50 Years of Lumber Service

The Timberman, a monthly Portland trade magazine devoted to the timber and lumber interests of the northwest, has issued an elaborate 80-page edition commemorating 50 years of service. It is profusely illustrated and filled with well-written articles and data on the progress SIPS FOR SUPPER and growth of the lumber and logging industry in the Pacific northwest.

The issue pictorially depicts the revolution in the industry's system of the past half century, the old and new mechanized methods of harvesting timber and the growth of conservation and replanting of forests for future operations

The Timberman was founded by George M. Cornwall, a all summer the weather man became confused and shoved the young Scotsman, in 1899, who, assisted by his son, George calendar a month ahead and has been giving us November weath-F. Cromwell, is still its publisher, at the age of 82. For why even Jim many years he played an active part, not only in jour-nalism but behind the scenes in public life, a friend and ad-bis State street viser of governors and legislators.

Much of the existing legislation affecting the lumber med a window industry reflects his progressive efforts. He was active full of Christ-in the passage of the Oregon Workmen's Compensation mas cards and Act, creator of the railroad commission of Oregon and of has Santa's rainforest legislation, he was instrumental in gaining amend- deer standing in ments to the Interstate Commerce Act conferring powers a snow drift. It of suspension on proposed freight rates, and active in the just goes to show old Oregon Editorial association of which he was long an

The election will put before the voters three proposi-tions: The first one will be an ordinance that will increase husband Ben over in Eastern the last legislature repealed a last most effective means of pro-the number of aldermen from seven to eight in order to Oregon hunting. In the morn-law passed in 1927 which pro-accommodate the proposed annexation of the West Salem ning the sounds seemed to have vided that October 12 was to be House decision has gone against transferred themselves to the a legal holiday and non judi-them, when the state depart-tion of the sound seemed on how the state depart-tion of the sound seemed on how the state depart-tern to the sound seemed on investigation cial day. Now it's tust another me, when the state depart-tion of the sound seemed on investigation cial day. Now it's tust another me, when the state depart-Salem with Salem. And the third is the annexation of an area lying southeast of the present city limits, along the South Twelfth street cut-off.

The first two propositions, those affecting the future of West Salem, concern the merging of two communities with common interests.

In July the people of West Salem voted overwhelmingly to merge with Salem. The vote across the Willamette river was 357 in favor of merger and only 130 against merger. The situation of West Salem as a unit being surrounded by Salem logically pointed toward a consolidation of the two communities. Certainly, both had similar interests. And those interests could best be served by the uniting of the two cities.

In order to continue to grow with an eys toward the future, the city of Salem should vote to take in the West Salem area.

And when the West Salem merger is voted, that section should be entitled to representation on the city council. The first proposition on the ballot covers that. The addi-The first proposition on the ballot covers that. The addi-tion of an eighth ward would give West Salem a voice field. The games at Waters park are very disappointing as we in the enlarged city administration. So approval of rep-resentation in the council is important, too, to the welfare of Greater Salem.

WASHINGTON MERRY-GO-ROUND **Present Navy Revolt Recalls Other Pressure Campaigns**

By DREW PEARSON

Washington--It's been a long time since the U.S. navy hung the son of the U.S. Secretary of War John C. Spencer, "at the yard-arm of the brig Somers for insubordination and attempted mutiny," but there's always been a certain amount of insubordination in the navy not unlike that flaring in the headlines today. There was the case when the

bombs, would be put out of com-mission and there should be some place for naval officers to

Junior's Getting Too Big

Tariffs on Cherries Remain, But-

Although no changes were made in the recent trade we are saying they could do bet-treaty with Italy. Willamette valley cherries will never- ter with twice or three times as theless be affected by recent events, as it appears now.

Senator Morse advises the Capital Journal that no change whatsoever was made in existing duties on either pitted or unpitted cherries. The present tariff of 5^{1} ₂ cents on unpitted and 912 cents on pitted brined cherries is thus continued. Other countries in the nation's trade program, besides Italy, will likewise be affected.

However, the devaluation of currencies will have an ad-verse effect on the United States cherry crops, despite the tariff. Growers in a foreign country were able to raise cherries for a figure with shipping costs that was, say, an amount, with the tariff, equal to that of domestic growers here. Devaluation changed that set-up, however. foreign currency was devalued, so the foreign growers' costs were even lower than before—in relation to American costs. Therefore, the foreign grower could then ship cherries into the American market at a figure, even with the tariff, that would undersell domestic products.

There is another consideration, too. That takes in the tariff figures, which were maintained but were established in 1930. It is enough to merely mention the lapse of time and what happened since then to costs of the growers.

So, this means cherry growers can resign themselves for some time now to finding foreign competition, aided by devaluation, on the home market. The tariff will limit imports to a questionable extent, but the advantages of the continued tariff are somewhat lessened by the recent foreign devaluations of currencies.
