Yankees Defeat Bums in First Of World Series

Henrich's Home Run In Last of Ninth Wins 1 to 0 Game

Yankee Stadium, New York, Oct. 5 (AP)—Tommy Henrich's dramatic home run clout into the lower right field seats leading off the last of the ninth gave the New York Yankees a 1-0 opening world series victory over Brooklyn today, ending a sizzling mound battle between Allie Reynolds and Don Newcombe.

The count was two balls and no strikes on "Old Reliable" when he poled a Newcombe fast ball into the stands, about 10 rows back.

The crowd of 66,224 which sat politely quiet through most of the stirring afternoon, let loose a mighty roar at the game-winning blow.

Pitchers Battle

Up to that time, it was a sparkling pitcher's battle that threatened to set a new series strikeout record. Going to the last of the ninth, Newcombe, the Dodgers' huge Negro rookie, had 11 strikeouts and Reynolds, the Yankee righthander, had nine.

The record was 22 and the individual mark was only 13, held by Howard Ehmke since his surprise opening start for the Philadelphia A's against Chicago in 1929.

Few series games in recent times were better played than this thriller in which Reynolds, who had pitched only four complete games in 31 starts this season, blanked the National league champs on two hits.

Allowed Only 5 Hits

Newcombe allowed only five hits but he made the mistake of giving up the big one to Henrich.

Just as in last year's opening game when Johnny Sain beat Bobby Feller in the 1-0 opener of the Boston Braves-Cleveland Indians series this was another tight-to-the-vest battle.

Age Insurance To Be Extended

Washington, Oct. 5 (AP)—Speaker Rayburn predicted today the house will pass overwhelmingly, possibly within a few days, legislation putting 11,000,000 more workers under old age insurance. The newcomers would include the banker, the baker, grocers, household servants and public employees.

Democratic leaders called the house to meet at 10 a.m., two hours earlier than usual, to ram the measure through. The senate is not expected to act until January at the earliest.

The bill, which would expand coverage, would boost old age and survivors benefits by 70 to 80 percent, create new disability insurance, and increase payroll taxes to finance the broadened program.

In might mean the institution of a stamp book plan for 750,000 servants and their housewife employers, to pay the security taxes.

President Truman asked congress to put 20,000,000 more persons under old age insurance. But the bill does not include millions of farm operators and farm hands. Some of its sponsors said farmers did not appear especially anxious to get in.

The legislation won its first major test yesterday. The house, over republican shouts of "gag rule," voted 189 to 135 to bar any amendments. Then, although procedures allow four days of debate, a bi-partisan drive developed—with congress adjournment in the air—for a final vote on the bill late today.

Conferees Agree On Waterways Appropriations

Detroit Allotted \$9.5 Million—McNary Dam \$35 Million

Washington, Oct. 5 (AP)—House and senate conferees finally have agreed on a multi-million dollar waterways appropriation bill for the fiscal year that began last July 1.

The bill, carrying a total appropriation of \$664,178,190 for civil functions of the army, includes \$634,920,090 for flood control and rivers and harbors projects in many of the 48 states.

One of the big items is \$67,000,000 for flood control on the lower Mississippi river and its tributaries; others are \$35,000,000 for the McNary lock and dam on the Columbia river in Oregon and Washington; \$27,500,000 for garrison dam in North Dakota and \$23,000,000 for Fort Randall in South Dakota.

Detroit Gets \$9.5 Million

Other large Pacific northwest expenditures include: Oregon: Lookout Point reservoir, \$9,500,000; Detroit reservoir, \$9,500,000; and the Dorena reservoir, \$2,500,000.

Washington: Chief Joseph dam, Columbia, \$5,000,000. Congress usually completes work on such bills late in June or early in July. One-fourth of the first year covered by the measure already is gone.

This year conferees wrangled for four months before compromising differences in the bill as it passed the house and the senate.

Senate at Sea On Farm Bill

Washington, Oct. 5 (AP)—The senate agriculture committee straggled again today with the knotty problem of what to do about farm prices after the senate had failed to find the answer in a day of topsy-turvy voting.

The question was tossed back to the committee last night with instructions to return with an answer within 48 hours.

Just what the committee might propose was in doubt, but Democratic Leader Lucas of Illinois said that whatever it was the senate would go to work on it immediately.

"We're going to get a farm bill passed at this session of congress regardless of how long we have to stay here," he said.

A series of votes yesterday showed only that the senate is sharply divided over how far the government should go in holding up prices of major crops.

First the lawmakers approved a flexible price support program by a one-vote margin, then they changed their minds on a tie, with the deciding vote cast by Vice President Barkley.

Barkley backed senators battling for high-level price props for corn, cotton, wheat and other basic crops. In doing so he opposed Lucas and Senator Anderson (D., N. M.).

21 of 1200 Schools Not Eligible for Basic Funds

By JAMES D. OLSON Only 21 Oregon schools out of 1200 have not been standardized and thus are not eligible for basic school funds, according to Rex Putnam, superintendent of public instruction Wednesday.

Of the 21 schools 20 are preparing plans, which if approved by the department, will be declared standard, Putnam said.

Since the basic school law became effective July 1, 1947, a total of 550 schools have been inspected by department supervisors. Putnam expects that by the end of the school term next June all schools in the state will have been inspected. In the meantime, those not visited are considered standard and are receiving state aid funds.

"There has been a tremendous improvement in Oregon schools during the past two years," Putnam said. "We started with only two elementary supervisors and two part-time high school supervisors."

Putnam said that when the law first became effective it was almost impossible to obtain services of competent persons to serve as supervisors. However, the staff inspecting schools has increased to five supervisors for elementary schools and three for high schools.

Under terms of the basic school law schools must reach certain standards as to the physical plant, teacher supplies,

\$8 Million Loss Hurricane Toll

Houston, Tex., Oct. 5 (AP)—The Texas hurricane took a toll of two lives and wrecked \$8,000,000 worth of property and crops, officials said today.

The dead were Mrs. Alpha Hebert of Port Neches, Tex., who grabbed a dangling "live" wire in trying to break a fall and Jimmie Simpson, 21, Palacios, Tex., who apparently drowned while trying to swim from a stalled cabin cruiser in Matagorda bay.

The 112-mile-an-hour blow wrecked power transmission lines and communications wires reported in the 75,000 acres of low-lying ricefields from the heavy rains accompanying the storm when it roared off the gulf of Mexico early yesterday.

Texas raise system farms, which raise cotton, corn and Hegari, suffered loss.

Guerrillas Go To Bulgaria

Athens, Oct. 5 (AP)—Reliable sources reported today that the Greek guerrilla headquarters has been moved from Albania to Bulgaria and that 8000 guerrillas are being transferred between the two countries.

Veteran observers said the transfer shows three possibilities.

1. The guerrillas might be used from a Bulgarian base as a spearhead in the Cominform's campaign against Premier-Marshall Tito of Yugoslavia.

2. Guerrilla attacks against Greece from the Bulgarian border might be renewed.

3. It could mean isolated Albania has been written off as a base of guerrilla operations against Greece or Yugoslavia.

An independent source said some of the guerrillas in Albania are going first to Czechoslovakia for training before taking up their new base in Bulgaria.

To Pay Vet Insurance Dividends Before Xmas

Washington, Oct. 5 (AP)—The veterans administration may start paying the \$2,800,000 GI insurance dividend before Christmas—at the rate of a million checks a week.

As soon as the bulk of those payments is out of the way the agency will get to work on a second special dividend, the size of which has not yet been determined.

New Proposals For Columbia

Washington, Oct. 5 (AP)—Sen. Harry Cain (R., Wash.), today submitted two new proposals to the senate public works committee for authorization of the Columbia river comprehensive development program.

For more than a week, the committee has been considering a proposal from Cain and Sen. Warren Magnuson (D., Wash.) for authorization of the program with \$500,000,000 to be spent during the next three years.

Cain's new and alternative proposals were:

1. That the committee authorize the program and authorize a three-year expenditure of \$425,000,000 which would include the \$108,000,000 already voted by the house for Columbia river projects. The house bill would not authorize the comprehensive program.

2. That the committee authorize the program, but merely agree with the \$108,000,000 house figure for projects heretofore considered outside the comprehensive program.

Cain indicated that there was some reluctance in the committee to authorize a three-year expenditure for the program as large as \$500,000,000. The Columbia river controversy has delayed action on its omnibus public workers authorization bill.

The committee will meet again tomorrow to discuss the new Cain proposals.

Play Politics for Balkan Peace

(By the Associated Press) Big power politics are being played in the United Nations, frankly and openly, to get peace in the Balkans.

A special peace making group headed by Assembly President Carlos P. Romulo has held its first meetings—in secret and separately—with representatives of the big three—Russia, the United States and Britain.

The group, which includes Secretary-General Trygve Lie, Lester Pearson of Canada and Selim Sarper of Turkey, has until October 17 to make good in its mission to end the bitter feuds between Greece and her Balkan neighbors.

Around here they are saying "if Romulo can get the United States and Russia to agree, he'll win his Balkan peace. The others will fall into line."

It was probable that the Big Three might discuss the problem together after Romulo has talked with the Albanians, Yugoslavs and Bulgarians Friday.

Romulo talked separately yesterday with Ben Cohen, the old Roosevelt brain-truster who is a wheelhorse in the state department; with Hector McNeill, veteran British negotiator; and Alexander S. Panayushkin, the Soviet ambassador to the United States.

Government Moves to Settle Strikes in Coal and Steel

Ask Navy to Fire Worth for Attacking B-36

Washington, Oct. 5 (AP)—The house armed services committee today recommended that the navy fire Cedric R. Worth, author of the now notorious memorandum which touched off a congressional inquiry into the air forces' B-36 bomber program.

The committee approved a report saying Worth should be permanently discharged from navy employment. A civilian aide to Undersecretary of the Navy Dan Kimball, Worth has been suspended since his authorship of the B-36 memorandum came to light.

The committee announced it will open tomorrow an inquiry into reports that navy morale has sunk to a low point as a result of the way the law unifying the armed services has been administered.

3 Admirals Called

Chairman Vinson (D., Ga.), said the first witnesses will include three admirals whose names were signed to papers that a navy source gave secretly to reporters on Monday.

They are Adm. Louis Denfeld, chief of naval operations; Adm. Arthur W. Radford, Pacific fleet commander, and Vice Admiral Gerald F. Bogan, commander of the first Pacific task fleet.

The papers were a letter from Bogan to Secretary of the Navy Matthews with forwarding endorsements from Radford and Denfeld.

Calling the papers "confidential," the navy has ordered an investigation of how they became public.

\$29,478 Given To Chest Fund

Funds subscribed to Salem's Community Chest up to the time of the Wednesday noon report luncheon exceeded \$5,830.90, the amount raised by that time in last year's drive.

At the no-host luncheon at which reports were made by the division leaders the drive chairman, Joe A. Dodd announced that \$29,478.90 had been subscribed of the \$105,000 quota. When the first report was made last year the amount subscribed was \$23,645.

During the first 30 days of this year's drive \$26,538.50 was contributed. The additional \$2,940.40 of the total announced Wednesday was added before noon Wednesday.

Marking the progress of the drive daily this year is a thermometer erected on the court house grounds. Red feathers will each day mark the progress made.

The division bringing in the largest total contributions during the first day was the mercantile division with a total of \$7,450.50 reported. Two divisions, educational and West Salem, made no reports at the meeting.

Other divisions and the amounts reported were automotive and transportation, \$4,182.50; contractors and builders, \$2,012; general gifts, \$4,363; governmental, \$576.90; industrial, \$5,491.65; professional, \$4,628; utilities, \$860; rural, \$245; and women's division, North Salem, \$184.75; Central Salem, \$387.25, and South Salem, \$173.50.

Queuille Quits Premier's Job

Paris, Oct. 5 (AP)—Premier Henri Queuille offered his resignation today to President Vincent Auriol.

Queuille's coalition government, in office more than a year and longer than any previous post-war French cabinet, ran into a crisis with the insistence of the socialist party that labor's demands for wage increases be satisfied.

Queuille heads the radical socialist (conservative) party.

The tender of the premier's resignation followed a meeting of the cabinet ministers which had been deadlocked on the wages and prices issue. Robert Bruyelle, undersecretary of state, reported earlier that Queuille was to see Auriol this afternoon, presumably to offer his resignation.

Queuille, leader of the radical socialist (middle road) party, has served as premier since Sept. 10, 1948—a longer term than any postwar French premier.

Titoism Scares German Reds

Berlin, Oct. 5 (AP)—Fear of anti-Soviet Titoism was admitted today by German communists hurriedly forming a Russian satellite republic in eastern Germany.

The republic is due to be proclaimed in Berlin Friday at a special session of the communist-ruled German people's council.

Installation of the first government may take place as early as next week. Eastern non-communist parties were reportedly promised less than a third house of the ministries as a price for waiving demands for a popular election.

Communist appointees as ministers of interior, economics, and propaganda were believed to be already approved by the Soviet occupation command.

In a vital public declaration of policy today, communist chiefs said they would use the eastern republic to fight the "Quislings" of the West German Federal Republic, sponsored by the United States, Britain and France.

They warned the communist rank and file at the same time to beware of a "traitorous Tito clique" within their own party which would try to stir up hatred against the Soviet Union and foster "chauvinism."

Mediator Asks Lewis, Operators To Friday Meet

Pittsburgh, Oct. 5 (AP)—The government today called warring coal union and company officials to Washington in the opening move of an all-out effort to settle the economy-shattering strikes in the coal and steel industries.

Federal Mediation Chief Cyrus S. Ching asked UMW President John L. Lewis and the spokesmen for the three big operators' associations to meet with him Friday. He said a "formal move in steel" probably will follow next week.

Ching said the situation arising out of the unprecedented combination of simultaneous strikes in two of the nation's most vital industries "is approaching a crisis."

"The longer it goes, the worse it will be," he said.

Ching said he was not giving priority to the 17-day strike of 380,000 soft coal miners, but that he believed the coal shutdown would produce a national emergency "more rapidly" than steel.

"It is quite obvious," he said, "that you can't operate steel mills without coal."

In addition to Lewis, Ching's invitations went to Harry Moses, president of U.S. Steel corporation mining subsidiaries; George Love, president of Pittsburgh Consolidated Coal company, and spokesman for the northern operators, and Joseph L. Moody, resident of the Southern Coal Producers' association.

(Concluded on Page 5, Column 7)

Violence Flares In Coal Strike

Pittsburgh, Oct. 5 (AP)—The coal strike fanned the flames of a minor war between union and non-union miners today and the steel shutdown idled more workers in allied industries.

Northern and western coal operators sat down in White Sulphur Springs, W. Va., for negotiations which the more optimistic thought might help end the work stoppage of 38,000 diggers.

Nearly a score of men were arrested in Virginia and Pennsylvania. This resulted from battling between pickets and organized miners still working in defiance of John L. Lewis and his striking United Mine Workers.

Several truck loads of coal were dumped.

In the steel strike, idling more than 500,000 members of the CIO United Steelworkers, there is nothing in sight to end the pension war.

The government is considering clamping down on steel exports. Many companies announced precautionary steps to conserve steel.

The issues are about the same. The workers want a better pension and welfare program.

Roots Torn-off By Heavy Rain

Portland, Oct. 5 (AP)—A gust of wind tore parts of roofs off two factories in north Portland today.

The blow, which struck following Portland's heaviest rain since May, tore a 50 by 75 foot section of composition roofing off the Montag Stove and Furnace factory. A smaller piece of roof was ripped from an adjoining shed.

Roof fragments blew through the air and smashed into two trucks 100 feet away. One windshield was broken and the hood of the other truck was torn off.

The gust blew out panels and part of a roof at the Nicolai Door Manufacturing plant in the same area.

The storm dumped 1.22 inches of rain on Portland during the last 24 hours. Only one Oregon town was wetter: Brookings, which got 1.92 inches. Lighter showers were forecast for today.

Three Admirals Involved in Defense Unification Squabble—Adm. Louis Denfeld, left, Vice Adm. Gerald F. Bogan, center, Adm. A. W. Radford, right. (Acme Telephoto)
