

Stocks Decline Up to a Point

New York, Oct. 28 (AP)—The stock market went into a slow decline today after an early effort to rise. Losses were small for the most part, a few running to more than a point, and a good many issues tacked on small gains. Chrysler stood out with a rise of two points at one time, following an increased dividend and excellent earnings report. A substantial amount of business was done, with turnover at the rate of around 1,500,000 shares for the full session. Among the losers were U.S. Steel, Goodrich, Lockheed, Admiral Corp., Allied Chemical, Southern Pacific, Standard Oil (NJ), and Paramount (old). General Motors and Bethlehem Steel tended upward, with Woolworth, Douglas Aircraft, General Electric, Texas Co., and Loew's.

W U Bonfire Fired Too Soon

One portion of Willamette university's homecoming program, usually the high event of the activity schedule, received a serious setback early Friday when unidentified persons touched off prematurely the bonfire slated for firing following the noise parade.

One of the largest piles of debris ever collected for a homecoming celebration which students worked diligently to accumulate on the Bush pasture athletic field went up in smoke and flame. Somewhat chagrined but not at all daunted through the loss of the original pile of combustibles, students went to work gathering a new heap. It won't be as large and as hot, but there will be a fire nevertheless. President G. Herbert Smith learned early Friday morning that the freshmen had been on the job cleaning up the campus, as directed. When he emerged from the front door of University house, official residence of the president, he found the front porch heaped high with leaves.
