

### All Students Get Eye Test

Pacific University, Forest Grove, Ore., Oct. 1—For the first time, in any university, all students were required to have a registration vision test at Pacific this fall.

Dr. Richard Feinberg, dean of the college of optometry, said a statistical study will be made using the results of these tests and grade point averages of the students. In this manner, a correlation will be established between visual performance and scholastic achievement. Students who need further professional attention will be referred to their own doctors or to the optometry clinic, Pacific university.

This unique testing program consisted of a battery of visual skills tests including visual acuity for both distance and near visual posture or "muscle balance," color perception, depth perception and the span of recognition or speed with which the student could see, stated Dr. Feinberg.

### Able Bodied Single Men Get No Aid

Portland, Oct. 1 (AP)—The Multnomah county welfare commission's denial of aid to unmarried, able-bodied men has been upheld by the state public welfare commission.

J. H. Luhn, state chairman, said there is still seasonal employment available and "we must take care of the families and children first."

The county commission had been withholding aid to unmarried men able to work on the grounds that they could find jobs.

At the same time the state commission ordered Multnomah county to pay the bus fare of welfare clients requiring treatment at a health clinic.

State commission payments to 23,105 old age pensioners in August totaled \$1,118,352. Average payments was \$48.40 plus medical expenses.

### Nationalists Fire Mme. Sun Yat-Sen

Canton, Oct. 1 (AP)—Madame Sun Yat-Sen was "dismissed" by the nationalist government today from her old nominal post as a political adviser.

The widow of Dr. Sun Yat-Sen, founder of the Chinese republic, probably will get a new job—but with the communists. She is now in Peiping, the Red capital.

In another official gesture, the government dismissed Shao Li-Tse, former ambassador to Moscow and a leading advocate of peace with the Reds, and fellow "peace delegates" to Peiping. "They were willing to be utilized by the communists," a spokesman said.

February was 1948's safest month with 7,500 accidental deaths in the United States, August the most dangerous with 9,200.

### Bells around the World

The Indians could send a rallying call many, many miles by drums. Each drummer, stationed on a lonely ridge, would listen for the sound of distant drums, and relay the message to others waiting across the valley. Overnight a dozen tribes could be rallied to a common cause.

We don't need such crude methods of communication today. Men with a common purpose can join forces around the world at a pre-arranged time.

World Wide Communion Sunday is such an expression of unity. In every Christian land the church bells will summon men and women to the Lord's Supper on this Sunday.

And the universality of this great religious event will not depend on bells relaying the message from town to town. It will depend on folks like yourself coming to their Church to receive this Holy Sacrament.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
