

Archduke Otto Tells Of Conditions in Europe

Europe is much improved and successful steps have been taken toward a United States of Europe. But the world picture is darker.

These are the observations of Archduke Otto of the Hapsburgs of Austria, in Salem tonight to speak at the Knife and Fork club and at Mt. Angel college in the afternoon to address the students and faculty there.

Vote Friday on Three Measures

Salem voters will go to the polls Friday to vote on three measures.

The one of outstanding interest is the merger of West Salem with the city of Salem, which has already been approved by the people of West Salem. If the vote Friday is favorable the merger act will be effective November 14.

A charter amendment is on the ballot that, if approved, will increase the number of wards from seven to eight, and also the number of council members from seven to eight. The new ward will comprise Kingwood in Polk county, and also West Salem if merged.

The third question is annexation of a large area southeast of the city. It lies south of Hoyt street, which it borders, and west of the Southern Pacific tracks. Its area is over 400 acres.

Voting places will be located as shown below for Friday's election:

Ward 1—Grant school, on Market street between Cottage and Winter.

Ward 2—Washington school, 12th and Center streets.

Ward 3—Second floor of City hall; and for the people of Kingwood and that part of Salem in Polk county, at 1094 Kingwood drive, entrance on Glen Creek road.

Ward 4—State heating plant, 12th and Ferry streets.

Ward 5—Mayflower building, 2135 Fairgrounds road.

Ward 6—Salem senior high school, 14th and D streets.

Ward 7—Leslie junior high school, Howard and South Cottage.

For annexation district southeast of the city—2830 South 12th, in Walling garage.

India's Position Stated by Nehru

Washington, Oct. 13 (AP)—India's Prime Minister Nehru assured congress today that his country "cannot be and shall not be neutral" in the event of any world aggression or threat to freedom.

But he declared, in identical speeches prepared for the house and senate, that "every prayer that an Indian raises ends with an invocation to peace" and he indicated a possible parallel between India's foreign policy and Mahatma Gandhi's creed of passive resistance.

The "father of India," said Nehru in his prepared address, "taught us a technique of action which was peaceful, and yet it was effective and yielded results which led us not only to freedom but to friendship with those with whom we were until yesterday in conflict."

"How far can that principle be applied to wider spheres of action? I do not know. For circumstances differ and the means to prevent evil have to be shaped and set to the nature of the evil."

"Yet I have no doubt that the basic approach which lay behind that technique of action was the right approach in human affairs and the only approach that ultimately solves a problem satisfactorily."

Microfilm State Income Tax Returns

More than 1,500,000 state income tax returns will be microfilmed to make a lot of space available for tax commission employees, the commission said today.

In the future, all returns will be kept four years before they are put on microfilm. The 1,500,000 returns to be filmed immediately are more than four years old.

The film will be sent to Portland for developing, and will be returned to the Salem office.

I Was a Male War Bride

The archduke, who has been gone from his native Austria since 1946, and was living in Paris, gives much credit to the Marshall plan for the improved conditions in Europe. Also lauded for the support that they have given Europe, especially its morale, is the Atlantic pact and the arms aid bill.

Otto's brother was in Salem shortly after the end of the war, and advocated the formation of a United States of Europe. Otto felt that the unity was being accomplished.

He spoke encouragingly and enthusiastically of the meeting of representatives of countries of western Europe held at Strausberg the past summer.

The most encouraging sign of the meeting and one that he felt gave evidence that a United States of Europe could be accomplished, was the fact that for the first time in the history of Europe delegates did not vote along national lines. Rather it was the political parties that influenced their votes.

United States of Europe can never be accomplished, however, according to Otto, until Eastern Europe is liberated. When this happens, he says, the Marshall plan can be discontinued within four to eight months and Europe will become self-sufficient, for it is in eastern Europe that the raw materials and food for all of Europe is found.

Waterways Bill Goes Over

Washington, Oct. 13 (AP)—Majority Leader Lucas (D. Ill.) told the senate today action on the \$1,500,000 omnibus rivers and harbors and flood control authorization bill will be postponed until the next session of congress in January.

Lucas said Chairman Chavez (D. N.M.) of the senate public works committee had notified him of his decision not to call up the bill this year.

He said Chavez informed him there is disagreement with the two Washington senators, Magnuson (D. and Cain (R.), who want Columbia river basin prospects added to the bill. Chavez said bringing up the bill now would result in too much debate.

Chavez left today to sail for Europe as a member of the senate appropriations committee. It was said Chairman Whittington (D. Miss.) of the house public works committee agreed to the postponement.

The omnibus bill was passed by the house earlier this year. It would authorize hundreds of projects throughout the country but appropriate no money to pay for the work.

Congress last week completed action on another measure—the annual army civil functions appropriations bill. It would appropriate \$634,000,000 for flood control and rivers and harbors projects of the army engineers in the fiscal year ending next June 30.

This bill now awaits President Truman's action.

The record books say that the Dempsey-Carpentier fight on July 2, 1921, was the first heavyweight championship to be broadcast.

Hapsburg Archduke Visits Mt. Angel—Archduke Otto, heir to Hapsburg throne, visited Mt. Angel monastery and spoke to seminary faculty and students upon European affairs Thursday. From left (front) Rev. Thomas Meier, abbot of Mt. Angel abbey and seminary president, greets Prince Otto. Back row, from left: Fathers Justin, Romuald, Albert, Francis, Alcuin and Damian.

Work Starts on Young Building

Construction has started on the lawyers' office building to be built by Don Young on Court street between the YMCA and the Court apartments, for which the city council gave clearance Monday night by a change of zone classification.

Having offices in the building will be Young and Robert W. DeArmond, who are associated but not in actual partnership. Young said that DeArmond would handle most of the trial work reaching the offices, and that in time a third man might be added for that work.

The building, to cost an estimated \$24,000, according to the building permit, will be 29½ by 100 feet, covering the whole lot, and will be of one story. It will be of early New England architectural style. The building will be of reinforced concrete with whitewashed brick front. Floors will be of asphalt tile and walls largely of veneer.

It will have 11 rooms—reception room, three private offices, filing, conference and secretary's rooms, library, two lounge rooms and a furnace room, the latter on the ground floor at the rear.

H. C. Hummell is the general contractor. Lith Kaye of Portland is the architect.

Other permits today: Bresco, Inc., for two one-story duplex dwellings, at 2680-2690 and 2685-2695 Broadway, each to cost \$13,400. Amel Smith, to re-roof a one-story dwelling at 1945 North Fourth, \$250.

Canadian Quadruplets
Sault Ste. Marie, Ont., Oct. 13 (AP)—Quadruplets were born here today to Mrs. Evelyn Hargreaves. All were girls and are reported "exceptionally well." Their weights are not disclosed.

Banker Talks on Installment Buying

Installment buying was credited with the development of mass production on a large scale and the providing of labor saving mechanical devices to persons who might have otherwise been denied their use by William Bell, vice president of the First National bank of Portland, as he spoke on credit before

members of the Salem Lions club Thursday noon.

Bell, a former resident of Salem, said installment buying had been denounced and praised by individuals and organizations, but as for himself he thought the practice had been of great economic value to the nation.

While some lending agencies may have extended too much credit, Bell said that 95 percent of the borrowers repay their loans without the necessity of field representatives.

The first political convention to be telecast was the 1940 meeting of the republicans in Philadelphia.

Canada Rejects Alaska Railroad

Ottawa, Oct. 13 (CP)—The federal government has considered and rejected the idea of helping provide a rail link between British Columbia and Alaska, informed quarters said today.

The idea came up for speculation because of the arrival here of British Columbia's Premier Johnson. He came here from Washington where he had gone at the invitation of Senator Warren Magnuson of Seattle, champion of the proposal.

Sources close to him said his visit to Washington has not changed his view that the rail proposal is a federal responsibility as far as Canada is concerned.

A federal official said the government already has considered the proposal to spread a network of lines through northern B. C., Yukon and Alaska Territory. One of its major advantages would be a vital transportation link in defense of the continent.

The government's feeling, however, was that the cost would not be justified.

"The government doesn't feel," the official said, "that the existing road, rail and water facilities are being utilized to their utmost."

Healy Speaker at Monday Luncheon

William E. Healy, assistant secretary of state, will be the speaker Monday noon before the Salem Chamber of Commerce, and his subject will be "A Business Adventure in State Government."

Healy was manager of the Chamber of Commerce at Ashland in 1946 and 1947, and formerly while living in Bellingham, Seattle and Olympia, was active in chamber work in those cities. In World War II he was an infantryman.

New members to be announced Monday are: James F. Bishop, city extension agent for 4-H work, 475 North Church; Edward James Zweschka, Fuller Brush company representative, 1745 Grant; Robert Engels and Lyle E. McCauley, of R. Engels Construction company, 1930 Market.
