designed to encourage foreign buying of apples and winter pears. Officials said it is not possible yet to say how much of these two fruits will be diverted from domestic market channels. But a top limit of \$10,000,000 was set for school lunch purchases and export subsidies. Today's action was taken after apple growers and congressmen from major apple growing states had appealed for government price support aid. This year's apple crop is a large one, estimated at 129,500,000 bushels compared with 88,000,000 last year and a 10-year average of 111,000,000. The winter pear crop produced principally on west coast is expected to be about 25 percent larger than last year and the average. Prices and other details of the purchase and export programs will be announced later.

# Two Jefferson Boys Injured

Albany—Three youths were hospitalized for severe injuries that they received in two accidents at or near Albany. Most spectacular of the accidents occurred at the intersection of Waverly drive and highway 99, at the eastern city limits, where a car crashed into a loaded logging truck. In this mishap, John Love, 17, and Arthur Ramseyer, Jr., both of Jefferson, suffered serious injuries, their car was demolished and the truck was damaged so badly that it could not be moved for nearly an hour after the crash. According to the information procured by state police, the logging truck, driven by Amos Loy James of Sweet Home, traveling eastward on the highway, was turning to the left of the driver when the southbound car, driven by Love collided with it as it crossed the roadway. The car's occupants were taken in a city ambulance to the Willamette hospital where it was reported that though the full extent of their injuries had not yet been determined, they are not believed to be critical. Love, it was found, had suffered a brain concussion, multiple lacerations of the forehead and face, two fractured ribs. Ramseyer is believed to have suffered a broken collar bone. The flesh of his right arm was badly mangled and he also suffered deep lacerations. In the other mishap Bobby Sapp, Jr., 11, living near Albany, suffered concussion and a minor skull fracture when he fell from a moving pick-up truck driven by his father on a county road north of Knox Butte.

# Reception Arranged For Gates Teachers

Gates — A reception for the teachers of the local schools was sponsored by members of the Gates Woman's club with a large group of parents and friends in attendance. Following an address of welcome by Mrs. Elmer Stewart, president of the club, the teachers were introduced by the principal, Theodore Burton, and each responded with a short talk. The evening was spent informally and refreshments were served by the committee in charge.

# Youth Center Aim For Monmouth Club

Monmouth — The Monmouth Community club held its opening meeting at the home of Mr. and Mrs. Jean Grice. An outline was laid for the year's program with an effort being made to make the youth center more attractive both in appearance and in activities offered. The budget for the current year was drawn up to be presented to the community chest committee and plans were discussed for a community pot-luck dinner to be held early in October to stimulate interest in youth center activities. An announcement of the date will be made at a later date. Those attending the meeting were Mrs. Henry Gunn, Mrs. Clarence Tomkins, Mrs. Earl Conkey, Mr. and Mrs. Fred Hill, M. R. Thompson, O. C. Groves, Dr. and Mrs. D. H. Searing, Mrs. Hugh Van Loan and Mr. and Mrs. Jean Grice. The next meeting will be held at 7:30 o'clock October 4, at the youth center building.

# UN Overrules Russia For Airing Chinese Charges

Lake Success, Sept. 29 (AP)—The United Nations assembly today overruled Soviet objections and decided to give a full airing to nationalist China's charges that Russia is threatening peace by aiding Mao Tze-Tung's Chinese communists. The vote was 45 to 6 for placing the Chinese complaint on the assembly's calendar. Five countries abstained. The issue now goes to the assembly's 59-nation political committee for detailed debate.

# Polio Group Plans Program

A committee recently selected on a skeleton basis to function in case of an emergency in the polio field is ready to take over whenever the health authorities deem it advisable, Dr. W. J. Stone, county health officer, stated Thursday morning. Dr. Stone and a number of prominent physicians discussed the situation during a conference Wednesday evening and the majority felt that there was little need for closing schools or in other ways trying to ban public gatherings. Some 17 cases and one death have been recorded by the local health officer during the year. And while this is a considerable increase over a year ago, the percentage is not out of line of the national average. "We should remain alert and pray for colder weather which will undoubtedly check the disease," said Dr. Stone. "It is important to know the virus is here and many have been exposed, but judging by the history of the disease not many will have paralysis." He explained that from 70 to 80 percent of the population harbor the virus but that a small percentage will have trouble. By way of explaining the unpredictable manner in which the disease strikes, Dr. Stone pointed out that there was absolutely no connection between the case of 11 year old John Reinwald of the Keizer district, who succumbed to polio and a recent case on Pearl street. Nationalist China's chief delegate, T. F. Tsiang, opened the session with new charges that Russia had openly violated her 1945 friendship pact with China by helping the Chinese communists instead of aiding the nationalist government as she had promised to do. Tsiang demanded a full UN airing of Russia's part in the civil war. Vladimir Clementis, foreign minister of Czechoslovakia, led off the Soviet bloc opposition. Soviet Foreign Minister Andrei Y. Vishinsky then took the floor. He called China's complaint a farce and denied Russia had violated the Chinese-Russian treaty. Vishinsky said: "In answer to the charges about violating the treaty, which are general, I can only say that it is a lie, a provocation, a slander."

# Palmer Commander Albany Legion Post

Albany—Installation of officers was the major feature of the meeting this week of the Albany American Legion post, which was addressed by Hollis Hull, past commander of the Albany post and present district No. 3 commander. Installed were Tom Palmer, commander; Carl Stanely, first vice commander; Millard Willis, second vice commander; Walter Stuart, Jr., junior past commander and adjutant; James Howard, finance officer; Rev. Morton L. Booth, chaplain, and Lon Jones, sergeant-at-arms; Charles McCormack, service officer.

# Return to College

Grand Island — Donald Wiley of this district and John Noble of Unionvale left for Oregon State college at Corvallis. William Stockhoff of Dayton Prairie and Marvin Lorenzen of the Neck district are in the same school.

# Truck Driver Killed

Tillamook, Sept. 29 (AP) — A log truck driver was killed yesterday when his loaded truck went out of control on a logging road a mile from the Wilson river highway. He was Robert F. Shaw, 30, Forest Grove.

# Grange Raps Tompkins Purge

Medford, Ore., Sept. 29 (AP)—A resolution protesting the proposed "purge" action against 22 state legislators by the state Grange was passed at a meeting of the Jacksonville Grange this week, it was learned today. The "purge" of legislators who voted in favor of a change in the state's initiative and referendum laws was proposed at a state meeting recently by Morton Tompkins, state grangemaster. The Jacksonville Grange's resolution said: "Such action is contrary to the principles of the Grange and promotes pressure politics . . . a legislator should be judged by his entire voting record and not by his vote on any one bill . . . be it resolved that we . . . protest the action by the state master . . ."

At the same time the subordinate Grange nominated Victor Boehl, Grants Pass, master of the Josephine county Pomona Grange, for the position now held by Tompkins. Action by the local Grange follows similar protests by Klamath and Josephine county Granges. The resolution will be submitted to the county Pomona Grange in October, and copies have been forwarded to the state Grange.

# New Fire Truck Bonds Bought

Dallas—Dallas City bank was awarded the sale of fire apparatus bonds totaling \$18,000 for the purchase of a new fire pump truck and auxiliary equipment at a meeting of the city council. A new Mack pump truck with a 750-gallon per minute capacity has arrived in Portland from the manufacturing plant in New York and will be delivered here after tests have been made by the fire rating bureau, according to Chief Walter L. Young of the Dallas fire department. The Dallas City bank bid on the bonds was the lowest of four submitted. It was \$100.6 per \$100 par value with interest at 2 percent. Other bids were submitted by Blyth and Company, Charles N. Tripp Co., and the First National bank of Portland. The pumper was authorized by voters last year and the choice of the make was decided upon by the council after a month-long controversy between the fire department and the council.

# Plumes Report On Atomic Bombs

Washington, Sept. 29 (AP)—Chairman Brian McMahon of the congressional atomic energy committee today promised the people a report next week on what this country is doing to keep the lead in its atomic arms race with Russia. The Connecticut democrat said the United States must spend "more bucks" on its A-bomb program. And he said his committee is agreed that "every effort" must be made to boost production and protect America's atomic edge. The house senate committee met again with the atomic energy commission to review the U.S. program and determine what new steps may be necessary. This country already is speeding conversion of its atomic explosives stockpile into the latest bomb models. McMahon, after today's closed session, promised a report after the committee meets with military chiefs of staff, perhaps on Monday.

# British Teacher Replies to Critics 6 New Mass Rape Charges

Those folk who doubt the accuracy of the phrase "there will always be an England," would have done well to have heard Miss Alice Pendlebury of Manchester, England as she addressed the Salem Lions club Thursday noon. While not exactly defiant, the young woman who is filling an exchange teaching position at Oregon College of Education spoke straight from the shoulder as she asserted that England was no worse off than other European countries. More attention has been paid to her native land because England has always been strong. The evaluation of the pound has emphasized the prominent part her country plays in world affairs, Miss Pendlebury stated.

The speaker also refuted the theory that the English do not have a sense of humor. "I have been delighted, shocked and horrified since coming to America," she said, adding, "and I have liked every minute of it." Britons have a feeling that they are not liked by Americans, the speaker said after admitting that perhaps she wasn't being tactful in bringing the subject up. "It is felt that the United States would like to take the role of dictator without assuming any responsibility."

"We do not want your pity but we do need your help and understanding. I like you immensely and think your country is wonderful," the English school teacher said. Miss Pendlebury resented the report that men of England were not working hard. She then pointed out that production in that country was 30 percent more than in 1938. "Could you work hard if you were rationed to 2 ounces of bacon, two ounces of cheese, 2 pints of milk, 6 ounces of butter, one ounce of shortening and meat equal to the size of two porkchops a week?" she asked.

# CIO Spotting System For Pineapple Ships

Astoria, Sept. 29 —CIO longshoremen set up a scouting system today to spot any other barges which might bring "hot" Hawaiian pineapple for unloading in Oregon. Ralph Knutinen, union dispatcher, said the longshore local here has established a 24-hour patrol of the Columbia river entrance and other ports. Six men will be stationed at Garibaldi to watch the Tillamook bay region where a pineapple-laden barge was unloaded Tuesday. That barge crept in without the longshoremen noticing it. A barge now at The Dalles entered the river Friday night.

# Fires Smoulder Slowly

Portland, Sept. 29 (AP)—Oregon's forest fires were dampened down to a slow smoulder today and crews began mopping up operations. District patrol and federal foresters said trailing work had been virtually completed.

# Pledges Report On Atomic Bombs

Washington, Sept. 29 (AP)—Chairman Brian McMahon of the congressional atomic energy committee today promised the people a report next week on what this country is doing to keep the lead in its atomic arms race with Russia. The Connecticut democrat said the United States must spend "more bucks" on its A-bomb program. And he said his committee is agreed that "every effort" must be made to boost production and protect America's atomic edge. The house senate committee met again with the atomic energy commission to review the U.S. program and determine what new steps may be necessary. This country already is speeding conversion of its atomic explosives stockpile into the latest bomb models. McMahon, after today's closed session, promised a report after the committee meets with military chiefs of staff, perhaps on Monday.
