### Dallas Methodist Church Planning Golden Jubilee

Dallas, Oct. 5—Centennial plans are underway for the Dallas Methodist church which will celebrate its 100th anniversary during the week of October 30 through November 7, according to Rev. Clark S. Enz, pastor.

Meetings were held in a local circuit as early as 1847. A church was not built until 1858. Prior to 1890 the old church was moved and a new church was built in that year. It still stands on the Church and Mill street location, although it was demolished in 1926.

Speakers to appear during the week-long observance will include Bishop Gerald Kennedy, District Superintendent Roy Fedje, Ex-Governor Charles Sprague, and a number of former pastors of the church. Mrs. Betty Starr Anderson will be guest soloist.

The church historical committee has issued a call for all old photographs of the early church, former ministers and early church members. Other items of historical interest, such as old hymnals, bulletins of the weekly services, and other items might be used in a display to be held in connection with the services.

A booklet committee plans to publish a 24-page centennial booklet, and some of the photographs will be used in it. Former members or friends of the church are asked to submit any such material to Rev. Enz, Dallas.

### 1949 Tourist Business Brings State 110 Million

Oregon's 1949 tourist business brought estimated revenues of 110 million dollars into the beaver state, the Oregon state highway commission travel information department reported this week.

This figure shows a substantial increase, or 19 percent, over the 1948 total of 92 million dollars and surpasses the 1947 estimate of 105 million dollars, the previous record. The last pre-war travel year of 1941 is credited with a total of 51 million dollars. The 1949 figures are based on a state highway department traffic check of out-of-state automobiles at 15 major points of entry.

The survey reveals the average 1949 expenditure per day per person was \$5.75 as compared to \$5.35 during the 1948 travel year. Each out-of-state car represented an expenditure of \$113.39, based on an average load of 2.9 persons per car and an average stay of 6.8 days in Oregon, or equaling \$39.10 per person. These figures represent motorists who stayed in campgrounds as well as those who patronized hotels, auto courts and resorts, providing a thorough cross section of Oregon vacation travel.
