

State Center Fireball Target

Eugene, Nov. 5 (AP)—Dr. J. Hugh Pruett, western director of the American Meteor society, announced here today that Oregon's daylight fireball of October 1 had as its target a point not far from the geographic center of Oregon, in western Grant county.

The tailed meteor, described by some observers as being "as large as the full moon," flashed through sun-burnished skies at 2:30 p.m., on October 1, opening day of the 1949 deer hunting season in Oregon, and was widely observed by hunters.

It was the second daylight fireball traced by Dr. Pruett, University of Oregon astronomer, in his 17 years of service as the American Meteor society's No. 1 fireball hunter. The other daylight fireball charted by the astronomer was the noisy Portland meteor of July 2, 1939. The 1949 fireball has been named the Hunters' Silver meteor.

Like the Portland fireball of 10 years ago, the Hunters' meteor also was a noisy object. Some hunters, east of Prineville and south of Mitchell, heard a sound like the roar of thunder. Oscar Storasi, Prineville, believed the meteor struck the earth and said the noise and vibration were "terrific." He was in the woods hunting.

Forty-four different readings on the meteor were obtained by Dr. Pruett. These, he said, included a number of fine compass readings that made it possible for him to place the point of disappearance some 10 miles above the earth, 25 miles directly west of Canyon City, in western Grant county.

Pugh is currently holding the position of general secretary of the Portland Y. He came west from South Bend, Ind., last March. Subject of his talk will be "A Date With Youth."

Tinkham Gilbert, president of the board of trustees, will preside during the dinner and the business meeting that will follow.

Sanitary Authority May Issue Ultimatum

Portland, Nov. 5 (AP)—The state sanitary authority will meet December 9 to decide whether to issue a "stop polluting the river or close your plant" ultimatum to mills on the Willamette river.

A spokesman for one pulp and paper mill told the authority yesterday that it couldn't possibly obey an order to stop dumping waste into the river by December 31, 1951. The 1951 date is being considered, since that is when Portland's new sewage disposal system will be finished.

Frank McCullough, attorney for Publishers Pulp and Paper company at Oregon City, declared that his firm could not comply with the order, because it simply couldn't find any other way to dispose of the waste.

He warned that the firm might go to court, should the ultimatum actually be issued.

Nehru Ends Tour Of United States

Madison, Wis., Nov. 5 (AP)—Prime Minister Jawaharlal Nehru of India ends his goodwill tour of America here as he began it—promising little, hoping for much, but too proud to ask for a thing.

In a 23-day tour that carried him 9,500 miles through this country and Canada, Nehru has proclaimed neutrality in the cold war. But he has outlined the strategy which the west seems to like although Russia did not.

In more than 40 public speeches he called for peace; said he doesn't like communism; said he finds Americans friendly and peace-loving, and said India is willing to fight if aggressors imperil human freedom.

What has he promised? In speech after speech he promised friendship to those who will respond with generous and not-demanding friendship; and fair treatment to American investors willing to help his country industrialize and reach for the prosperous economy to which it aspires.

He told audiences his dollar-short country needs wheat to feed the poverty stricken masses and wants to pay for it; two big steel mills it lacks the dollars to equip; hydroelectric development and technical skills which it also lacks the dollars to buy.

Firmly he said India is not asking for a handout but hopes government and private investors can see a way to cooperate with his country in getting these things on terms it can afford.

IN GRANDMA'S DAY

In grandma's day the spinning wheel and the old hand loom were familiar sights. Long before this time, when great-grandmother was young, the girls of the family were taught to spin yarn and weave cloth, and many of the simple garments of those days were the products of their delicate hands.

The spinning wheel and hand loom have gone the way of the wooden plow, the ox cart, and the grandfather's clock. They exist today mainly as relics of a colorful past.

New inventions and new methods are constantly replacing old ones. Human life sweeps on in a world of change. The only abiding things are the things of the mind and spirit; faith, hope, and love are the great eternal.

Man needs a spiritual anchorage in a changing world. And the Church points him to God, who is the same yesterday, today, and forever. He is man's rock and refuge in every age.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
