Pilot Blamed for Clark Crash

Los Angeles, Oct. 7 (AP)—The civil aeronautics administration charged today that incompetence of Commercial Pilot James I. Hayter caused a plane crash in which Singer Buddy Clark was killed.

His incompetence caused a forced landing on Beverly Blvd. Saturday night, "creating a grave hazard to the lives of persons in the vicinity," said a complaint filed with the civil aeronautics board yesterday.

Hayter was accused of violating civil air regulations by over-

loading his five-place twin-engine Cessna plane, carrying insufficient gasoline, and flying into a cloud formation when he knew that his fuel was nearly gone.

Tornado Hurls Auto 15 Feet

Houston, Oct. 7 (AP)—A brief tornado skipped through the east side of Houston today. First report said a few houses were damaged.

An automobile on Telephone road was picked up and hurled 15 feet.

Witnesses said the twister moved across the area in a black cone.

Houston, whose 500,000 population makes it Texas' largest city, was hit by a hurricane early Tuesday but suffered little damage.

The automobile, owned by

Mrs. Paul James, a laundry employe, was turned for an end-over-end flip and deposited upright on a street curb about 15 feet from where it was parked.

Clifford W. Pfifer, a cafe owner, said he saw the twister moving in from the south.

"I stood at the door of the cafe and saw it lift the car in the air, flip it over one time and drop it," he said.

He said the twister lasted only a few seconds.
