Eugene Bans Slot Machines

Eugene, Oct. 12 (AP)—You won't be able to have fun with punchboards here—but you can skip over to neighboring Springfield and play the pinball machines.

The city councils of the two communities have arrived at opposite conclusions on the merits of legalizing the operation of amusement devices.

Springfield Mayor B. P. Larson voted "yes" Monday night to break a 3-3 deadlock and okay the licensing and regulation of pinball machines. At Eugene, the same night, the council reversed a previous decision and said "nay" to punchboards of the question and answer type. The previous vote was 5-2 in favor, but after hearing church and civic group protests, the vote against the idea was unanimous.

Another California school professor, Dr. Hugh T. Jones, was to read a paper on "Geriatric Principles in Bone Surgery" at the afternoon session.

The evening dinner will be followed by a panel group session on orthopedics with Dr. Harry C. Blair, Portland, the moderator.

and dairy products—are large enough to warrant use of government crop controls to hold down next year's production.

A surplus was indicated despite the fact that today's estimate of 3,477,000,000 bushels is 49,000,000 less than forecast

month ago. However congress must clarify conflicts in crop control legislation, the department has said, before it can invoke rigid marketing quotas.

The department said total production of all crops is now indicated to be 131 per cent of the 1923-32 base. This volume has been exceeded only by the 137 per cent of the base in 1948.

Most crop prospects improved slightly or were maintained during September, the department said.
