

# French Cutie Shocks Hollywood With 'Low-Behold Necklines'

By VIRGINIA MacPHERSON

Hollywood, Calif., Nov. 2 (AP)—Denise Darcel, the buxom French cutie who's shocking the town with her "low-and-behold" necklines, said today she wears her curves out in the open because she "just loffs to please everybody... especially ze mens."

"Wherever I go," she dimples, "zey make weeze ze wheastles and ze screams and ze looks. Oooh, la la! I loff zose zeengs."

Miss Darcel, who was "the most beautiful girl in France," a few years back, is not one to hide her charms beneath a high decolletee.

Whenever she goes shopping, out to lunch, out to the studio, or out to dinner, she promptly stops traffic with her necklines. They are about as low as they can get and not be a waistline. And, with a girl of Darcel's structure, that leaves plenty to behold.

"Do I shock you?" she asks. "After all, I am a woman, no? Eef I 'ave prettee laigs I wear short skirts. So?? I am a 39... I wear plunging necklines."

"I want to look good, always. And low decolletee, eet ees good for me. I say to myself, 'Denise, try to please everybody... especially ze mens!'"

When she first hit Hollywood, fresh from a triumphal season in Paris, the wolves fell over each other scrambling to her doorstep.

### Shocks Hollywood—Denise Darcel, buxom French actress who's shocking Hollywood with her "low-and-behold" necklines, says she dresses that way because she "just loffs to please ze mens."

### Mrs. Sloper Hostess For Murphy Family

Stayton — Mrs. Edna Sloper was hostess for the members of the Murphy family at her home honoring the birthday of her youngest brother, Harold (Pat) Murphy of Albany.

Present were the guest of honor, Pat Murphy, and his son from Albany; Mr. and Mrs. W. E. Gronso, Mr. and Mrs. Lewis Clark, Mr. and Mrs. Byron Robertson, all of Lebanon; Mr. and Mrs. Grant Murphy of Salem; Mr. and Mrs. Clarence Jungworth of Lyons, Mr. and Mrs. Bill Williamson, Mr. and Mrs. John Potter, Mr. and Mrs. Algie Murphy, Mr. and Mrs. Avery Nightingale and family, Clarence Murphy, Mrs. Dora Mark-

### Pres. Truman Signs Last Bill of Session

Washington, Nov. 2 (AP)—President Truman has signed the last bill before him from the first session of the 81st congress. The measure, signed late yesterday, gives the court of claims jurisdiction to render judgment on claims of employees of the Alaska railroad for overtime work.

The president's action brought his record for the 81st congress to 792 bills approved and 32 vetoed.

### Linn Linemen Escape Death

Lebanon, Nov. 2 (AP)—Six telephone company workers escaped injury in a freak accident that disrupted power and telephone service within a 25 mile radius.

Kenneth Sims, manager of the Mountain State Power company, said the six were holding a telephone wire when it came in contact with a 12,000 volt power line.

The electric charge, instead of passing on into the ground as it normally would, set up an arc with a 68,000-volt power line on the same power pole.

The men felt the shock, but were not even burned, Sims reported. But the circuit-breaker was thrown out with such force at Lebanon it was damaged and circuit-breakers were thrown at Albany, Lebanon, Corvallis and Sweet Home as well.

Telephone company lines were blown out, too, at Sweet Home, and there was some damage at the Lebanon plant.

The power and telephone service interruptions ranged from 10 to 30 minutes.

### Burn Straight-Jackets Hospital Discarded

Anoka, Minn., Nov. 2 (AP)—Patients at the state mental hospital here celebrated Halloween with a bonfire fed by strait jackets they used to wear.

Gov. Luther Youngdahl hailed the fire, which consumed 324 strait jackets and other mechanical restraints formerly used at the hospital, as an answer to "witchcraft."

Pointing out that most of the state's seven mental hospitals no longer used mechanical restraints, Youngdahl said:

"By this action, we say that we have liberated ourselves from witchcraft, that in taking off mechanical restraints from the patients, we are taking off intellectual restraints from ourselves."

### 'FANTASTIC BUT POSSIBLE' Invisible Light Ray May Control Life and Death

Los Angeles, Nov. 2 (AP)—Life and death on this planet may hang by so nebulous a thread as an invisible ray of light.

Two separate announcements Monday, one by the California Institute of Technology, the other by the University of California at Los Angeles, brought this grim spectre into the realm of scientific speculation.

Sixty miles above the earth exists a heretofore unknown layer of oxygen molecules which mysteriously change the wavelengths of the sun's deadly ultra-violet rays to infra-red heat rays.

This was announced by Dr. Joseph Kaplan, UCLA professor of physics.

If some sudden piercing of the earth's atmospheric shield—perhaps by a comet or an atomic explosion—should let that layer of oxygen molecules escape life might vanish from the face of the globe under the bombardment of ultra-violet radiation from the sun.

The effect of certain types of ultra-violet rays on living organisms may be judged from an announcement by Caltech's Dr. Renato Dulbecco, who disclosed discovery of "life rays" and "death rays" in his studies with invisible light.

A certain kind of light, he said, can kill a little-known bacterial virus, and another kind of light can bring the same organism back to life.

The killing light is an ultra-violet shortwave. The "life ray" is a barely visible light wave.

It's a HEATER! It's a FAN! Upstairs, downstairs, all around the house! In any room... in any season... you'll find use for this new Fresh'nd-Aire All-Season comfort appliance.

The amazing low price of \$14.95 includes Federal tax. P.S. Try it as a hair dryer... for defrosting frozen foods... drying clothes and any one of dozens of other household chores.
