

Sight Wrecks Of 2 Planes

Williams Air Force Base, Ariz., Oct. 22 (AP)—A rescue party toiled up a 6,000-foot mountain today toward two burned-out wrecks, believed to be two of three navy fighter planes that disappeared four days ago.

A civilian "rain-maker pilot" said there were "absolutely no signs of life" around the wrecks, which he spotted yesterday only four feet from the crest of a peak in the rugged ranges of Superior, Ariz.

Darkness last night prevented an air force helicopter and a navy plane sent to the scene from confirming the report, made by Pilot Chuck Barnes of Phoenix.

Meanwhile, a 50-plane search continued for the three single-seat F4U planes, missing on a ferry flight from El Paso, Tex., to Litchfield Park, Ariz.

Barnes said the wreckage was "very recent" because it burned holes in the snow which first fell Wednesday, the day the planes disappeared. Navy officials said the area was in a direct line with Miami and Safford, Ariz., where ground witnesses saw the three planes flying in formation.

The missing pilots were Lt. (jg) George A. Hecker, Portsmouth, Va.; Ens. James T. Pilegren, Shreveport, La., and Ens. John E. Lawrence, Jr., Grosbeck, Tex.

The dawn-to-dusk search team included paratroopers in a C-47 transport, a B-50 four-engine bomber, 25 single-engine air force planes, a dozen navy aircraft and two civil air patrol squadrons.

Men's Garden Flower Show

A wide variety of blooms, shrubs and vegetables went on display Saturday afternoon when the Salem Men's Garden club opened its annual fall show. The exhibition, being held in the store room formerly occupied by Sears at State and High, will be in place through Sunday. Entrance is from the High street side.

While early frosts damaged some varieties of flowers, the display of chrysanthemums, asters and roses is quite comprehensive. Fuchsias are well represented, one of the three varieties being in excess of six feet tall.

A number of commercial concerns are cooperating in the fall exhibition with displays. The vegetable portion of the exhibition was small as compared with the balance of the display.

Dozens of Czech Priests Arrested

Prague, Oct. 22 (AP)—Church sources said today that communist-directed police raids of the last two weeks resulted in the arrest of dozens of Roman Catholic priests and caused unrest in some Czechoslovak communities.

These sources estimated that more than 300 priests are now in jail, most of them for opposing the government's new church control law which makes them civil servants and gives the state control over all church appointments and financial and administrative affairs.

The police action against priests, which was stepped up to break resistance to the government's church control schemes, was separate from the widespread roundups of small businessmen which sent thousands of middle class elements to prison and forced labor camps.

Onions left in the ground over winter will sprout of themselves in the spring, even before all the snow is gone, giving tasty early greens.

City Folks Kick On Egg Prices

Washington, Oct. 22 (AP)—The department of agriculture has been getting letters from city folks protesting the high price of eggs.

All blame the government price support program. Under the program, the government bought more than 2,000,000,000 eggs during the first eight months of the year. The eggs were in powder form from drying plants in 12 states.

To protesters against high prices, the department has this reply:

1. If the government stopped its egg buying now, egg prices in cities wouldn't be any cheaper.

2. The purchases are only accomplishing what the law requires—holding farm prices of eggs on a national average at a level equal to the mandatory support level.

Since May, 1948, the government has had a standing offer to buy at fixed prices all the egg powder processors want to turn over to it. The only condition is that the processors pay at least a floor price of at least 35 cents a dozen.

The government still is picking up eggs under this 35 cent support program. The protesters are consumers who have to pay 75 to 90 cents a dozen.

Allen to Be Envoy To Yugoslavia

Washington, Oct. 22 (AP)—The United States is expected to name Assistant Secretary of State George V. Allen ambassador to Yugoslavia as part of the western campaign to stiffen Marshal Tito's resistance to Moscow.

Informed diplomatic officials said Allen is Secretary of State Acheson's choice for the key cold war post now held by the ailing Cavendish Cannon.

Allen is a former ambassador to Iran. There he had two years of first-hand experience in a distrustful neighbor country of Soviet Russia at a time when the relations between Iran and Moscow were particularly critical.

Offer Solution for School Fraternities

Portland, Oct. 22 (AP)—The parents who want to keep high school fraternities and sororities outlined a plan today that they hope will gain school board approval.

The school district hopes to abolish all secret organizations in high schools.

The committee of parents, whose youngsters belong to high school fraternities, worked out a possible compromise which would take the "secret" label off, but keep the groups exclusive.

Alaska Salmon Pack Very High

Seattle, Oct. 22 (AP)—Alaska's 1949 salmon pack was reported today at the highest figure since 1944, but the dollar value was off 17 per cent from last year's record high.

The U. S. fish and wildlife service reported the pack at 4,375,147 cases, compared with 3,974,540 last year.

The value was computed at approximately \$80,000,000, compared with last year's record \$96,000,000. The value estimate is on the basis of price to jobbers as listed by the salmon brokerage firm of McGovern and McGovern.

E. B. McGovern cited two reasons for the drop in total value for the bigger pack: (1) general reduction in salmon prices; for example pinks were \$23 to \$24 a case a year ago and \$16 this year; and (2) a sharp reduction in the pack of high priced salmon and an increase in the lower priced pinks.

The boost in the 1949 pack was in southeastern Alaska where the final total was 2,511,274 cases, compared with 1,283,791 last year and 1,090,000 in 1947. The southeastern pack was 95 per cent above last year, while the pack of other areas dropped. The sharpest fall-off was in Bristol Bay where the pack, which ended in August, was only 583,020 compared with 1,316,168 last year.

There were 119 canneries operating in the territory this year compared with 124 last year and 115 in 1947.

2 Hunters Die In Plane Crash

Klamath Falls, Ore., Oct. 22 (AP)—A duck hunting trip planned by two well known San Gabriel, Calif., hunters and their Klamath Falls pilot ended tragically shortly after this morning when the plane crashed near Tulelake, claiming the lives of two men.

The third in Klamath valley hospital here is critically burned.

Dead are Claude Stephens, pilot and Weyerhaeuser timber company employe. Valmont Kittle, San Gabriel business man.

Critically burned is John Harvey Kittle, retired San Gabriel resident.

Both Kittle and Stephens were burned beyond recognition and at 1:30 this afternoon their charred bodies remained in the plane, overturned in a drainage ditch near the Fensler home.

John Kittle, thrown from the flaming plane into the ditch, was pulled free by Jack Fensler and Herbert Kirby, who with Ed Fensler, witnessed the crash only about 150 yards in back of the Fensler home.

Jack and Herbert ran to the scene but were able only to aid the one man.

The other two were clearly visible in the burning craft.

One was still screaming and fighting to free himself from the flames. The other, his head split open, appeared unconscious.

The committee proposed that fraternity pins be allowed; hazing be banned; all meetings be chaperoned, and open at any time to inspection by a school representative.

Lady Godiva's Statue Unveiled

Coventry, Eng., Oct. 22 (AP)—Lady Godiva was undraped again today and this time everybody watched.

The bronze statue of the famous lady, who 900 years ago rode naked through the streets of this town, gave up her veils of British and American flags in an impressive public unveiling ceremony.

Mrs. Lewis Douglas, wife of the American ambassador, pulled the string that loosed the covering as the bells of blitzed St. Michael's cathedral tolled noon. But Lady Godiva appeared suddenly modest. The flags stuck to her when the cord was pulled and workmen had to prod them down with long poles.

It was the first statue the townspeople had ever had of their historic benefactress. Legend has it that at noon one day 900 years ago she rode forth naked in the streets, covered by her own long tresses, to force her noble husband, Leofric, earl of Mercia, to lower the taxes.

On that occasion the townspeople went indoors to let their beautiful lady pass unseen. But one guy peeped and became the almost equally famous peeping Tom. The story has it that the demonstration worked and the taxes were lowered.

Everybody peeped today at the 19-foot, two-ton statue of the lady, riding side-saddle, and slightly modest in her long hair, standing in a new square which had been blitzed out by Nazi bombers in World War II. The statue, gift of a local resident, cost \$56,000 and is the work of Sir William Reid Dick.

Some hoped as they watched in the cold drizzle, that this second appearance of Lady Godiva would mean lower taxes once again.

Another Hunting Death
Cottage Grove, Oct. 22 (AP)—Word was received here Saturday morning of the death of W. Marvin Harpole, prominent Cottage Grove citizen, who died of a heart attack Friday evening while hunting in eastern Oregon. He was a member of a party of Cottage Grove hunters.

The Jackson Memorial Research laboratory at Bar Harbor, Maine, has the world's oldest pure-bred strain of mice, covering 220 generations. It was started in 1909. The same number of generations in men would have had to start in 3500 B.C.

Windy Storm On Great Lakes

(By The Associated Press)
Rainy, windy weather, accompanied by sharp drops in temperature passed over the Great Lakes region today and drove eastward rapidly.

The storm was pushed along on west winds which reached 63 miles an hour at Gladwin, Mich., and developed 45 to 50 mile velocity last night over northern Illinois.

Behind the disturbance, temperatures were rising in the northern Rockies and northern plains after sub-freezing seizures. The southern plains and the southern Rocky mountain region had one of the coolest nights this fall. The mercury reached 14 degrees at Otto, N. Mex., 15 at Eagle, Colo., and 27 at Garden City, Kans.

Texas tornadoes hit the northern edge of Abilene and near Avery yesterday, killing a school teacher, injuring four others and causing damage to buildings and power lines.

A heavy snow blanket, as deep as 15 inches at Billings, Mont., remained in the wake of the blustery disturbance driving toward the east coast.

Last Bumps Off Scope Mirror

Palomar, Calif., Oct. 22 (AP)—The last microscopic bumps on the face of the 200-inch Hale telescope mirror have been removed, and the giant star-camera soon will begin searching the twin corridors of space and time for events that happened a billion years ago.

The big mirror, which pick up pinpoints of light originating more than a billion light years away, will be coated with reflecting aluminum before it is replaced in the telescope tube. (A light year is the distance light, moving at the rate of 186,000 miles a second, travels in a year).

The coating may take three weeks or it may require three months, says Dr. Ira S. Bowen, director of the Mt. Wilson and Palomar observatories.

Truman Cruising Down Potomac

Washington, Oct. 22 (AP)—President Truman was cruising down the Potomac today and putting the final polish on a foreign policy speech.

The presidential yacht Williamsburg anchored last night at Blakistone Island in the lower Potomac, ready to push off this morning for the mouth of the Patuxent river.

Mr. Truman's party will return to Washington Sunday afternoon. The foreign policy speech is to be delivered Monday at the laying of the cornerstone of the United Nations building in New York.

Soviet Building 10 Rocket Sites

Vienna, Austria, Oct. 22 (AP)—Russia has built at least 10 rocket-launching sites along the Romanian-Yugoslav border, the Romanian-Yugoslav border western diplomatic sources said today.

The sources said their information came from "highly reliable" informants in the Romanian army. The reports were "double-checked" before being accepted, they said.

The launching sites are equipped to handle rockets of both the V-1 and V-2 types developed by the Germans shortly before the war ended, the reports said.

"Special food larders and ammunition depots also are being built on the Rumanian side of the Romania-Yugoslav border," the reports said.

"Men aged 18 to 65 are being conscripted in these frontier areas to build the depots as well as fortification lines."

The reports said the Russian work had been hampered by repeated partisan attacks on supply trains, presumably made by Romanian adherents of Marshal Tito of Yugoslavia.

The soviets also have transferred a number of Albanian islands into submarine bases and automatic torpedo launching sites, the reports said, to outflank Yugoslavia from the sea.

Russia's Amtorg Corp. Indicted by Jury

Washington, Oct. 22 (AP)—A federal grand jury Friday indicted Soviet Russia's Amtorg trading corporation on charges of violation the foreign agents registration act.

Attorney General J. Howard McGrath announced the return of the indictment by a grand jury here. Amtorg represents Russian commercial interests in the United States.

McGrath said six officers of the corporation also were indicted. They are charged with omitting to file with the justice department a registration statement as an agent of the soviet government.

Bird Hunter Killed By Companion's Shot

Klamath Falls, Oct. 22 (AP)—Oregon's bird-hunting season is one day old. One man is dead.

Harvey McLing, 26, Klamath Falls, was wounded fatally by a shotgun blast from a fellow hunter's gun yesterday.

Sgt. Earl Tichenor of the state police said McLing was one of five hunters moving in a semi-circle through a field in the nearby Midland area. When a pheasant boomed out of the grass, someone fired. McLing fell.

Tichenor said Robert Wright McFarland, Portland, admitted firing the shot. He said McFarland was not being held.

Asks Cessation of Taping Fire Hydrants

An appeal was made Saturday by E. L. Smith, an officer of the Salem fire department for youngsters of the city to cease defacing and removing

"Scotch Lite" Tape from Fire Hydrants

The tape was donated to the department as the result of a public service drive by the Salem Lions Club.

It makes the hydrants readily visible for firemen as well as pedestrians and autoists at night, and enables the firemen to locate the nearest hydrant more quickly in emergencies.

Smith said that the tape had been removed or destroyed in many instances and appealed to the youngsters believed to be responsible to cease their vandalism.
