Hollywood—A smart woman can be charming and attractive at 90, says Marjorie Main, who believes you're only as old as you think.

China vs. Russia On UN Agenda

Lake Success, N.Y., Sept. 29 (AP)—The United Nations steering committee voted today, 11 to 2, with Russia and Poland opposing, to include China's complaint against the Soviet Union on the agenda of the general assembly.

Russia today accused the United States, "whose monopoly of the atomic bomb unfortunately has lapsed," of helping the "corrupt and rotten Kuomintang government" of China against the will of the Chinese people.

Soviet Foreign Minister Andrei Y. Vishinsky made his first reference to Russian possession of the atomic bomb as he fought in the general committee of the United Nations against permitting the general assembly to consider Chinese charges against the Soviet Union.

Dr. Tingfu T. Tsiang, permanent Chinese delegate, told the committee that Russia had flagrantly violated its treaty of friendship and alliance with China throughout the four years it has been in effect. He charged that Moscow failed to honor its agreement to recognize Chinese sovereignty over Manchuria, not to interfere in Chinese affairs and to help Chiang Kai-Shek's government in postwar reconstruction.

Byrd Wins Fight For One Money Bill

Washington, Sept. 29 (AP)—After many defeats, Senator Byrd (D-Va.) has won the senate to the idea of lumping its appropriation bills into one big measure.

For four years, Byrd has been arguing that this would help appropriate money more efficiently and would guard against the government spending more than it took in.

The senate approved his plan late yesterday. In the house, Chairman Cannon (D-Mo) of the appropriations committee has said his committee will put the idea into effect next year.

Iron Curtain Trio Ask Cut Legations

Prague, Czechoslovakia, Sept. 29 (AP)—Three Soviet satellite nations of eastern Europe—Hungary, Romania and Bulgaria—are putting pressure on the United States, Britain and other western countries to reduce their legation staffs, an informed diplomatic source here said today.

He said this pressure was expected to increase following the Laszlo Rajk treason trial in Budapest, in which the Hungarian government accused diplomats of the western powers of complicity in a revolutionary plot and espionage.

The diplomat also said the Balkan nations were imposing successive restrictions on the movements of western diplomatic missions stationed there.

Scout Board to Meet on Monday

The first fall meeting of the executive board of Cascade Council, Boy Scouts of America, has been called for next Monday night at the Senator hotel with Gardner Knapp presiding.

The program will include a discussion of the new age limits in the various scouting units with the prospect that at least 30 new cub packs and scout troops will be formed in the

council. Five new groups are already in the process of formation in Salem and immediate vicinity.

The discussion will also include rebuilding of Camp Pioneer which was destroyed by last winter's heavy snowfall.

Johnny Klapp, newest member of the executive group of four who will operate in the field, will be back from the national training school at Mendham, N. J.

Miners Oppose CVA Principle

Spokane, Wash., Sept. 29 (AP)—The American mining congress today went on record against basic principles calling their basic principles "destructive of our American theory of constitutional government."

Close to 2,000 delegates to the annual convention adopted the strongly worded resolution condemning valley resolutions.

"Recently there has been renewed activity looking toward the enactment by congress of legislation providing for valley authorities and clothing their administration with arbitrary powers over natural resources," the resolution read.

"We approve the recommendations of the Hoover commission and its natural resources and public works task forces that

there should be no extension of the valley authority type of organization."

The leading American and Canadian mining executives approved a public land policy plank that for the most part contended specific proposals now being urged by the United States Bureau of land management.

The proposals opposed by the

miners included: "The suggestion... that discrimination should be made against the mineral locator as compared with other appropriators of public lands; the suggestion that surface rights and mineral rights should be separated."
